

AppCode 2017.1 EAP, build 171.2822.6

Code: Completion	Bug	OC-14511	Swift: 'dynamic' keyword completion
	Bug	OC-14797	NPE on expanding argument placeholder
	Bug	OC-14827	No completion for 'Any.Protocol' in type annotation
Code: Editing	Usability	OC-14556	Tab Behaviour not consistent with other JetBrains Product
Code: Formatting	Bug	OC-14815	Wrong formatting in async block
Code: Generation	Feature	OC-13825	Add "logv" to default Swift templates
Code: Highlighting and Inspections	Bug	OC-14330	"Convert to modern syntax" doesn't work for generic NS collections
	Bug	OC-14817	Invalid 'is defined in class and not visible' warning
	Bug	OC-14537	Missing deprecation annotation for classes marked with CF_DEPRECATED_MAC
	Bug	OC-13932	Support nullability audited regions
Code: Navigation	Feature	OC-12603	Show //MARK:, TODO: and FIXME: comments in Structure View
Code: Resolving	Bug	OC-11441	Calls to super are not resolved in extension methods
	Bug	OC-14820	NPE in resolve with unterminated curly bracket before code with inheritance clause
	Bug	OC-11980	Translate Objective-C nullable/nonnull attributes for types into Swift Implicitly Unwrapped/Optional types
	Bug	OC-14640	Objective-C blocks -> Swift nullable/nonnull/null unspecified attributes translation
	Bug	OC-14519	Swift 3: type elements in expressions. Type inference
	Bug	OC-14366	Swift: Support meta types
	Bug	OC-14745	Swift substitution: function with no parameters doesn't match to protocol method with one parameter
Swift Support	Bug	OC-14135	Swift 3: Import Objective-C `id` class as `Any` to Swift instead of `AnyObject` (SE-0116)
Xcode Integration	Performance	OC-14675	100% CPU doing nothing
No subsystem	Bug	CPP-8532	Support auto parameters in lambdas
	Bug	CPP-6075	decltype(auto) in trailing return spec flagged as error
	Bug	CPP-8667	Errors with lambda auto parameters
Code: Highlighting and Inspections	Bug	CPP-2637	Wrong 'Explicit type required here' error when declaring a friend-class
Code: Indexing	Bug	CPP-8577	Evaluator should not calculate the types deeply inside #if
Code: Refactorings	Bug	CPP-4383	Disable refactoring of ambiguous calls
Code: Resolving	Bug	CPP-8195	Constructor expression is not working in decltype
Editor. Editing Text	Bug	IDEA-167082	IDE hangs every 5-30 minutes while editing the code
	Bug	IDEA-161409	Folded imports region opens when imports are added
	Bug	IDEA-167110	Can't uncomment line in .properties file
	Bug	IDEA-150505	Underlines characters invisibles
	Cosmetics	IDEA-67480	Font baseline is shifted for Consolas font
Find, Replace, Find Usages	Bug	IDEA-166240	Unordered line numbers in the "Find" panel

	Bug	IDEA-167096	'Too Many Occurrences' window appears too early
User Interface	Bug	IDEA-162119	Configuration wizard UI theme IntelliJ is not corresponding with IDE theme Default on Mac
	Bug	IDEA-167018	Cannot drag-and-drop in a just opened project until no files are opened in editor
	Usability	IDEA-166252	Horizontal scrollbar is not shown when needed
	Cosmetics	IDEA-166908	Speed search border has no antialiasing
	Cosmetics	IDEA-165564	Breadcrumbs do not use ligature setting
	Cosmetics	IDEA-166188	The label is located lower than it should
Version Control	Bug	IDEA-140701	Ignore non-directory content roots when processing <Project> VCS mappings
