

PhpStorm 2016.2 Release Notes

PhpStorm 2016.2 Release Notes

PHP Completion	Feature	WI-22487	add argument naming suggestion without "Interface" suffix
	Feature	WI-9403	Add option to filter out static methods from \$this-> completion
	Feature	WI-32428	Completion inside 'declare' construct
	Feature	WI-31428	Autocomplete for function/method arguments with/from class properties
	Feature	WI-31426	Manually invoke type-matching autocomplete list for function/method parameters
	Feature	WI-31568	Smart Type Code Completion
	Bug	WI-32267	No variable autocomplete for function call inside foreach header
	Bug	WI-32340	auto-completion preselects obscure never-used lib references before language intrinsics (like `false`, `true`, etc)
	Bug	WI-31620	Completion list contains closing control structures
	Bug	WI-32017	Second completion invocation on after namespace suggests all classes and lead to incorrect code
	Bug	WI-32271	Smart Completion: only arrays and string are suggested for variadic parameter
	Bug	WI-32270	Smart Completion: Filter all functions that returns mixed null to make completion really strict
	Bug	WI-29705	Completion after a function's parameter type
	Bug	WI-31147	Invalid intention\autocomplete in function args
	Bug	WI-32144	Const keyword is missing after visibility modifiers
	Bug	WI-31799	Implementing interface with return typehint doesn't import the namespace
	Bug	WI-31995	'namespace' operator is not suggested as a part of FQN
	Bug	WI-31997	List of completion after 'namespace' operator when it's a part of FQN contains all of elements that are not applicable
	Bug	WI-31643	Completion doesn't insert parentheses for exceptions in throw
	Bug	WI-31926	'Autopopup in (ms)' option has no effect
	Bug	WI-32328	Static methods are not filtered after \$this->
	Bug	WI-32007	Don't show class members after global keyword
	Usability	WI-31375	Implement an option to disable function parameters completion
	Usability	WI-31370	Allow new autocomplete for function/method arguments comma "," to overwrite t
	Usability	WI-31980	Disable completion of keywords after integers without space
	Usability	WI-31682	Filter everything but exceptions (\Throwable) after @throws
	Usability	WI-3195	PHP: code completion in a global declaration inside a function could suggest global variables
Usability	WI-32318	Smart completion: Don't fallback to standard completion	
PHP Formatter	Usability	WI-32220	Return call tree analysis depth to initial value instead of 1 on selection of No in Performance Note
	Usability	WI-32129	Remove ability to generate @type tag
PHP Inspections	Feature	WI-28549	Do not show warning for unused parameters in anonymous functions

	Feature	WI-32279	Provide strict checkbox for Incompatible type inspection
	Feature	WI-28318	New Inspection: strict type inspection for PHP 7
	Feature	WI-15377	Unused import: support namespaces import
	Feature	WI-140	New inspection: Validate type of return statements against PHPDoc @return (new inspection & quickfix)
	Feature	WI-9390	New Inspection: dynamic call to static method
	Bug	WI-28627	Unresolved include: doesn't interpolate values of class constants
	Bug	WI-32348	PHP7 Scalar Type inspection failed on EAP 162.1120.13
	Bug	WI-27459	Unused import: support functions and constants
	Bug	WI-32278	Change return type doesn't handle multiple return types
	Bug	WI-32374	Strict type: allow multiple type to be convertible to single one
	Bug	WI-28319	Add inspection (PHP 7): declare(strict_types=1) should be the very first statement
	Bug	WI-22774	Missing @throws tag: doesn't analyze PHPDoc for defined exception
	Bug	WI-32185	Usage of 'class_exists' should not be considered as an import usage
	Bug	WI-32331	Make call static shouldn't be applied to method calls on the result of function call
	Bug	WI-31768	Imported constant (alias) is resolved ignoring case sensitivity
	Bug	WI-32360	Strict type: don't trigger inspection for "mixed" and "undefined" type
	Bug	WI-32170	Namespace is marked as unused if it's used as partial import
	Bug	WI-32171	Use statement mark as unused if class name case in use doesn't equal class name declaration
	Bug	WI-32280	Change return type doesn't work for plural type
	Bug	WI-32213	Use statement is marked as unused if there is multiresolve and usage is inside PH
	Bug	WI-32357	Strict type: float return type
	Bug	WI-32354	Strict type: null default value for parameter relax type to type null
	Bug	WI-32355	Strict type: function invocations from global namespace without leading slash lead type error
	Usability	WI-32113	Move configuration of "Missing @throws tag(s)" to Code Style
PHP debug	Feature	WI-28571	Load XDebug extension on demand for CLI debug configurations
	Bug	WI-32264	"Copy path" has disappeared from the debug context menu in the 2016.2 EAP
	Usability	WI-18933	Dropdown menu "Absolute path on server" in Settings/PHP/Servers is unreadable when selected
	Usability	WI-27741	Run PHPinfo with configuration options of selected PHP interpreter
	Usability	WI-30394	Project interpreter: default interpreter is changed to application level one during t name collision resolve
	Exception	WI-32334	Addition of method to skip list throws AbstractMethodError
	Exception	WI-28816	Debug console: Exception is thrown on typing }
PHP lang	Feature	WI-30762	Support PHP 7.1 class constant visibility modifiers
	Feature	WI-32045	Type inference: Support type hinting for implementors of IteratorAggregate that returns array
	Feature	WI-28970	Make parameter based type provider (Factory advanced metadata) work with constants as argument
	Feature	WI-679	Type inference: Support type hinting for implementors of Iterator / IteratorAggreg

Feature	WI-22284	Add support for @internal phpdoc tag
Feature	WI-941	Add throw to method phpdoc if method call function which throws exception and method doesn't catch it.
Feature	WI-18972	Type inference: Support type hinting for iteration over implementors of Traversable
Feature	WI-31357	Show values of class constants in a completion list
Feature	WI-32002	PHP 7.1 will have support for null return types and nullable arguments
Feature	WI-19377	Make element access for array property Write Access
Feature	WI-30730	Support for keys in the list() construct in PHP 7.1
Feature	WI-15958	Type inference: extend type inference of already inferred variables
Feature	WI-6798	Type inference: Type inference for array elements got via PHP array functions
Bug	WI-32263	Typehinting issues with arrays with string keys if PhpStorm Advanced Meta exists
Bug	WI-30055	only first property in list() keyword will be interpreted as write access
Bug	WI-31505	PHPStorm incorrectly uses ArrayAccess's offsetGet to determine types for iterator
Bug	WI-32383	Type inference for array elements got via PHP array functions doesn't work inside namespace without leading slash for array functions calls
Bug	WI-31102	PhpStorm Advanced Metadata for global factory functions called from within namespace doesn't work since version 2016.1
Bug	WI-32361	\ (FQN) is needed for global constants used in a namespace
Bug	WI-30092	<value> expected, unexpected error in php files named *.json.php
Bug	WI-32327	Generating PHP7 getters and setters insert null as a return/scalar type
Bug	WI-20533	PHPDoc blocks are not properly generated (omitted @throws tag and extra "@throws Exception")
Bug	WI-32173	Class use is marked as unused if there is a namespace with the same name
Bug	WI-31841	Don't filter out Exception if other type is not a Throwable
Bug	WI-32314	Generating PHP7 getters and setters break code for static type
Bug	WI-12046	Diagrams are ignoring namespaces
Bug	WI-32313	Generating PHP7 getters and setters break code for plural type
Bug	WI-32315	Generating PHP7 getters and setters break code for multiple type
Bug	WI-27646	No autocomplete for objects in array after array_filter
Usability	WI-25024	If "Analyze immediate calls" is off, PhpStorm should not auto-generate throws using "Recursive exception scan"
Usability	WI-31617	PHPDoc generation adds unhelpful @throws null if type of throwable is Exception (and validator insists on it)
Exception	WI-32169	Exception is thrown on attempt to extend selection for unclosed namespace statement
PHP templates	Bug	WI-31970 Blade syntax highlighting is not visible in Settings preview
PHP test	Bug	WI-30769 Re-running large number of failed unit tests failed with: preg_match(): Compilation failed: regular expression is too large
	Bug	WI-32121 PHPUnit version is not detected correctly for remote interpreters
	Bug	WI-32189 PhpStorm can't parse Behat 3.1 version on Windows
	Bug	WI-32231 Sometimes running unit tests via PhpStorm gives me "syntax error near unexpected token"
	Bug	WI-32132 PhpStorm fails to run BEHAT tests using PHP 5.3

	Usability	WI-31432	PHPUnit: improve error reporting for invalid run-configuration
	Usability	WI-24808	PHP notice when running PHPUnit tests with alternate result printer
PS specific	Feature	WI-31621	Integrate template projects into PhpStorm
	Feature	WI-31585	Support url rewriting defined in .htaccess files
Plugin: Deployment _ FTP..	Bug	WI-26365	Downloaded file is truncated on outdated size
	Bug	WI-17655	Remote Host locks up editor when trying to connecting to FTP
	Bug	WI-31646	Lock in connection creation
	Bug	WI-31518	Broken node refresh in Remote Host
	Exception	WI-32239	UOE at com.jetbrains.plugins.webDeployment.remoteEdit.fs.RemoteVirtualFile.getInputSt
Plugin: WordPress	Bug	WI-32155	WordPress module detection does not work for WordPress 4.4.1
	Usability	WI-31872	Keep last Wordpress installation as a setting
Plugin: htaccess	Bug	WI-31974	Rename folder wrong change reference
Php Intentions	Feature	WI-30441	Generating getters and setters should use PHP7 capabilities
Plugin: Joomla!	Bug	WI-32454	Add validation for joomla project generator
	Bug	WI-32438	Clean-up joomla generators
	Cosmetics	WI-32449	Wording in Joomla! Support pop-up
No subsystem	Feature	IDEA-152667	Spring: @Cacheable/@CachePut (value/cacheNames) should be defined
	Bug	IDEA-152628	shift-F1 displays two URL
	Bug	IDEA-155297	Inconsistent Launchpad Icon on Non-retina Display
	Exception	IDEA-156811	NPE with any dm server activity
Code Formatting and Code Style	Bug	IDEA-52549	Reformat Code misbehaviour in a XML file
	Bug	IDEA-141916	The code formatter:off (//@formatter:off) does not work as expected.
Database	Bug	IDEA-149374	Import Database Schema from Oracle datasource can not detect varchar2 data ty
	Usability	IDEA-146810	When you attach an previously-never-attached file to a console the console choos shows lazily
Docker	Feature	IDEA-142322	Add possibility to close attached console
	Bug	IDEA-151199	Docker: (on win / mac): Compute the local volume bindings considering virtual bc path mapping
	Bug	IDEA-154429	Docker Compose: start/stop action for services
	Bug	IDEA-155691	Docker: attach fails for remote Docker with insecured HTTP access
	Bug	IDEA-146876	Docker: code style for Dockerfile
	Bug	IDEA-146347	Docker Plugin fails to attach to container running on server bound to unix socket
	Bug	IDEA-153414	Docker-compose Redeploy should rebuild before deploying
	Bug	IDEA-154430	Docker Compose: scale action for services
	Bug	IDEA-150970	Docker: edit container settings in the Docker view
	Usability	IDEA-155356	Docker. Order containers and Images in the Docker View.
Editor. Editing Text	Feature	IDEA-152792	Force reformat code for empty line when uncommenting several commented lines
	Bug	IDEA-151783	Copying and pasting "\0" does not work

	Bug	IDEA-151101	Double-clicking a word following an escape sequence (e.g. \t) includes the escape sequence letter in the selection
	Bug	IDEA-152063	IntelliJ fails to use encoding from project settings for files containing breakpoints when project is opened
	Bug	IDEA-154663	column selection mode error
	Bug	IDEA-155683	Incorrect indentation after else
	Usability	IDEA-156760	'Non-project files protection' dialog is hard to use with a keyboard
	Usability	IDEA-121829	Disallow editing of framework/third-party files
	Usability	IDEA-156759	Add an option to 'Non-project files' protection dialog to edit files in a folder
	Usability	IDEA-156758	Disable non project files writing protection, when file is opened explicitly
IDE Configuration	Bug	IDEA-149309	Set "-XX:HeapDumpPath" and "-XX:ErrorFile" in IDE launchers (was: Make process run in \${idea.system.path})
Indices	Bug	IDEA-145785	ArrayIndexOutOfBoundsException when requesting index stubs
JSON	Performance	IDEA-157546	IDEA freeze during running inspection profile
JavaScript Debugger	Bug	IDEA-151992	Debug watches for functions in Nashorn does not work
Packaging and Installation	Bug	IDEA-117358	update conflicts - can't change proposed solution
	Bug	IDEA-157339	162.188.8 doesn't find JVM, won't launch
	Bug	IDEA-133278	Cannot choose Solution in update conflict actions dialog
SQL	Bug	IDEA-152649	nextval syntax for DB2 not supported
	Cosmetics	IDEA-153121	Input field 'Name' not high enough under tab Advanced of Database source
Task Management	Bug	IDEA-130279	sporadically missing actions/buttons in "Time Tracking" tool window
User Interface	Bug	IDEA-157790	Background image: Java Enterprise toolwindow still has some tabs empty
	Bug	IDEA-125027	File name displays with folder in the Editor tab for controller's views
	Usability	IDEA-149590	Open File dialog should display icons for registered directory types (e.g. bundles c X)
	Cosmetics	IDEA-154631	wrong directory's icon
Version Control	Bug	IDEA-142061	Applying patch deletes blank lines
	Bug	IDEA-153138	"Unshelve..." does not work properly when several files with the same name exist in the project
Version Control. Perforce	Bug	IDEA-153867	Perforce Job selection window cannot be resized
No subsystem	Bug	DBE-2742	Explain Plan not working for Sybase ASE 15.0.3
	Task	DBE-2657	DataGrip should ask user if they want to associate *.sql files with DataGrip
DB Introspection	Bug	DBE-2485	Database-Window: OR-ing object filters does not work in datasource properties
DB Refactoring	Bug	DBE-2535	Add/Update rows with xml columns datatype
DDL\PL Editor	Bug	DBE-2101	Create Function that returns TABLE alters to returning SETOF
Data Viewer	Feature	DBE-2604	Unable to edit column with int4range (and potentially all range types) postgresql type.

	Feature	DBE-2565	When copying rows as INSERT provide an option to include/exclude table autogenerated id
	Feature	DBE-2743	select whole row in grid view
	Feature	DBE-2586	Change column widths with keyboard
	Bug	DBE-273	Sorting results grid with row selected causes horizontal scroll position to change
	Bug	DBE-2729	Default size of columns should be set according to the value
	Bug	DBE-1955	PostgreSQL: Table Editor: can't delete a row with not null timetz value
	Bug	DBE-1956	PostgreSQL: Table Editor: can't insert timetz and timestamptz values from Table Editor
	Bug	DBE-2526	copy as SQL syntax for postgres date ranges are wrong
	Bug	DBE-2060	Database > Table editor highlights wrong column after column position was changed
	Bug	DBE-2734	PostgreSQL. Insert interval data
	Usability	DBE-1119	Table Editor: unexpected cells are highlighted after showing hidden columns
	Usability	DBE-897	PostgreSQL: allow setting 'infinity' and '-infinity' for DATE and TIMESTAMP columns
SQL Editing	Bug	DBE-2652	Inspection not working with python templates
	Bug	DBE-2534	Surround With not exposing sql functions
SQL Highlighting	Bug	DBE-2548	Postgres: valid code is red
	Bug	DBE-2650	Postgres concatenation followed by string function breaks sql validator
	Bug	DBE-2572	PostgreSQL FUNCTION RETURNS SETOF view
	Bug	DBE-496	Postgres: Unable to resolve column when referring to record in function
No subsystem	Feature	WEB-15190	Ignore validity of library code
	Feature	WEB-21399	Suggestion: Intention to "Add braces to arrow function" similar to "Add braces from statement"
	Bug	WEB-22126	Autocompletion for JSDoc
	Bug	WEB-22163	Add braces to arrow function statement — doesn't work as expected
	Bug	WEB-21943	Hide actions from UML plugin
	Bug	WEB-21980	Build 162.844.4 fails to run with a JDK error on windows 10 64b
	Bug	WEB-20986	JSON Schema Files that are updated require a close and relaunch to be used
	Bug	WEB-21743	Electron - console.log output isn't displayed within webstorm (terminal / npm run script)
Build tools	Feature	WEB-21829	Allow using path variables in grunt-cli package value
	Feature	WEB-16538	Grunt option flag support
	Bug	WEB-22153	Gulp executed within PhpStorm throws errors while executed in console runs fine
	Bug	WEB-21763	Gulp run task does not recognise folder named "gulpfile.js"
CoffeeScript	Bug	WEB-16810	Automatically defined variables triggering "Unresolved variable or type"
	Bug	WEB-20734	PyCharm does not navigate to CoffeeScript classes
	Bug	WEB-15681	CoffeeScript: Red code: escaped backtick inside inline JavaScript
	Bug	WEB-15658	CoffeeScript: Red code: range comprehension with step
Debugger	Bug	WEB-20394	JavaScript Debugger stepping out of library files
	Bug	WEB-20627	Stepping: 'Step into' library file when 'Do not step into library files' is chosen
	Bug	WEB-21574	FireFox: some breakpoints are skipped

	Bug	WEB-21991	New Node.js debug protocol incompatibilities
	Bug	WEB-20925	Node Debugger incorrectly reports the lexical `this` in arrow functions (ES6)
	Bug	WEB-12844	Debugger does not correctly interpret TypedArrays
	Bug	WEB-19117	Debugger is extremely slow to start w/ Node.js 5.0.0
	Bug	WEB-21717	Debugging IntelliJ with NodeJS 6.2.0 shows many ReferenceError v8debug on sta app
	Bug	WEB-21447	Attached files (.css, .js) are not served by built-in webserver
	Bug	WEB-14454	Breakpoints not hit when using inline sourcemaps produced by browserify
	Bug	WEB-20543	TypeError in Function scopes
	Bug	WEB-20542	TypeError when try to show array in 'Variables'
	Performance	WEB-20618	JS debugger memory leak
	Exception	WEB-20546	'Step into' open temporary file in case of using sourcemaps (typescript)
File Watchers	Bug	WEB-17949	.es6 Babel file watcher watches incorrect files by default
	Usability	WEB-22091	Allow multiselection in File Watchers configurable
	Usability	WEB-21433	File Watcher for "Unknown" file type behaviour
HTML	Feature	WEB-20704	Emmet: allow to configure bem separators
	Bug	WEB-18213	html page format error
Jade	Bug	WEB-19625	Jade parser does not work with angular2 syntax
	Bug	WEB-21841	Wrong icon when create Jade/Pug files
	Task	WEB-21353	Rename Jade plugin to Pug and support Pug language
JavaScript	Feature	WEB-16444	ES6 inside inline scripts
	Feature	WEB-20977	Flow: provide 'before type reference colon' and 'after type reference colon' options: Code Style/Javascript/Spaces
	Feature	WEB-17571	ReactJS - Should not add double quotes automatically to JSX/React Node attribute
	Bug	WEB-19766	Dummy suggestions for `function`
	Bug	WEB-21773	Inline type information in function parameters is not found when param. destruct is used
	Bug	WEB-21301	JSDoc: Alias for ES6 class
	Bug	WEB-22297	babelrc doesn't recognize plugin options
	Bug	WEB-21288	goto declaration of exported item will take you to the export statement not the declaration
	Bug	WEB-21197	JSDoc update function parameters fails
	Bug	WEB-14576	Ignore React JS Lifecycle components/properties in JSX files
	Bug	WEB-21493	Autocompletes JavaScript function call incorrectly.
	Bug	WEB-21161	JSAannotator inspection doesn't allow to lower severity.
	Bug	WEB-20633	JSDoc: auto generation of comment is broken if "*" is present as string
	Bug	WEB-21833	"u" modifier in JavaScript regular expression
	Bug	WEB-21839	knockout observable DefinitelyTyped signatures not being recognized properly
	Bug	WEB-7504	make JSHint error highlighting more prominent
	Bug	WEB-19668	let variables within switch-case-default
	Bug	WEB-18548	Wrong processing of JSDoc array-parameter fields

	Bug	WEB-21786	WebStorm go to type declaration
	Bug	WEB-21281	folding object error
	Bug	WEB-21530	JSDoc, inherited nested objects code auto-complete doesn't work for additional ch properties
	Bug	WEB-21163	Fix doc comment
	Bug	WEB-21665	Node exports not correctly detected
	Bug	WEB-21560	"Replace with Template String" fails if original contains a backtick
	Bug	WEB-20919	CommonJS: completion shows properties of all exported modules in project
	Bug	WEB-20965	Type inferred from destructured function parameters is wrong
	Performance	WEB-22042	IntelliJ IDEA freezes while editing javascript file
JavaScript. Formatter	Bug	WEB-9210	Wrong indentation for inline comments for multiple var statements
	Bug	WEB-22016	JavaScript reformatting may corrupt chained method calls mixed with line comme
	Bug	WEB-21149	IntelliJ adds linefeed before opening brace in `switch-case` statement
	Bug	WEB-22003	Function Body is Indented Wrong
	Bug	WEB-21972	Indentation problems with JavaScript
JavaScript. Frameworks	Bug	WEB-22031	angular-ui-router: remove buttons from the chart's toolbar
JavaScript. Inspections	Feature	WEB-20444	WS should report conflicts between auto-detected types and types in JSDoc
	Bug	WEB-22116	Intentions "Convert var to let", "Convert var to const" freeze large project
	Bug	WEB-22092	Invalid "Returned expression type ...not assignable to type ..." error
	Bug	WEB-22166	Intentions: "Add braces to arrow function statement" eats any preceding commen
	Bug	WEB-21731	Invalid return and break statements
	Bug	WEB-21878	Erroneous "type mismatch" inspection warnings when using arrow functions and promises
	Bug	WEB-7241	Deconstructed assignment in function parameters causes incorrect inspection warni
	Bug	WEB-21568	Excessive vertical space in JSCS config description
	Usability	WEB-19855	ESLint configuration: add info about package.json
	Usability	WEB-19586	Unnecessary warning for Possible iteration over unexpected members
	Cosmetics	WEB-22029	Constant 'if' statement inspection: spelling
JavaScript. Refactoring	Feature	WEB-17667	ES6: Intention to convert arrow function to shorthand arrow function
	Feature	WEB-16918	New refactorings (JS): convert to arrow function/convert to anonymous function
	Bug	WEB-16440	"Redundant variable" warning and "Inline variable" refactoring don't work on a destructuring variable declaration
	Bug	WEB-21419	ES6: Intentions: add support inside HTML script tag and inside JS injections
	Bug	WEB-21420	ES6: Intentions: "Convert to Class": invalid result when invoked on constructor or exported module
	Bug	WEB-22132	Convert to let should consider scope
	Bug	WEB-22133	NPE during var to let conversion
Node.js	Bug	WEB-21685	.iml files contain ancient references
	Bug	WEB-21914	angular-cli: Cannot find angular-cli package
	Bug	WEB-21673	Adding Electron inside a packaged app as a Node.js interpreter starts the app

	Bug	WEB-22197	Cannot enable node.js core library
	Bug	WEB-21519	No Autocompletion for JSON Array Object Properties
	Bug	WEB-21725	node-globals-stub is wrong for process.hrtime
	Bug	WEB-21652	Different variable highlighting for Node.js core modules
SASS	Bug	WEB-21416	SCSS: extending Attribute selector is falsely marked as invalid syntax
TypeScript	Feature	WEB-22053	TypeScript 2.0: parse global module export
	Feature	WEB-22030	TypeScript 2.0: parse never type
	Feature	WEB-22032	TypeScript 2.0: parse optional class members
	Feature	WEB-22035	TypeScript 2.0: parse 'this' function type
	Feature	WEB-20897	Add support for "allowSyntheticDefaultImports" for Typescript
	Feature	WEB-8658	That TypeScript .d.ts files were folded like .js and .js.map below .ts files in the Preview
	Bug	WEB-20886	TypeScript: todo's in /** multiline */ comments
	Bug	WEB-16214	TypeScript: Structure View needs improvements
	Bug	WEB-13903	Typescript module completion includes duplicates
	Bug	WEB-22008	Incorrect error notification
	Bug	WEB-22213	Typescript Auto Import does not work when TS compiler is enabled
	Bug	WEB-21755	Re-exported type is not resolved
	Bug	WEB-22022	Optional properties with "readonly" name breaks code validity
Unit Tests	Feature	WEB-21636	electron-mocha runner
	Feature	WEB-15867	Add for nodeunit tests analog of the throw FileComparisonFailure in JVM tests
	Feature	WEB-15907	Add for mocha analog of the throw FileComparisonFailure in JVM tests
	Bug	WEB-21683	Failed mocha tests aren't shown as failed
	Bug	WEB-22037	custom default mocha user interface not applied to new run configurations
	Bug	WEB-21184	Cucumber step definitions that uses normal string or ES6 string literals are not linked to the .feature files
spy-js	Bug	WEB-21228	Spy-js: "Node interpreter" field doesn't show current version or (Project) label for selected Node
