

Hajipur 9.1 RC1 (build 36932) Release Notes

SBT runner bundled

Simple Build Tool (Scala) plugin is now bundled with TeamCity.

Unidirectional protocol

Unidirectional protocol announced in [previous EAP](#) is now enabled by default.

To change the communication protocol for all agents, set the `teamcity.agent.communicationProtocols=xml-rpc` [internal property](#).

You can configure unidirectional communications in the [agent's properties](#) file by setting the `teamcity.agent.communicationProtocol=polling` property.

Other improvements

- versioned settings stability fixes and improvements.
- coverage with help of dotCover is now supported for NUnit 3.0
- [Fixed issues](#)
