

AppCode 2018.3 EAP, build 183.4284.51

Code: Editing	Bug	OC-11818	Swift: strings are broken when pasting multiline content inside
Code: Resolving	Bug	OC-17787	Ambiguous resolve of '-' operator from SDK
Code: Completion	Bug	OC-15621	Syntax completion shows non-matches above matches
Unit Testing	Bug	OC-17784	"Indexing 'XCTest' scopes" takes a long time on every startup
Project View	Usability	OC-18003	Open .intentdefinition files in Xcode on double click in project view
Project and File Wizards	Bug	OC-18040	File New File from Xcode template... leads to crash
Running	Feature	OC-10697	Run/debug iOS Extensions (e.g. Today)
	Bug	OC-17954	"Choose an app to run" window: applications are not sorted in the list
	Bug	OC-17952	Incorrect "No matches found" when loading "Select host app window"
	Bug	OC-17932	Created in AppCode application extension run configuration doesn't work properly in Xcode
	Bug	OC-17925	Disconnect/reconnect device doesn't stop extension session but makes it unusable
	Bug	OC-17869	No ability to use keyboard arrows to select host app in the "Choose an app to run" window
	Bug	OC-17910	Run button remains disabled for a long time (10-15 seconds) if cancel Select Host window.
	Bug	OC-17844	Fail to run extensions with non-standard bundle identifiers
	Feature	OC-17790	Icons for extensions in run configurations
	Feature	OC-17760	Setup Intentions extensions
	Feature	OC-17532	Run/Debug app extensions on simulator
	Bug	OC-18047	Select by mouse stop working in "Choose host app" dialog
	Bug	OC-17940	Capture app extensions output on Simulator
Product Documentation	Feature	OC-17889	AppCode Training plugin for Swift
Swift Support	Usability	OC-11453	Improve #directives completion in Swift
Xcode Integration	Bug	OC-17862	Running into "Error: unable to attach DB: accessing build database is locked. Possibly there are two concurrent builds running in the same filesystem location" multiple times a day with Xcode 10
Code: Highlighting and Inspections	Bug	CPP-14571	Message "Clang Tidy: No space left on device"
	Bug	CPP-14621	Cannot disable Argument Selection Defects inspection
	Performance	CPP-13981	Sending clangd request might lead to freezes
Code: Navigation	Feature	CPP-14305	Provide code navigation via clangd
Code: Parsing	Bug	CPP-13255	CLion failed to parse preprocessor #pragma with curly brackets
Dynamic Analysis Tools	Cosmetics	CPP-14388	Handle empty `Sampling frequency` correctly
	Task	CPP-14466	Jump to Source navigation for DTrace profiler
Toolchains	Bug	CPP-14566	Toolchains UI: Background text for empty Windows toolchain path field is incorrect

	Bug	CPP-14014	CLion doesn't work correctly with several remote toolchains (one target)
Unit Testing: Google Test	Bug	CPP-14549	CLion hangs while Indexing 'Google Test' scopes
Editor. Editing Text	Bug	IDEA-201625	Text jitter in editor when tabs are used for indentation (on a fractional-scale monitor on Windows)
Terminal	Feature	IDEA-191464	Add environment variable to terminal detect if running in IntelliJ IDES
	Bug	IDEA-201601	Sometimes terminal shows broken prompt on IDE startup
User Interface. Accessibility	Bug	IDEA-201843	NavBar popups are closed on up/down/speed search
	Bug	IDEA-182960	Screen Reader Accessibility: Autocomplete
Version Control. Git	Usability	IDEA-190367	Shortcut for git branch by default
Version Control. Log	Bug	IDEA-198803	VCS log shows garbage in "author" field, looks like a corrupted index
	Cosmetics	IDEA-195976	Fix progress bar in VCS Log in darcula
DB Introspection	Feature	DBE-7198	DataGrip Should Provide Pattern to functionNamePattern in DatabaseMetaData.getFunctions() call.
SQL Format and Style	Feature	DBE-6819	Indent-only no-alignment code style (also C-like style)
	Bug	DBE-7220	Indent everything between BEGIN TRANSACTION and COMMIT statement MSSQL
	Bug	DBE-1376	SQL Formatting: line break before closing ")"
SQL Refactoring	Feature	DBE-636	SQL Intention: Introduce/inline table alias
