

0xDBE 1.0 EAP 138.1400.3 Release Notes

DBE-303	installation automatically associates .java with 0xdbe
DBE-70	Unable to disable auto-commit for all objects in datasource
DBE-331	Default auto-commit off for Oracle
DBE-619	Database console: result view: the set of columns is not updated on running next query
DBE-627	Wrong completion for JOIN conditions.
DBE-44	setting dialog is unclear: please mention database name in the pop-up error message and make white background for database name field
DBE-624	Postgresql datasource verification
DBE-600	Database filters history not working
DBE-588	MSSQL: bad auto-completion for stored procedures
DBE-459	Oracle: Unknown pragma TIMESTAMP
DBE-594	MSSQL: select target recovery
DBE-34	Double click on table node should open editor
DBE-611	Table Editor: row count disappears for some time when you add new row
DBE-598	PostgreSQL: OFFSET is red when set by variable at procedure context
DBE-574	Column widths are reset upon update of cell values
DBE-615	Data sources: PostgreSQL: NPE on switching to Advanced
DBE-609	Data Sources and Drivers: SSH/SSL: when nothing to copy, "Copy from" could show it explicitly
DBE-606	Database drivers properties: custom auto commit and auto sync settings are not saved
DBE-599	Database Table Editor - Unable to right-click multiple row
DBE-24	Export / Import data sources properties
DBE-64	Password validation error
DBE-524	Windows - .bat-launched instance crashes on auto-complete
DBE-497	Hiding a column resets column ordering
DBE-311	postgres spell checker
DBE-460	postgres LIMIT syntax error checker
DBE-538	Database passwords are lost on 138.1161
DBE-111	Table Editor - limits on dragging columns
DBE-202	Initial schema indexing is not restricted to selected database schemas
DBE-580	Data sources: Schemas and Tables setting is ignored
DBE-228	results view/edit UI sucks
DBE-371	Include diagram support to 0xDBE [Diagrams Icon Missing]
DBE-375	Feature Request: Sqlite - rename column
DBE-518	Aliased line numbers in database query result window
DBE-525	Viewing query results burn CPU
DBE-519	Deprecated RAISERROR SQL Server syntax is not supported
DBE-321	table editor long data tooltip blinks when mouse over it
DBE-138	PRINT results not displayed

DBE-381	NumberFormatException : table view not displayed
DBE-152	Croatian symbols
DBE-517	Data source: Quick Documentation (Show DDL): string values with quotes are rendered incorrectly
DBE-511	Alias suggestions when schema qualified tables are used generates invalid SQL
DBE-477	Hidden columns break "Insert row" action
DBE-370	IdeaVim plugin support
DBE-113	0xDBE help: change images where the product icon is shown
DBE-42	Suggestion for autosuggesting field names
DBE-492	H2: Allow to parse procedure calls as table expressions
DBE-414	MySQL: LIMIT and ORDER clauses order
DBE-469	HSQldb LONVARCHAR code completion error
DBE-468	In console HSQldb, LONGVARCHAR is reported as error
DBE-486	SQL Server column alias syntax is not supported
DBE-117	redundant typo indicators
DBE-18	0xDBE: ArrayIndexOutOfBoundsException: -1 at 'Hide column' action at table editor with GTK+ LaF
DBE-456	"Reset Columns Order and Visibility" button on Results Tab doesn't work
DBE-463	Database: table editor: row number could be always kept in view
DBE-379	postgres cursor syntax error checker
DBE-225	Autocomplete should show suggestions without typing the first letter
DBE-67	IllegalArgumentException when selecting GTK+ as UI theme
DBE-369	SQL: keyword completion inconsistency
DBE-362	Procedure Editor - Nothing to DROP. DROP IF EXISTS.
