Astella EAP Build 110.246 Release Notes

No subsystem	
AS-191 (Usability Problem)	Flex remote debugging: once debugger is connected, remove 'how to connect' tooltip
AS-24 (Usability Problem)	Fix initial size of New Project Wizard
AS-180 (Bug)	Project Structure: when copying the module, don't allow creating module with existing name
AS-141 (Bug)	Idea project conversion: wrong library entry is created for Java module with Flex facets
AS-215 (Bug)	NPEs when openihng project with module-level swc lib created in previous EAP
AS-82 (Bug)	Astella, Idea project import: choosing 'Ignore' in 'Cannot load facet ' error message should set 'Ignore' option in Project Structure
AS-197 (Bug)	can't compile flex apps: PluginException: compiler.warn-no-constructor exception
AS-181 (Exception)	Astella: AssertionError when editing build configuration dependencies
ActionScript	
AS-233 (Task)	don't report about "Method may be static" if class is abstract and function is not final&private
Compiler	
AS-228 (Feature)	Compiler options: warn user on attempt to set options not applicable to build config output type
AS-148 (Bug)	Warning about "No constructor function" must be disabled by default (according to Flash Builder and common sense)
Debugger	
AS-207 (Bug)	Remote debugger, Linux: show correct IP address in tooltip
Execution	
AS-155 (Task)	Need run configuration to debug remote Flash application
Flex Support	
IDEA-75838 (Usability Problem)	Package Mobile Air Applications in Background
IDEA-61400 (Bug)	"Choose Implementation" shows class from sources and swc
IDEA-72278 (Bug)	quickfix for "method can be static" in MXML
IDEA-75310 (Bug)	Debugging Flash Player 11: no variable introspection
IDEA-70049 (Bug)	Editor: Invalid "move method up/down" behaviour.
IDEA-73577 (Bug)	AS3 unused methods inspection catches interface methods
Project configuration	
AS-205 (Usability Problem)	Long path in Flex SDK path combo makes the whole Project Structure dialog wide
AS-214 (Bug)	Project Structure: module dependency added via 'Files...' (module-level lib) appears as unknown on dialog reopening

AS-213 (Bug)	Project Structure: it's not possible to change once set library dependency type
AS-209 (Bug)	Project Structure: don't allow to add the same library to dependencies more than once
AS-225 (Bug)	Idea import: global JavaScript library causes Assertion error
AS-229 (Bug)	Assertion failed: already disposed on opening Project Structure
