

# WebStorm 126.254 Release Notes

No subsystem	
<a href="#">WEB-100288</a> (Usability Problem)	File watchers popup issues
<a href="#">WEB-100326</a> (Cosmetics)	JSHint Settings: fix the hyperlink in 'undef' option description
<a href="#">WEB-100296</a> (Bug)	Background tasks: settings for Closure Compiler/YUI Compressor tasks not taken from config
<a href="#">WEB-6538</a> (Bug)	Emmet: single line filter doesn't work with multiple ^ operators
<a href="#">WEB-6561</a> (Bug)	Emmet, bem filter: multiple element prefixes work incorrectly when class names contain '-'
<a href="#">WEB-6532</a> (Exception)	NPE
<a href="#">WEB-100331</a> (Exception)	JSHint: Throwable on choosing default .jshintrc file
CSS	
<a href="#">WEB-161</a> (Feature)	New reformat ability to change case of hex colors in CSS
<a href="#">WEB-225</a> (Bug)	Use short syntax for hex colors
<a href="#">WEB-6417</a> (Bug)	SCSS support: !important not correctly parsed when used as function parameter
CoffeeScript	
<a href="#">WEB-5300</a> (Feature)	Create command New -> CoffeeScript file
<a href="#">WEB-6577</a> (Bug)	valid coffeescript "must be lvalue" error in editor
<a href="#">WEB-2258</a> (Bug)	Coffeescript: Invalid warnings when using @ prefix on parameter
Dart	
<a href="#">WEB-100350</a> (Bug)	Dart: can't run unit tests
<a href="#">WEB-100348</a> (Exception)	Dart: NoClassDefFoundError on Run main menu invocation
Debugger	
<a href="#">WEB-2092</a> (Feature)	Javascript debugger feature: built-in webserver
<a href="#">WEB-6570</a> (Bug)	Choose local path: remove leading slash
<a href="#">WEB-6490</a> (Bug)	IDEA does not synchronize to a file/line of the breakpoint when debugging Javascript
JavaScript	
<a href="#">WEB-100272</a> (Feature)	JSDoc @memberOf tag
<a href="#">WEB-1231</a> (Feature)	Fall-through in 'switch' statement - suppress each case individually
<a href="#">WEB-100337</a> (Feature)	Do not highlight unused parameters of functions annotated with @abstract tag
<a href="#">WEB-100314</a> (Feature)	Improve "extract variable" to support getters as found in Ember.js
<a href="#">WEB-100336</a> (Feature)	Do not highlight unused parameters of functions with empty body
<a href="#">WEB-3692</a> (Feature)	Ability to read JSHint settings from .jshintrc File
<a href="#">WEB-100292</a> (Bug)	JS Libraries: library files sometimes appear with wrong icons in Project View

WEB-100310 (Bug)	Find usage doesn't find usages in libraries
WEB-100315 (Bug)	Type checking of return value in javascript subclass method won't respect polymorphism
WEB-6177 (Bug)	JSDoc based autocompletion mixes @namespace and @type annotations in Backbone's extend pattern
WEB-6360 (Bug)	find usages returns usages from other classes but "go to declaration" finds correct class
WEB-790 (Bug)	Javascript objects, with functions defined separately, does not show up under the structure panel when wrapped in a function closure.
WEB-1322 (Bug)	JSDoc: callback parameter type in function type expression not resolved
WEB-1520 (Bug)	JS Type Hierarchy: variable with @class tag appears twice in class parents list
WEB-6534 (Bug)	Javascript Null Pointer Exception again
WEB-6559 (Bug)	jsHint indentation option can't be turned off (and other issues)
WEB-100281 (Bug)	JS 'Go to class': for Google Closure classes, go to the line where the class is declared
WEB-100323 (Bug)	JS Type Hierarchy: Dojo class inheritance not recognized
WEB-100324 (Bug)	JS Type Hierarchy: ExtJS4 class inheritance not recognized
WEB-100305 (Bug)	JS Libraries: if all project libraries are global, legacy project is not converted and library settings not recognized
WEB-100299 (Bug)	JSLibraries: project-level libraries not visible for files that have file-level libs assigned
WEB-100307 (Bug)	Go To Class, Dojo: navigate to dojo.declare('cls_name')
WEB-1434 (Bug)	Code Structure view not showing structure correctly
WEB-6449 (Bug)	Invalid Inspection - Binary Conversion Error - Incorrect Stub - String.search()
WEB-6504 (Bug)	bug in javascript structure
WEB-6560 (Bug)	Do not insert parentheses when completing constructor name
WEB-6546 (Bug)	Warning - Unresolved function or method _method
WEB-6567 (Bug)	JS highlight selection bug
WEB-921 (Bug)	Do not run JavaScript inspections on minified files.
WEB-6188 (Bug)	Javascript File Structure (CTRL-F12) ignores functions assigned to other functions (AngularJS controllers)
WEB-6520 (Bug)	JSDoc type not declaration
WEB-6553 (Exception)	JS Libraries: ClassCastException on attempt to enable a library
WEB-6562 (Exception)	CCE when opening javascript file fetched from the browser
Live Edit	
WEB-6437 (Task)	LiveEdit doesn't support ERB
WEB-1846 (Bug)	Live Edit support for HAML
SASS	
WEB-6519 (Bug)	SASS string concatenation being rendered as a syntax error in the editor
WEB-100283 (Bug)	Sass selector parsing errors
TypeScript	
WEB-6384 (Exception)	ClassCastException at JSResolveUtil.isReferenceTo() on opening TS file
