

# XML Test Reporting

XML Test Reporting Plugin was bundled with TeamCity 4.5. The recent version is [described](#) in the online documentation for the latest TeamCity version.

## General Info

Vendor	JetBrains
License	Apache 2.0
Type	free, open-source

## Plugin Description

Plugin adds support for reporting tests in TeamCity from JUnit Ant task, Maven Surefire, NUnit-Console XML reports, MSTest TRX (Since 6.5) and Google Test (Since 6.5) reports. Plugin also supports reporting code inspections from FindBugs, PMD, Checkstyle (Since 5.1), JSLint (Since 6.5) and CTest (Since 7.0) XML reports and code duplicates from PMD Copy/Paste Detector XML reports.

To learn more about the plugin, please see the [plugin page](#) in the documentation for the latest TeamCity version.

## Plugin Development Status

Production quality.

## Installation instructions

TeamCity versions earlier than 4.5.

To install a custom plugin build:

1. Put `xml-report-plugin.zip` into the `<TeamCity Data Directory>/plugins` folder.
2. Restart the server.
