

PhpStorm EAP 142.4491 Release Notes

PhpStorm EAP 142.4491 Release Notes

| | |
|---|---|
| PHP Completion | |
| WI-28579 (Bug) | Unnecessary class import when autocompleting class constant |
| WI-18070 (Bug) | No autocomplete inside list() statement |
| PHP Inspections | |
| WI-7179 (Bug) | Illegal array key type: Incorrect type inspection leading to bogus warning |
| WI-12281 (Bug) | Illegal array key type: Wrong warning about illegal key type on SplObjectStorage |
| PHP debug | |
| WI-28605 (Bug) | Validate Debugger Configuration fails because of "Unexpected format" |
| WI-28556 (Exception) | Debug console: Exception is thrown if the text inside editor is changed and focus is moved to console |
| PHP lang | |
| WI-28481 (Usability Problem) | Disable intention "Replace quotes" in string with invalid sequence |
| WI-28230 (Usability Problem) | PHPDoc generation from constructor is inconsistent |
| WI-28473 (Performance Problem) | PHP "Find Usages" performance suffer from candidates in JS in large code base |
| WI-18073 (Bug) | "Cannot find declaration to go to" for first list() statement argument |
| PHP test | |
| WI-14314 (Bug) | Link from failed test leads to line + 1 |
| No subsystem | |
| IDEA-144383 (Feature) | Searching should work while performed 'Find in Path' on excluded directory |
| IDEA-144224 (Usability Problem) | Yellow 'Find in file' highlighting is not readable when the same line is on the breakpoint. |
| IDEA-144539 (Usability Problem) | Reduce the amount of log spam by FrequentEventDetector |
| IDEA-140057 (Usability Problem) | Pin/unpin buttons of the "Quick Documentation/Definition" popup are too different and thus very confusing |

| | |
|---------------------------------|--|
| IDEA-120212 (Bug) | undo doesn't restore bookmarks |
| IDEA-144617 (Bug) | Wrong menu item capitalization |
| IDEA-144233 (Bug) | Drag'n'Drop to move files within Project Tree View? |
| WEB-17698 (Bug) | Language injection and tagged template string |
| Build tools | |
| WEB-17917 (Feature) | Gulp plugin does not sort the gulp tasks in alphabetical order |
| CSS | |
| WEB-17937 (Bug) | color: rebeccapurple not recognized |
| Code Analysis. Inspection | |
| IDEA-144524 (Bug) | Filtering inspections by language removes batch inspections |
| IDEA-144554 (Bug) | Long lines inspection not working correctly |
| Code Formatting and Code Style | |
| IDEA-107372 (Usability Problem) | Right margin settings isn't saved on CTRL-Enter pressing |
| Code Navigation | |
| IDEA-144485 (Cosmetics) | Action to jump to super class has name 'Go To Super Method' |
| CoffeeScript | |
| WEB-15669 (Bug) | CoffeeScript: Red code: splat inside function definition |
| WEB-17931 (Bug) | CoffeeScript: false positive "Unused variable" reporting in catch block |
| WEB-15643 (Bug) | CoffeeScript: Red code: empty yield statement |
| WEB-16413 (Bug) | coffeescript inspection does not support Destructuring Assignment syntax |
| Debugger | |

| | |
|---------------------------------|---|
| IDEA-107248 (Bug) | Enabling/disabling breakpoint from breakpoint popup does not change the label of the corresponding option |
| Diff_Merge | |
| IDEA-144343 (Bug) | Ctrl-tab brings up the switcher in the diff window |
| IDEA-144511 (Bug) | Diff window shows unknown file type error for new Java file on the shelf |
| Editor. Editing Text | |
| IDEA-143938 (Usability Problem) | Emacs mode: `C-m` does `C-l`, and `C-l` is unbound |
| IDEA-144374 (Bug) | Code analysis suspended |
| IDEA-141879 (Bug) | Indent guide lines are 1px longer |
| HTML | |
| IDEA-144503 (Exception) | 'SlimTag:head contains invalid declaration' while complete slim tags |
| IDE.User Interface | |
| DBE-1519 (Cosmetics) | Wrong icon for SQL Server in Database tool. |
| JavaScript | |
| WEB-17965 (Feature) | JSDoc: cannot refer to @exports if the `module:` prefix is omitted |
| WEB-18001 (Feature) | add 'else if' in autocomplete for JavaScript code editing |
| WEB-15432 (Usability Problem) | "className" is a valid JSX attribute, is marked as invalid |
| WEB-17840 (Bug) | Properties attached to local variable returned by immediately invoked function are not resolved |
| WEB-17420 (Bug) | Non-english variable is not recognized in 9.0 |
| WEB-17970 (Bug) | Completion does not suggest fields with some 'national characters' |
| WEB-16873 (Bug) | Invalid "return outside function definition" error in embedded ecma script 6 |
| WEB-17010 (Bug) | Undefined type in JSDoc due to ignoring preceding type definition |
| WEB-17978 (Bug) | Escaped \ at the end of a template string throws error. |
| WEB-17807 (Bug) | CommonJS: no properties completion/parameter info for exported function |
| WEB-17925 (Bug) | TypeScript intentions are available for jsx |

| | |
|-------------------------------|---|
| WEB-17827 (Bug) | Override arrow is not shown |
| WEB-17930 (Bug) | JsDoc: type mismatch errors on matching parameters of @enum type |
| WEB-17961 (Exception) | Throwable when call 'Split current tag' intention |
| JavaScript Inspections | |
| WEB-17805 (Bug) | Missing "Expression statement is not assignment or call" warning |
| WEB-17948 (Bug) | JavaScript Inspections - Suppressions not working - OverlyComplexFunctionJS, FunctionWithMoreThanThree |
| WEB-18010 (Bug) | Detect and respect order of JSDoc elements when manipulating it |
| WEB-17879 (Bug) | Method marked as recursive |
| WEB-17935 (Bug) | Inspection 'Expression statement which is not assignment or call' should be turned off for await |
| WEB-17953 (Bug) | JSReferenceExpression when call 'Rename reference' inspection |
| Node.js | |
| WEB-17575 (Usability Problem) | Node.js and NPM: upgrade is disabled for package with specific version |
| WEB-17947 (Bug) | Installing npm package fails |
| Packaging and Installation | |
| IDEA-110823 (Bug) | xdg-desktop-menu: file '/tmp/jetbrains-pycharm.desktop' does not exist when trying to create desktop short |
| Settings Repository | |
| IDEA-134781 (Bug) | Possibility to stop setting sync |
| IDEA-141883 (Bug) | .gitignore in the repository that tracks the settings is not respected |
| IDEA-142812 (Exception) | IAE at org.jetbrains.settingsRepository.SettingsRepositoryPackage\$upstreamEditor\$16e2ee27\$createMergeActions |
| TypeScript | |
| WEB-17457 (Feature) | Suggest external modules exported symbols in TypeScript |
| WEB-17929 (Feature) | TypeScript 1.6: local types |
| WEB-17954 (Feature) | TypeScript 1.6: Generic type aliases |

| | |
|---------------------------------|--|
| WEB-17985 (Bug) | ES6 modules import doesn't work with Typescript 1.6 nightly |
| User Interface | |
| IDEA-121670 (Usability Problem) | Editor->Colors&Fonts: attribute list display/management |
| IDEA-91047 (Usability Problem) | Undo doesn't work in plain text fields |
| Version Control | |
| IDEA-142976 (Usability Problem) | "Performing code analysis" progress is uninformative |
| Version Control. Git | |
| IDEA-142908 (Usability Problem) | "Cherry Pick..." action naming and behaviour |
| IDEA-132779 (Usability Problem) | Open on GitHub with Revision |
| IDEA-142566 (Bug) | Git checkout doesn't work with special directory names |
| IDEA-144619 (Bug) | "Open on Github" command does not use the current HEAD |
| Version Control. Log | |
| IDEA-135359 (Bug) | Log: arrow should always follow its expanded edge |
| Version Control. Mercurial | |
| IDEA-140596 (Bug) | Permanent "checking incoming and outgoing changes" background task |
| IDEA-137686 (Bug) | Mercurial blame is not colored |
| Version Control. Perforce | |
| IDEA-130515 (Usability Problem) | Use IDE-wide password storage facilities for Perforce integration |

| | |
|-------------------|--|
| IDEA-56214 (Bug) | Perforce: Integrate project with conflicts doesn't clear read-only status for files |
| IDEA-144341 (Bug) | Perforce: TestConnection button pressing in Perforce settings should not report error if valid explicit settings |
