

PyCharm 183.4886.18 Release Notes

| | | | |
|----------------------------|-------------|-----------------------------|---|
| Console | Bug | PY-32835 | get exception after click by "View as DataFrame" |
| Django | Bug | PY-32767 | Django Support settings are lost on restart if environment variables are defined |
| Parsing | Bug | PY-31984 | F-string is splitted incorrect if caret is set just before expression fragment |
| Refactoring | Bug | PY-31991 | PyCharm adds spaces around extracted variable name in f-string |
| Remote Interpreters | Bug | PY-32819 | Can't open global variables after run in console with remote interpreter |
| Docker | Bug | IDEA-202524 | Docker: Auto-expose the unknown port if added in runtime at PortBinding tab |
| Editor. Code Completion | Bug | IDEA-186754 | Code completion list is blinking after typing non-ASCII text |
| | Bug | IDEA-200049 | backspace doesn't work in completion popup |
| Editor. Editing Text | Bug | IDEA-201183 | Live Template Context in Java type declarations |
| | Bug | IDEA-203015 | Wrong caret position after up/down movements in presence of both inline and block inlays |
| | Bug | IDEA-203120 | Adding Inlay leads to code lens invalidity |
| | Exception | IDEA-199974 | java.lang.ArithmeticException at deleting after calling completion |
| IDE Configuration | Bug | IDEA-202843 | WARN - ge.ExternalProjectsDataStorage java.lang.NullPointerException |
| Indices | Performance | IDEA-202748 | Hang during UnindexedFilesUpdater working |
| Packaging and Installation | Bug | IDEA-203213 | JPS from IntelliJ IDEA 183 branch fails to compile project because of missing class org.apache.maven.model.InputLocationTracker |
| Platform API | Bug | IDEA-200807 | NPE caused by NonClasspathClassFinder constructor leaking "this" |
| Plugin Development | Usability | IDEA-201599 | Don't show 'Version must be specified' error in plugin.xml files for plugins developed via gradle-intellij-plugin |
| Quick Documentation | Bug | IDEA-198297 | Quick Documentation popup is sometimes placed off screen |
| | Bug | IDEA-203713 | QuickDoc shown on mouse move changes position or disappears after clicking on link it contains |
| | Bug | IDEA-202463 | Opening external documentation for OpenJFX 11 libraries does not work |
| | Bug | IDEA-202597 | View ExternalDocumentation doesn't work for decompiled classes opened in Editor |
| | Bug | IDEA-201079 | QuickDoc popup is not focused on the second "Ctrl+Q" if it was opened from autocomplete or Project View |
| | Bug | IDEA-201036 | Autocomplete list moves up when opening/closing QuickDoc Tool Window |
| Task Management | Bug | IDEA-202675 | "Open Task" dialog with empty "Create changelist" field |
| | Bug | IDEA-203220 | After phpStorm upgrade when opening task it doesn't strip "[" when generates branch name causing not valid branch name error |
| Terminal | Bug | IDEA-202821 | Blank terminal |
| User Interface | Bug | IDEA-203350 | Help Submit a Bug Report does not work for AppCode / CLion / DataGrip |
| | Bug | IDEA-106651 | Editor Search/Replace and Find/Replace in Path: font for text input fields is too small |
| | Bug | IDEA-202634 | ParameterInfo is now wedged in completion settings area |
| | Bug | IDEA-199367 | IDE hangs when searching in Hebrew+English |

| | | | |
|----------------------------|-----------------------|-----------------------------|---|
| | Bug | IDEA-126774 | Lens mode doesn't show last line |
| | Cosmetics | IDEA-197467 | Modernize Maven Run/Debug Configuration icon |
| | Exception | IDEA-203612 | NullPointerException occurs on opening a second/new project in the same window |
| User Interface. Navigation | Feature | IDEA-202496 | Extension point to alter "No {0} found" text in Search everywhere contributor |
| Version Control. Git | Bug | IDEA-203005 | Project update over SSH fails if there are many repositories |
| | Bug | IDEA-202874 | Indexing is suspended during the cherry-pick process |
| | Exception | IDEA-202533 | IllegalArgumentException occurs on attempt to fetch changes from remote git repository if repository is not set |
| XML | Bug | IDEA-202642 | XmlLikeFileType.isCaseSensitive has wrong name |
| DB Introspection | Bug | DBE-7371 | PostgreSQL error upon database introspection in PyCharm 2018.3 |
| | Usability | DBE-1996 | Database: "Unsupported format version" message gives no hint what data sources are in question |
| Data Views | Bug | DBE-7431 | 2018.3 . Where did database console STOP button go? |
| | Bug | DBE-69 | MySQL datetime incorrectly shows <null> |
| | Usability | DBE-7411 | "Move to the opposite group" is cloning tabs with database tables |
| SQL Highlighting | Usability | DBE-7314 | A better highlighting for 'column aliases required' inspection |
| User Interface | Bug | DBE-7470 | Two PostgreSQL dialects in injection intention |
| | Bug | DBE-6558 | Color settings in datagrid different to database panel |
| CSS | Bug | WEB-36018 | Typescript TSX: value of "class" attribute is not recognizing as css class in 2018.3 |
| Debugger | Bug | WEB-34907 | Electron: main process debugging: Debugger Never Attaches |
| | Bug | WEB-36056 | 'Run to cursor' doesn't work in node.js debug |
| HTML | Bug | WEB-36138 | "Missing associate label" error given when using aria-label |
| JSON | Bug | WEB-35997 | Single quote completed with double quote in a .json file |
| JavaScript | Feature | WEB-31773 | TypeScript 2.8: support jsx pragma |
| | Bug | WEB-28878 | Optimizing imports messes up placement of comments if 'Sort imports by modules' is on |
| | Bug | WEB-36023 | Buffer Static Functions |
| | Bug | WEB-35727 | Improve move statement up/down with multi-line imports |
| | Bug | WEB-34336 | Module imports become messed up when refactoring |
| | Bug | WEB-36073 | ES6: import from node core modules are broken |
| | Bug | WEB-36068 | AssertionError when 'Convert parameters to arrow function' for function with optional single parameter |
| | Bug | WEB-35805 | "from" identifier is treated as reserved word in export statement |
| | Bug | WEB-35786 | Surround with object literal is listed twice |
| | Bug | WEB-36010 | "Object is 'null' or 'undefined'" inspection false positive |
| | Usability | WEB-35838 | 'new Javascript file' attaches .js extension after .mjs |
| | Exception | WEB-36028 | 'Replace with &&' causes NullPointerException on expression with throw |
| | JavaScript. Formatter | Bug | WEB-35776 |
| JavaScript. | Feature | WEB-35477 | Support bootstrap-vue components |

| | | | |
|-------------------------|-------------|---------------------------|--|
| Frameworks | Bug | WEB-36122 | 'Convert to functional component' produces broken code for components in export default |
| | Bug | WEB-36054 | Vue.js: support shards-vue components |
| | Bug | WEB-36147 | 'Add import' is suggested even if component has been already auto-imported(js -> ts) |
| | Bug | WEB-35851 | Completion and autoimport for React components defined in JavaScript files in TypeScript files |
| | Bug | WEB-35800 | React+TypeScript: 'missing required attribute' error reported for required properties passed in by redux `connect` |
| | Bug | WEB-36009 | Convert to Class Component strips comments |
| JavaScript. Inspections | Bug | WEB-35750 | Typescript - inspection "Remove braces around arrow function body" forces returning a value |
| | Bug | WEB-30327 | "Remove braces around arrow function" inspection is doubled when its severity is "Error" |
| | Bug | WEB-35539 | "Unreachable code" inspection false positive with labeled break |
| JavaScript. Refactoring | Bug | WEB-35600 | 'Convert to class component' should produce propTypes, defaultProps as field declarations if code template contains them |
| Linters | Bug | WEB-35954 | Stylelint does not follow ignoreFiles configuration on Windows |
| | Bug | WEB-35917 | Some TSLint rules are not imported from tslint.json |
| | Bug | WEB-35856 | 'Fix current file with ESLint' doesn't replace line endings when linebreak-style configured in .eslintrc |
| | Task | WEB-35989 | Update condition for running ESLint on .vue files |
| Live Edit | Performance | WEB-36060 | LiveEdit plugin causes freezes on debug |
| Node.js | Bug | WEB-35773 | Relative import resolution inside a symlinked dir resolves to realpath |
| | Bug | WEB-36048 | Autocompletion for "import { writeFileSy... }" imports from "node" instead of "fs" |
| | Usability | WEB-35680 | node_modules folder is marked as library root after unexcluding |
| TypeScript | Feature | WEB-21926 | Provide 'Extract TypeScript interface' refactoring for object literals |
| | Bug | WEB-35938 | TypeScript: inferred generics are not applied for default generic parameters |
| | Bug | WEB-33645 | Incorrect conversion of generic type to interface |
| | Bug | WEB-35853 | TypeScript: False error for assignability to indexer type |
| | Bug | WEB-36019 | Do not add .ts file extension for filename.tsx when using New TypeScript file |
| | Bug | WEB-35847 | Parameter info for generic arguments doesn't work for functions and generic type usages |
| | Bug | WEB-35810 | Incorrect expected type evaluation for rest params |
| | Bug | WEB-35937 | TypeScript: typeof works incorrectly with overloads |
| | Bug | WEB-35881 | TypeScript: do not import elements several times |
| | Bug | WEB-35850 | Type does not behave correctly in template |
| | Bug | WEB-36159 | TypeScript: updated bundled compiler 3.2 |
| | Bug | WEB-35935 | TypeScript: null types affect resolve if strictNullChecks == false |
| | Bug | WEB-35906 | Cannot properly evaluate parameter type if contextual type is not obviously an object type |
| | Bug | WEB-35936 | TypeScript: intersection with never type processes incorrect type |
| | Bug | WEB-35982 | 'public' is added to implemented object literal methods when explicit 'public' is on |

| | | | |
|------------|-------------|---------------------------|--|
| | Performance | WEB-34580 | TypeScript: performance problem with mobx-state-tree package |
| | Performance | WEB-35723 | Slow, constantly hanging when adding file, deleting files |
| Unit Tests | Bug | WEB-36101 | Jest: load setup test framework file when running in watch mode |
| | Bug | WEB-33601 | Show jest.config.file in the Jest RC when running tests |
| | Bug | WEB-35482 | Incorrect amount of re-run tests when use @angular-builders/jest |
| | Bug | WEB-35284 | Run tool window shown incorrect amount of failed re-run tests |
| | Bug | WEB-35242 | running tests assumes Jest supports --runTestsByPath |
