

AccuRev

General Info

Initial author	Francois Retief
Committers	Abraham Odamteng, Daniel Nolan, Mark Baker
License	Apache 2.0
Type	free, open-source

Plugin Description

Adds the [AccuRev](#) version control support.

Plugin Development Status

Is used in production by several customers.

TeamCity Versions Compatibility

The current plugin version is designed to work with TeamCity 5.1 and above versions.

AccuRev Versions Compatibility

The plugin was designed to work with AccuRev v4.7 or later.

Download

Directly from public TeamCity server:

- the [latest build](#)
- the [version](#) known to be compatible with TeamCity 4.0.x

Documentation

Installation instructions

1. Put `accurev.zip` into the `<TeamCity Data Directory>/plugins` folder.
2. Restart the TeamCity server.

Readme

See [README.txt](#) for the plugin.

Known Issues

- Checkout on server-side only supports clean checkout; please agent-side checkout if you require incremental checkout (i.e. builds with "clean" option unchecked)

- Checkout on server-side does not preserve permissions of files or symbolic/hard links
- Remote run from IDE is not supported
- Checkout rules are not fully supported

Feedback/Support

If you believe you've found a bug or want to ask a question on the plugin, please use the TeamCity plugins [forum](#) or contact the authors.
