

Gaya 8.1 RC1 (build 29848) Release Notes

Auto-detect for command line scripts

Various command line scripts are often used to build projects. In this build we added auto detection for .sh, .pl, .cmd and .bat scripts.

Other improvements

- EAP license key has been excluded from distribution
- improved error reporting for TFS
- fixed a bug in cleanup which could lead to never deleted builds if cleanup was interrupted by a timeout ([TW-31016](#))
- fixed issues
