0xDBE 1.0 EAP 138.2221.3 Release Notes

DBE-635	New Column dialog: Identity Column for Microsoft SQL Server
DBE-799	Opening a file with long name
DBE-711	Go to File suggests installation files
DBE-458	Table editor: CTID column is queried for Redshift
DBE-765	All queries to Mysql fail on 'OPTION SQL_SELECT_LIMIT=DEFAULT'
DBE-131	Cursor focus is lost after running a statement
DBE-785	problem selecting large column value in data view
DBE-793	Database Console Results: NPE when trying to sort a table by any column with UI
DBE-792	Table Editor: table is sorted by wrong column's values if columns were reordered
DBE-791	Sybase: incorrect syntax when adding a table with auto increment primary key column with UI
DBE-788	MySQL: 'Auto inc' option is not applied when adding column with UI
DBE-784	Table Editor: Ctrl + C copies wrong value when you try to copy database error report
DBE-256	Can't delete more than one row
DBE-214	Using Ctrl+Q to get related data causes a pop-up window outside the screen
DBE-149	Generate SQL query from table view
DBE-27	No obvious way to save added rows in database editor
DBE-761	Display multiline data in the results pane
DBE-774	Data extractor ignores Data viewer's column order
DBE-775	first item in table filter MRU not selectable
DBE-346	New Column dialog: UI element to mark column AUTO_INCREMENT
DBE-782	Sybase: incorrect syntax when adding identity column with UI
DBE-781	Create Table: 'Tab' does not move focus to 'Auto inc' option
DBE-106	add count to result tab for quick view
DBE-789	When auto-commit off, refresh table does not always work
DBE-776	hint cover "more" button
DBE-633	Database count rows
DBE-503	Table Editor: when editing long strings they disappear to the left
DBE-590	Data Sources and Drivers: some schemas are resolved when no schemas are chosen for resolve
DBE-589	Data Sources and Drivers: schemas are not enabled for resolve if database.* is enabled
DBE-629	MS SQL: completion for function without brackets if function is used inside SELECT statement
DBE-769	Unexpected difference in indexing of jar
DBE-764	Table editor should be aware of case sensitivity
DBE-763	Dialog with login error
DBE-758	Case sensitive autocomplete not always working
DBE-653	0xDBE does not respect "Do not change" setting for identifier word case during completion
DBE-756	Oracle Desc(ribe) command don't work
DBE-691	PostgreSQL: fields are unresolved in returning clause

DBE-732	Fake error report
DBE-754	Communication Link Failure - does not auto reconnect
DBE-660	Rename result tab
DBE-748	SQL Server assignment by sum/difference/product etc. operators not supported in SELECT clause
DBE-749	View of table should update itself after alteration
DBE-728	Run query in chosen console
DBE-708	MySQL: completion for nullary functions doesn't insert parentheses
DBE-591	SQL: code completion: delimited function/procedure name is not quoted
DBE-739	Table Editor: "Sort via Order By" gives wrong sorting
DBE-743	SQL Code Completion: completion of aliases does not consider code style settings for identifiers
DBE-744	SQL Code Completion: type completion is suggested according to 'Keywords' Case settings, not 'Types' Case settings
DBE-742	SQL: code completion transforms lowercase letters into capital, if all suggested variants are in capital
DBE-120	MSSQL - can't exec stored procedure
DBE-740	Table Editor: "Jump to Data View" does nothing after switching to Card View
DBE-731	Table Editor: the size of column is changed if other column was hidden and then made visible again
DBE-738	Oracle DDL creates views as tables
DBE-734	Console tab header unreadable (look & feel)
DBE-678	Confusing completions
DBE-667	"Unable to resolve column" when cross join is used
DBE-726	Query Plan being cut
DBE-509	Value returned in large text field is truncated
DBE-727	Database console Result is clipping wide columns
DBE-712	Go to Table: focus does not go to opened table from the tool window
DBE-148	Theme changing display
DBE-723	Syntax error in a valid Redshift query
DBE-687	SQL Server: table defined in SELECT ... INTO is not resolved Temporary tables don't scan for further autocomplete.
DBE-488	SQL Server SELECT INTO syntax is not supported
DBE-457	Transposed Row View pop up window
DBE-412	Quick Value View pop up window
DBE-719	Database console: MySQL version comments are truncated on execution
DBE-642	MS SQL: typing closing bracket ']' right before existent bracket should not add another
DBE-686	Database console: reject to enter credentials: error notification bar has no message
DBE-644	SQL: HSQLDB: user name is not resolved in ALTER USER
DBE-713	Table editor does not get focus on opening
DBE-702	MS SQL: "set language" is red
DBE-641	Exclude PROMPT from source formatter
DBE-632	"text" not recognized as type for postgres sql function
DBE-706	Bad indent after empty SELECT with FROM

DBE-504	Turn off automatic search
DBE-676	When field is qualified, functions are not completed at its left
DBE-684	Database console: error notification bar: Details and Settings do nothing for me
DBE-250	Changing auto-commit checkbox value on results window
DBE-602	Table editor: possibility to clone table rows
DBE-227	Loss of precision on output screens
DBE-48	0xDBE: setup public EAP page
DBE-707	Timestamp showing incorrect fractional seconds
DBE-101	Can uncheck but not check a bit field / checkbox in result console
DBE-665	Incorrect number of decimal places on datetime2 column
DBE-618	Good code is red in WITH query
DBE-617	Error on valid postgres
DBE-658	Make Ctrl-N open table Editor for a table
DBE-587	PostgreSQL: constant of any type written as "type 'string'" is red
DBE-513	SQL: Spelling / Typo inspection: Rename quick fix fails for string literals
DBE-514	SQL: MySQL: named primary key constraint is red
DBE-124	Add support for DB2 on As400
DBE-701	SQL Update extractor generates bad SQL
DBE-664	Ms Sql on shared hosting
DBE-699	MSSQL: new functions in SQL Server 2012 are not supported
DBE-696	PostGIS geometry TYPEMOD not supported
DBE-695	Display project name when updating application
DBE-682	Show Spelling Correction Suggestions on strings
DBE-661	Multiline text in Result tab cell can't be viewed by double click
DBE-495	Unable to view full cell value
DBE-400	Tasks & Contexts Integration
DBE-115	Slow to open and large memory usage for MSSQL
DBE-109	Can't assing VCS to project
DBE-679	PostgreSQL syntax highlight shows error on NOT for CREATE SCHEMA
DBE-698	Dump SQL queries directly to file, do not load whole database to RAM
DBE-668	Table Editor: when editing nullable boolean column editor leaves editing mode after pressing space
DBE-61	Brown color cannot be set for a database.
DBE-697	Query with CTE not fully recognized
DBE-692	Bad code in the Tip of the Day
DBE-677	sql server incorrect drop statement
DBE-694	Allow multiple connections/SQL tabs
DBE-308	MySQL year displayed as a date in Table Editor
DBE-690	Restart dialog is not working
DBE-674	Auto-switch to output window on execution SQL-expr

DBE-39	Annoying master password on start
DBE-648	Use data extractor on individual rows
DBE-650	Group DB objects into categories
DBE-649	Implement inline/extract for table aliases
IDEA-129764	Enable SYS.DBMS_OUTPUT: CCE at DataBus$FacadeImpl.subscribe()
IDEA-126805	Crash during indexing after checkout
IDEA-119829	Database: adding new row containing 'null' value is not done right after you finished editing row
IDEA-104968	SQL inspections: using dialect names could be unified
IDEA-129073	Database viewer with Ctrl J broken
IDEA-113253	Add autoincrement checkbox to "Add field"
IDEA-129438	One hour decrement in tab with "time with time zone[]"
IDEA-115533	PostgreSQL: timestamptz (p) and timetz (p) are red
IDEA-120114	PostgreSQL: column alias problem
IDEA-115558	PostgreSQL: Incorrect "condition always true" with record type
IDEA-124791	ctrl-q in database window does not work anymore after resizing value view
IDEA-116203	Case code styles are not applied for code completion without prefix
IDEA-127383	Database query results have truncated text column values
IDEA-125885	Database console truncates results to 1023/1024 characters
IDEA-125071	SQL: foreign key popup: not all information appears after pressing Ctrl + Q twice
IDEA-113106	No way to see full contents of a text field in a database table
IDEA-110522	SQL: foreign key popup: no foreign key pop up after pressing Ctrl + Q more than once
IDEA-105022	Injection inspection false positive for PosgreSQL parameterized query throws "Unresolved column" warning
IDEA-97154	Exception displayed in a table editor cell makes table editor misbehave
IDEA-64595	data source tab text : use the table names, when the sql is "SELECT * FROM <table>"
IDEA-125444	SQL: rework grammars for better completion
IDEA-105417	Go To Related Data: Select the related dataset
IDEA-68793	Show only appropriate fields, not all functions in key creation
IDEA-112797	PostgreSQL: using code points for Unicode characters is red
IDEA-51174	SQL: PostgreSQL: resolve schema name defined on server in case of relationship via parent data source
IDEA-51131	SQL: PostgreSQL: cast to regclass as an identifier is red
IDEA-128663	SQL highlighting doesn't work
IDEA-128611	Oracle number displayed as integer
IDEA-113186	PostgreSQL: aggregate function with distinct and order by at the same time is red
IDEA-128574	Create table: syntax error in generated SQL for constraint
IDEA-108395	Use curly brackets to enclose parameters in SQL statements
IDEA-124824	Data Sources and Drivers: after editing driver settings 'Apply' is not disabled after being pressed
IDEA-116616	Database Connections and Drivers: 'connection failed' error is not displayed at the dialog
IDEA-116715	Database Console: the error notification at the bottom of console cannot be deleted
IDEA-123013	PostgreSQL:adding new data source via Duplicate action

IDEA-119886	SQL fails to run SQL dump exported from MySQL
IDEA-112203	IDEA is hung after startup
IDEA-128402	Add a new Datasource configuration scope allowing to share DS config between different IDEA versions
IDEA-128384	No statements found in Run script warning.
