IDEA-15266 (Usability Problem)	Show Usages popup doesn't accept Editor->Down and Editor->Up keybindings, only supports DOWN_ARROW and UP_ARROW
IDEA-143269 (Bug)	Find in Path dialog - cannot navigate to previous search values with the keyboard
IDEA-143783 (Bug)	Find: text in Find field moves caret to the end of a search string
IDEA-144023 (Bug)	Find usages: Correct processing for elements from additional index roots
HTML	
WEB-15677 (Bug)	Form input without an associated label HTML Inspection does not match HTML specification
IDE Configuration	
IDEA-141077 (Feature)	Allow easy live template sharing between different IDEA instances
Jade	
WEB-17268 (Bug)	Jade plugin incorrectly parses multiline js
WEB-14160 (Bug)	Jade: support rest arguments in mixins
WEB-17693 (Bug)	Pasting Jade code breaks indentation
JavaScript	
WEB-14524 (Feature)	ES7: Add support to exponentiation operator
WEB-3324 (Feature)	Infer JavaScript function parameters info based on calculated function-type expression
WEB-17650 (Cosmetics)	ES6: Weird syntax-highlighting in computed property name + template string
WEB-17541 (Bug)	Suppress await* error
WEB-17279 (Bug)	No warning or Intellisense about info from JSDoc
WEB-17566 (Bug)	Symbols from non-relevant node modules are shown in completion and resolved
WEB-17611 (Bug)	Make @fires info in Quick Doc clickable

WEB-11782 (Bug)	Display JSDoc param default value
WEB-17615 (Bug)	endless indexing loop
WEB-17047 (Bug)	split into multiple declarations should respect the keyword (JS)
WEB-17602 (Bug)	Error with ES6 syntax highlighting
WEB-6758 (Bug)	JSDoc: Go To Class (Ctrl+N) doesn't find classes declared using @name tag
JavaScript. Frameworks	
WEB-16629 (Feature)	Make errors in Meteor console clickable
WEB-15136 (Feature)	Feature request: in Meteor projects, external packages should be imported as libraries by default
WEB-15026 (Bug)	Meteor: creating the default Meteor.js app names files "hello.*" regardless of the app name
JavaScript. Inspections	
WEB-17728 (Feature)	JSCS: implement suppression for a single line
WEB-17813 (Bug)	JSCS: wrong suppression results inside injections
WEB-17812 (Bug)	JSCS: inspections are shown multiple times
WEB-17814 (Bug)	JSCS: escape tabulation sign for the "validateIndentation" rule value type completion
WEB-17718 (Bug)	JSCS: improve some rules type validation
WEB-17716 (Bug)	JSCS: .jscsrc file errors highlighting is inconsistent
WEB-17710 (Bug)	JSCS: remove code tag from the description for two jsDoc rules
WEB-17727 (Bug)	JSCS: support new rules/values for version 2.1.x
WEB-17467 (Bug)	TSLint Tool Doesn't Remember Package
WEB-15238 (Bug)	Syntax check for config.jscs.json reports "esprima" key as unknown
JavaScript. Refactoring	
WEB-17654 (Feature)	Insert ES6 'import' instead of 'require'
LESS	
WEB-17559 (Bug)	LESS/CSS rule value
Node.js	
WEB-17783 (Bug)	Node.js module is not installed
WEB-17413 (Bug)	Node.js: "Missing module dependency" inspection doesn't add packages into devDependencies of package.json in the bulk mode
WEB-17567 (Bug)	Remote node package advertisement outside of `require`
WEB-1931 (Bug)	Code completion is incorrect for Node Error object
WEB-17592 (Bug)	Missing module dependency: should respect a package.json location when installing a module
Password Safe	

IDEA-103062 (Usability Problem)	Passwords: forget all saved passwords right away after reset for master password
Plugin: Deployment _ FTP..	
WI-28336 (Usability Problem)	Enable "Show hidden files" by default for private key file dialog
WI-28158 (Bug)	'Compare with local version' action is enabled on directories of Remote Host
WI-27750 (Bug)	Lock on deployment settings saving
WI-16410 (Bug)	Run external tool on explicit save with autouploading results (Files Processed by External Tools such as SASS must be manually uploaded.)
Project View	
IDEA-143690 (Bug)	Project view of non-Java IDEs is not refreshed when directory moved
Stylus	
WEB-15933 (Bug)	stylus nth-of-
WEB-14464 (Bug)	Stylus: extending placeholder selectors
TypeScript	
WEB-17723 (Feature)	TypeScript 1.6: Intersection types
WEB-14459 (Bug)	TypeScript: Wrong type validation for for object properties.
WEB-16081 (Bug)	Typescript: Type information lost when using a "dictionary" type
WEB-16415 (Bug)	Failed to infer types for lambda expressions arguments
WEB-14145 (Bug)	Error on parsing destructured variable having type
WEB-17699 (Bug)	Typescript Destructuring: Numerous errors when using Tuple Type Objects
Unit Tests	
WEB-17674 (Bug)	Mocha package not automatically detected
User Interface	
IDEA-133568 (Feature)	Distraction Free mode: XML breadcrumbs could be aligned with text in editor
IDEA-143597 (Usability Problem)	New behavior of creating Scratch Files is distracting
IDEA-143500 (Performance Problem)	Many threads updating their progress fraction at the same time shouldn't lock each other
IDEA-143968 (Bug)	New Library from maven doesn't work anymore
IDEA-143735 (Bug)	FileChooser.chooseFiles doesn't call callback anymore then dialog is shown from another dialog
IDEA-143720 (Bug)	popups not respecting keybindings of UP / DOWN.
Version Control	
IDEA-125257 (Usability Problem)	Do not jump to the end of log by pressing 'Up' at the first line

IDEA-129253 (Bug)	IDEA hangs up on opening the checked out project
IDEA-143447 (Bug)	Unshelve changes with unassociated file leads to some problems
IDEA-142715 (Bug)	It's impossible to move multiple files by mouse between changelists or even select several files via Ctrl/Cmd+Click
Version Control. Git	
IDEA-143006 (Bug)	Git: Passwords are not saved if there is no login in the URL
IDEA-143143 (Bug)	VCS Push hangs
IDEA-143363 (Exception)	Errors parsing remote.pushdefault value in .git/config
Version Control. Perforce	
IDEA-137097 (Performance Problem)	Perforce - After files submit intellij refresh repository
IDEA-144008 (Bug)	Perforce: confusing behavior on 'use p4config' option checking if P4CONFIG is not set
IDEA-45172 (Bug)	Perforce: Integrate works incorrectly for target intergration from source files
IDEA-142603 (Bug)	Perforce - can't integrate by changelist
Version Control. Subversion	
IDEA-66690 (Feature)	Subversion annotate ignores whitespace by default
