

GoLand 183.3647.17 Release Notes

Go Completion	Usability	GO-6254	Auto completion suggestions prevent navigation
Go Debugger	Bug	GO-6063	Два класса проблем с отладкой
	Bug	GO-6274	In debug mode, wrong value of pointer to string is shown
	Bug	GO-6265	Debugging in Google App Engine >= 1.9.75 is broken
Go Editing	Feature	GO-3259	Add intention to generate a constructor like method for structs
	Bug	GO-6234	Too eager to remove imports
Go General	Bug	GO-6120	'Unable to get stub builder' error during completion
	Bug	GO-6167	Code analysis does not finish if code uses functions from Collator struct
Go Inspections	Feature	GO-2582	eof in comment inspection
	Bug	GO-6267	"Convert to" quickfix doesn't work in constant definitions
	Bug	GO-6229	Do not mark exported C functions as unused
	Bug	GO-6260	Incorrect inspection: Index <foo> must be an integer constant
	Bug	GO-6065	False positive "build constraints exclude all Go files" for big files
Go Refactorings	Feature	GO-6244	Add missing return statement after Change Signature refactoring
	Feature	GO-6273	Create field quickfix should infer type from usages
	Bug	GO-6247	Change signature: warn if changing signature of main and init functions may change their behavior
	Bug	GO-6276	Change signature intention in EAP breaks on varargs
Go Testing	Bug	GO-6270	Test ignored count incremented for packages not containing test files
	Usability	GO-6209	make test failures more obvious for non-zero exit status
No subsystem	Task	GO-6152	Statistics for compilation errors
User Interface. Accessibility	Task	IDEA-195260	UI element with line numbers and debugging graphic not accessible to screen readers
Debugger	Bug	WEB-35218	Can't debug Node.js: path no program files is considered as incorrect
