

# IntelliJ IDEA 13 130.1619 Release Notes

No subsystem	
<a href="#">IDEA-111565</a> (Feature)	Bug reporting tool has incomplete description
<a href="#">IDEA-88210</a> (Feature)	"Remember" the global code style selection for each project
<a href="#">IDEA-111691</a> (Bug)	While updating from EAP 13.0 to the most recent EAP IDEA failed to start
<a href="#">IDEA-111128</a> (Bug)	IDEA should not try to update plugins when invoked with command line arguments
<a href="#">WEB-8702</a> (Bug)	JSDoc "@throws" tag should not require a type
<a href="#">IDEA-111523</a> (Bug)	NPE in ControlFlowAnalyzer and buggy workflow fixing "Math,max" with Alt+Enter
<a href="#">WEB-6199</a> (Bug)	Double click to select hex color value
Android	
<a href="#">IDEA-60269</a> (Feature)	Navigate from event handler declaration in layout xml to method in activity class
<a href="#">IDEA-76862</a> (Feature)	Android Resource Editor - Make it easy to jump to usages in Java files
<a href="#">IDEA-102169</a> (Feature)	Android XML: improve completion of dimension attribute values
<a href="#">IDEA-102176</a> (Feature)	Support navigation in platform XML files: parent styles and style items
<a href="#">IDEA-102177</a> (Feature)	Support navigation and documentation for permissions, actions and categories in manifest
<a href="#">IDEA-85871</a> (Feature)	Add "Add method" intention action for method name attributes
<a href="#">IDEA-93120</a> (Feature)	Quickfix to create unresolved event handler in layout.xml
<a href="#">IDEA-111650</a> (Bug)	Android manifest: filter actions and categories to autocomplete
<a href="#">IDEA-95992</a> (Bug)	Menu items' "onClick" are not handled, while views' are
<a href="#">IDEA-111528</a> (Bug)	AssertionError: Cannot register font: /fonts/Inconsolata.ttf
<a href="#">IDEA-111076</a> (Bug)	A lot of errors in Android project in 130.1365
<a href="#">IDEA-102173</a> (Bug)	Android XML: automatically insert app-level namespace when complete custom attrs instead of inserting it without any prefix
CSS	
<a href="#">WEB-8597</a> (Bug)	CSS formatter doesn't normalize space in CSS selector
<a href="#">WEB-8772</a> (Bug)	Reformat Code Breaks CSS When Using @MEDIA
<a href="#">WEB-6987</a> (Bug)	Formatting of css calc(...) removes the space after the + or -
<a href="#">WEB-8496</a> (Bug)	Border optimizations disabled for simple scenario
<a href="#">WEB-6323</a> (Bug)	CSS autoformat breaks the imageset
<a href="#">WEB-8735</a> (Bug)	Autoindent broken in at-rules
<a href="#">WEB-234</a> (Bug)	Dashes should be included as part of the word when double-clicking in CSS
Code Analysis. Inspection	
<a href="#">IDEA-111456</a> (Feature)	An inspection to check method contract well-formedness

IDEA-111511 (Bug)	False negatives for the "Redundant type cast" inspection
IDEA-111960 (Bug)	"while can be foreach" inspection should report on qualifierless iterator
IDEA-111571 (Bug)	boxing and unboxing with a cast not reported by inspections
IDEA-111445 (Bug)	"Constant conditions & exceptions" inspection message is incorrect
IDEA-111465 (Bug)	"Overly-strong type cast" inspection false negative in foreach
IDEA-111554 (Bug)	While loop can be replaced with foreach for super.iterator()
IDEA-111452 (Bug)	false positive for "Auto-unboxing" inspection
IDEA-111537 (Bug)	False negatives for "Auto-unboxing" inspection
IDEA-111420 (Bug)	Code compiles by JDK, but IDEA highlight RED
Code Coverage	
IDEA-111485 (Bug)	Upgrade jacoco jars to the most recent version to prevent VerifyError
Code Navigation	
IDEA-111885 (Feature )	Go to line number < 1
CoffeeScript	
WEB-7579 (Bug)	Invalid "unresolved variable" error in coffeescript
WEB-8009 (Bug)	Duplication intention: Replace single-quoted string with double-quoted string.
Dart	
WEB-8623 (Feature)	Add a Install Packages option in Dart plugin
WEB-1597 (Bug)	Dart: can't run unit tests
Database	
IDEA-111402 (Feature )	Create DDL Data Source by drag-n-drop (project view/Finder/Explorer/etc)
IDEA-111403 (Feature )	Detect SQLite DB files and create Data Source by drag-n-drop (project view/Finder/Explorer/etc)
IDEA-111695 (Bug)	No structure or code completion for SQL Server script
IDEA-111461 (Bug)	DB2 XML Support - dialect and XML Columns
IDEA-111521 (Bug)	Database visualisation missing relationships after moving to Postgresql
Debugger	
WEB-8816 (Bug)	Breakpoints are not recognised during nodejs debugging if sourcemap sources URLs specify 'file:/' protocol
WEB-8689 (Bug)	Debugger: Variables view: do not fold array length
Editor. Editing Text	
IDEA-111500 (Feature )	Suggest the enclosing type as 1st element in return type suggestions list when creating the static method getInstance() of the singleton
IDEA-111538 (Usability Problem)	"Copy String Concatenation Text to the Clipboard" requires check out

IDEA-111004 (Bug)	Edit Fragment: Editing breaks code style, noise in VCS
IDEA-111634 (Bug)	Bring back code selection
File Watchers	
WEB-7161 (Feature)	Add /FileParentDir and /FilePath macros that use Unix path separators
WEB-8709 (Exception)	Dart: File Watcher: avoid exception on updating SDK
Find, Replace, Find Usages	
IDEA-111801 (Usability Problem)	FindInPath with focus in "Find window" has Scope "Directory" preselected.
IDEA-111833 (Bug)	Search entry in analyze stack trace inserts text backwards
Gradle	
IDEA-111910 (Feature)	External system: Make it possible to customize processing classpath in case of in-process mode
IDEA-83168 (Feature)	Gradle: changes in a project layout (content roots) could be detected on Refresh
IDEA-111532 (Feature)	External system: Expand the api in order to allow to customize notification shown to the end-user
IDEA-111831 (Feature)	External system: Make it possible to communicate with external system at the ide process
IDEA-109629 (Bug)	Gradle: just imported project is shown multiple times in Gradle tool window until reopening of the project
IDEA-111342 (Bug)	Gradle: if root project is renamed by means of gradle, it is shown twice in tool window - as root project and as sub-project
IDEA-111616 (Bug)	External System: Run Configurations: project selector passes selected project to default run configurations
IDEA-111658 (Bug)	External System: no refresh is performed on project opening if build file has been changed since the last refresh
IDEA-111651 (Bug)	External System: after opening of an external project tasks of sub-projects do not appear in External system tool window until project refresh
IDEA-111467 (Bug)	Gradle: JVM options specified during project importing do not appear in Settings   Gradle
IDEA-111241 (Bug)	Gradle: 'Open config' action is not available for subprojects with changed name
IDEA-111551 (Bug)	Gradle: JVM options are not saved until changing some of the gradle settings
IDEA-111637 (Bug)	Gradle: on running one from 7 recent tasks, number of recent tasks decrements by one
IDEA-111626 (Bug)	External System tool window: selected task could be executed on pressing Enter
IDEA-109519 (Bug)	Gradle: Don't ignore user-defined settings on initial project import
HTML	
WEB-8773 (Feature)	Bootstrap template: change the Github URL of the project to the new one
WEB-8334 (Usability Problem)	Wrong caret position using Emmet inside JS string
WEB-8568 (Bug)	Angular templates no longer correctly syntax-highlighted
IDE Configuration	

IDEA-111514 (Usability Problem)	Focus on filter text field in Add Action to Quick List window
IDEA-110995 (Bug)	Custom variables dialog does not appear for included templates.
IntelliLang	
IDEA-97264 (Feature)	IntelliLang support for "Path to File" language
IDEA-97298 (Feature)	Inject Language: "Path Expression"
J2EE.Jetty	
IDEA-111937 (Exception)	RCE at com.intellij.javaee.oss.jetty.server.JettyLocalEditor.applyEditorTo
J2EE.Struts	
IDEA-111867 (Bug)	Struts 2: Spring plugin "struts.objectFactory.spring.autoWire" highlights "no" as error
J2EE.Tomcat	
IDEA-109063 (Bug)	"Cannot find configuration of jsp built-in servlet" with Tomcat trunk
IDEA-111925 (Exception)	Tomcat run configuration: CE at JavaeeRunSettingsEditor.getPort() on editing
J2EE.WebLogic	
IDEA-110430 (Feature)	Support Weblogic 12.1.2.0.0
IDEA-107884 (Bug)	WebLogic: clean up sub-deployments
JPA	
IDEA-110521 (Feature)	Support for custom functions in JPA QL
IDEA-111962 (Bug)	IDEA Groovy version conflicts with project version when using JPA console
IDEA-101041 (Bug)	jpql (eclipselink) good code is red in FUNC
Java. Code Completion	
IDEA-110166 (Feature)	Suggest javadoc autocompletion for variables of the same name in other javadoc for this class
IDEA-111144 (Usability Problem)	'Generate Getter' should add @Override if needed
IDEA-104677 (Usability Problem)	Selected completion item isn't inserted by typing a colon
IDEA-111362 (Bug)	Generate constructor removes "m" from variable name
Java. Error Highlighting	
IDEA-111451 (Bug)	Wrong warning on primitive and Object type comparison
IDEA-111613 (Bug)	Bad code is green: IDEA doesn't show 'Unhandled exception' error when a method with parametrized 'throws' section is used with wildcard type argument
IDEA-57439 (Bug)	False error 'Method cannot be applied'

IDEA-67865 (Bug)	Error 'reference to foo is ambiguous, both method <T>foo(java.util.List<T>) in pck.Main and method <T>foo(java.util.Collection<T>) in pck.Main match' is not detected
IDEA-57312 (Bug)	False error 'Method cannot be applied'
IDEA-67676 (Bug)	False error 'Incompatible types'
Java. Intention Actions	
IDEA-111478 (Bug)	Wrong 'replace with' quick fix with compound assignment operators
IDEA-111715 (Bug)	Implement methods intention not works for enum
IDEA-111785 (Bug)	'Code   Generate   Constructor' for enum should generate 'package local' constructor
Java. Refactoring	
IDEA-111652 (Usability Problem)	Make Window 'Select Methods To Propagate Parameters' maximizable
IDEA-111294 (Bug)	Rename sqlite3 table is applied twice
IDEA-111739 (Bug)	Refactoring "Change signature" change type of the method incorrectly
IDEA-111735 (Bug)	Change Signature refactoring corrupts javadoc @links references to the method
JavaScript	
WEB-8591 (Bug)	JavaScript libraries: invalid download path for several typescript stubs
WEB-8758 (Bug)	JSDoc: @returns considers primitives as objects
WEB-8608 (Bug)	jQuery.on(): Missed argument for parameter one
WEB-8592 (Bug)	JavaScript libraries: "Invalid library name" error for predefine lib name
WEB-2290 (Bug)	module.exports breaks inheritance
WEB-7260 (Bug)	support for a special type of JSDoc rest parameter
WEB-8705 (Bug)	Doc comments or empty block comment shows as error in Json files
WEB-8667 (Bug)	JSDoc: @returns excess types
WEB-8655 (Bug)	Parser trips over `new function...method()``
WEB-8642 (Bug)	JSDoc: @typedef does not work with @name
WEB-8737 (Bug)	Files within directories which belongs to disabled libraries are not excluded from completion
JavaScript. Inspections	
WEB-8607 (Bug)	JSON validation inspection doesn't work
WEB-8782 (Bug)	Closure Linter: possibility to pass real path of a file via argument
JavaScript. Templates	
WEB-8644 (Bug)	Comment Shortcut not working in EJS files... CMD-Forwardslash 
WEB-8636 (Bug)	EJS - Expecting new line or semi-colon in <% include x >
LESS	
WEB-8703 (Feature)	LESS: Double click on @import entry in Structure View should open that file

WEB-7679 (Feature)	LESS: completion should suggest parameter name when typing named argument
WEB-5778 (Bug)	Selection by double click on LESS variable should include the "@" character
WEB-8704 (Bug)	LESS: Improvements for new @import syntax support (LESS v1.4)
WEB-7678 (Bug)	LESS: refactor/rename for mixin parameter should update named argument
WEB-8584 (Bug)	"&" combinator in LESS doesn't recognized.
Maven	
IDEA-64302 (Feature)	maven: insert..dependency: better support for managed versions
IDEA-111775 (Bug)	Darcula: Maven project and test nodes are invisible
IDEA-111797 (Bug)	Cannot set Environment variable when run maven goal
IDEA-109913 (Bug)	Maven -> Always Update Snapshots CHECKBOX - Not Aligned
IDEA-107689 (Bug)	Dependency of type test-jar listed as external library
Node.js	
WEB-8786 (Bug)	package.json: create new file correctly
WEB-1907 (Bug)	Node.js plugin: module.exports brokes resolving
OSGi	
IDEA-78529 (Feature)	OSGi run/debug configuration selected bundles table need search ability
IDEA-77441 (Cosmetics)	Warning "Neither Export-Package, Private-Package, -testpackages is set, therefore no packages will be included" happens always while build bundles
IDEA-111772 (Bug)	OSGi: manifest editing: wildcard symbols in package pattern are error-highlighted
IDEA-107457 (Bug)	Abstract BundleActivator should not generate "Bundle Activator is not setup in facet configuration" error
IDEA-111805 (Bug)	OSGi: framework configuration name should be kept on configuration editing and propagated to project settings and run configurations on change
IDEA-111576 (Bug)	OSGi: manifest.mf: invalid imports are not highlighted
IDEA-111575 (Bug)	OSGi: manifest.mf: no navigation to module package from Import-Package statement
IDEA-111794 (Exception)	IOOBE at org.osmorc.facet.ui.AdditionalJARContentsTableModel.setValueAt
Project View	
IDEA-111257 (Bug)	Custom scope + Autoscroll from Source
Run   Debug configuration	
IDEA-111730 (Bug)	Updating IDEA changes XML of a run configuration
SASS	
WEB-8812 (Bug)	Incorrect syntax error in SCSS extending selector sequence with interpolated variable
WEB-7352 (Bug)	Implement 'unknown at-rule'-inspection and make it suppressible
WEB-8586 (Bug)	Sass/Compass within @each marks hash (id) selector as invalid
SQL	

IDEA-111636 (Usability Problem)	Create New Table dialog should not be modal
IDEA-110508 (Bug)	SQL: Inspections: Each derived table should have alias: no inspection if there is join after derived table
IDEA-111660 (Bug)	"Unique" checkbox on Add New Index dialog doesn't work
IDEA-111306 (Bug)	good code yellow: GRANT FLASHBACK in Oracle (and Oracle SQL*Plus) dialect
IDEA-110967 (Bug)	Mysql: charset reference
IDEA-104329 (Bug)	SQL inspection: Adding not null column without default value: primary key without default value is green
IDEA-110463 (Bug)	SQL Plugin: INSERT Export Bugs
Spring	
IDEA-111954 (Bug)	Invalid generic class name generated when using quickfix "Create Spring bean"
IDEA-109625 (Exception)	NPE at com.intellij.spring.toolWindow.SpringView\$SpringFileSetFinderRecursivePanel.getListModel
Task Management	
IDEA-111475 (Usability Problem)	Task management: Trello: Open Task shows cards from closed boards
IDEA-111470 (Usability Problem)	Task management: Trello: tasks from archived list are shown as not archived
IDEA-102144 (Usability Problem)	Time Tracking: Remove Task is disabled while indexes are being built
IDEA-111810 (Usability Problem)	Task management: JIRA: would be nice to report invalid search criteria more precisely
IDEA-111474 (Cosmetics)	Task management: Open Task dialog opens behind quick doc popup
IDEA-64402 (Cosmetics)	Adding issue tracking servers window has strange dimensions
IDEA-111299 (Bug)	Task management: JIRA: NPE at JiraIssue\$fields.access\$1000() on calling code completion in Open Task
IDEA-111656 (Bug)	GitHub Tasks Server: Use HTTP authentication checkbox doesn't change its state on click
IDEA-111819 (Bug)	Task management: Trello: closed board is not erased from URL in Settings, tasks are still suggested
IDEA-111597 (Bug)	Task management: JIRA: "Cannot connect" message on Open Task
TypeScript	
WEB-7645 (Bug)	Unresolved variable when "reference import" is used
WEB-7917 (Bug)	typescript: window.location is not resolved
WEB-8685 (Bug)	Typescript colorization of default Object functions
WEB-8650 (Bug)	TypeScript import module and class autocomplete does not work.
WEB-8787 (Bug)	Error when referencing a property named 'true' or 'false' in dot notation
WEB-8678 (Bug)	TypeScript: strange typo warning for declared module name
WEB-8795 (Bug)	Number.MAX_VALUE - constant is unknown
WEB-8674 (Bug)	TypeScript Import statements not resolving correctly

Unit Testing. TestNG	
<a href="#">IDEA-111842</a> (Bug)	Naming of test methods for overloaded methods
Unit Tests	
<a href="#">WEB-8519</a> (Bug)	Code Coverage does not work with karma
<a href="#">WEB-8712</a> (Bug)	JSTestDriver: provide clickable links to the source from console test results for IE
<a href="#">WEB-8491</a> (Bug)	Karma test run plugin does not support multiple browsers
User Interface	
<a href="#">IDEA-111734</a> (Task)	Debug tab labels are always white
User Interface.Darcula	
<a href="#">IDEA-111497</a> (Cosmetics)	Darcula theme lighter since the new update
Version Control	
<a href="#">IDEA-81143</a> (Bug)	Changes/Repository/Create Patch action's "don't ask again" setting not saved across runs
Version Control. Git	
<a href="#">IDEA-111654</a> (Usability Problem)	GitHub: Remove login field for token authentication
<a href="#">IDEA-111653</a> (Cosmetics)	GitHub: confusing successful login message for email logins
<a href="#">IDEA-111284</a> (Bug)	Project checkout from Github doesn't work
<a href="#">IDEA-92009</a> (Bug)	GitHub: do not propose to set http upstream on Rebase My Fork if there is already ssh one configured
Version Control. Mercurial	
<a href="#">IDEA-68795</a> (Cosmetics)	Mercurial: align revisions in tag and branch lists
<a href="#">IDEA-108367</a> (Bug)	Idea hangs if try to merge with old branch from branches dialog
WI specific	
<a href="#">WI-19524</a> (Task)	PHP files: doesn't work 'Open in Browser'
XML	
<a href="#">IDEA-111421</a> (Bug)	Reformat code action on spring xml config included in another config can break entire spring config
<a href="#">IDEA-79276</a> (Bug)	Valid xml element substitution highlighted
