

# WebStorm 2019.3.2 Release Notes

No subsystem	Feature	<a href="#">WEB-42408</a>	[Web Types] Display new lines in quick doc description
	Bug	<a href="#">WEB-42822</a>	TS / Context Action: Change To 'absolute path src/components/etc' no longer available?
CSS	Bug	<a href="#">WEB-42973</a>	Color picker in CSS doesn't update the color of the gutter icon
Debugger	Bug	<a href="#">WEB-42370</a>	Breakpoints in .ts files intermittently not hit in simple project
	Bug	<a href="#">WEB-42536</a>	Node.js debugger doesn't stop at breakpoint if the code was live-edited
	Bug	<a href="#">WEB-42932</a>	Debugger is not attached when debugging NPM script with explicitly specified debug options
HTML	Bug	<a href="#">WEB-40511</a>	Completion for `type` attribute in `input` element doesn't work in Angular templates
	Bug	<a href="#">WEB-42723</a>	Start tag has wrong closing tag
	Exception	<a href="#">WEB-42795</a>	Exception when I Reformat code
JavaScript	Bug	<a href="#">WEB-24720</a>	JSX parsing in flow javascript language is broken if tag contains a namespaced tag or attribute.
	Bug	<a href="#">WEB-40527</a>	Flow module resolution (Cannot resolve module)
JavaScript. Frameworks	Bug	<a href="#">WEB-42634</a>	Webstorm 2019.3 RC throws "XML tag has empty body" warning for Vue components
JavaScript. Inspections	Bug	<a href="#">WEB-43117</a>	Webpack schema validation incorrectly flagging cacheGroups as shorthand format
	Bug	<a href="#">WEB-43015</a>	Invalid 'Comparison of expressions having incompatible types' warning when using remainder operator with BigInt
JavaScript. Refactoring	Bug	<a href="#">WEB-42957</a>	Inlining shorthand array type erases the array part of the type if type has a generic that "extends"
Node.js	Bug	<a href="#">WEB-42909</a>	"yarn install" gets incorrectly replaced with "yarn add"
	Bug	<a href="#">WEB-43088</a>	NodeJS 13.5.0 Can not enable [Coding assistance for Nodejs]
SASS	Bug	<a href="#">WEB-42783</a>	Sass built-in modules not recognised
TypeScript	Feature	<a href="#">WEB-43125</a>	Support TypeScript 3.8 type-only imports/exports: syntax-only
	Bug	<a href="#">WEB-42689</a>	TypeScript import prefers longer wildcard mapping over shorter exact mapping.
	Bug	<a href="#">WEB-42955</a>	No autocompletion for properties accessed with [] on generic interface
	Bug	<a href="#">WEB-43012</a>	Typescript - Wrong type inference when using a partial record
	Bug	<a href="#">WEB-42858</a>	"Override methods" doesn't generate "super" call when extending a class declared in d.ts file
	Bug	<a href="#">WEB-42579</a>	Completion of generic method inserts arguments in wrong place when replacing method expression
	Bug	<a href="#">WEB-42855</a>	Wrong Parameter Info for static overloaded method
	Bug	<a href="#">WEB-42808</a>	Import on copy paste happens from wrong place
	Bug	<a href="#">WEB-42801</a>	Add compiler options "useDefineForClassFields" to tsconfig
	Performance	<a href="#">WEB-42835</a>	TypeScript lead to high memory leak & high cpu usage
	Usability	<a href="#">WEB-42813</a>	Name completion is not suggesting the expected class/interface name
Unit Tests	Bug	<a href="#">WEB-42752</a>	Latest Karma plugin claims that a regular angular.json is invalid
	Bug	<a href="#">WEB-42729</a>	Testing with react-scripts does not work since update

Code Analysis. Structural Search	Bug	<a href="#">IDEA-224957</a>	Searching for javadoc with text and doc tag ignores text
	Bug	<a href="#">IDEA-227675</a>	Structural search doesn't work with JSX
	Bug	<a href="#">IDEA-196360</a>	Replace structurally removes spaces between repeated elements
	Bug	<a href="#">IDEA-227210</a>	Extra semicolon inserted on replace
	Bug	<a href="#">IDEA-225633</a>	matching multiple fields in single declaration fails
Core. IDE Settings	Bug	<a href="#">IDEA-222803</a>	Customize Menus - Navigation Bar popup menu items are not saving
Core. Installation	Usability	<a href="#">IDEA-206803</a>	Restart WildFly server after update despite canceling
Core. Project Settings	Bug	<a href="#">IDEA-227598</a>	Editor - Duplicates - settings for Kotlin, Javascript, Typescript and Actionscript reset after reopening PhpStorm in default settings and in project settings
Editor. Intention Actions	Performance	<a href="#">IDEA-227453</a>	Freeze on showing available intentions
Lang. JSON	Bug	<a href="#">IDEA-228283</a>	Ability to set a custom value for a max JSON schema file size
	Bug	<a href="#">IDEA-226522</a>	Sort properties alphabetically breaks indentation in JSON
Tools. Docker	Bug	<a href="#">IDEA-226460</a>	Docker. FileChooser. F1 should lead to `Docker` section instead of `Services Tool Window` .
	Bug	<a href="#">IDEA-218353</a>	False positive on external network name in docker compose
	Bug	<a href="#">IDEA-227717</a>	Packages added in remote Python interpreter are not available for code completion
	Bug	<a href="#">IDEA-228861</a>	Docker: connection Url is not checked if contains spaces
	Usability	<a href="#">IDEA-226393</a>	Docker. Root node it selected instead of the container, which run via image/Dockerfile
	Usability	<a href="#">IDEA-218156</a>	Extra spaces are not trimmed in the API URL in Docker server settings
User Interface. Navigation	Bug	<a href="#">IDEA-229306</a>	Goto Class should prefer start matches
	Bug	<a href="#">IDEA-226761</a>	Switch tab shortcut skips one file with Tab limit = 1
User Interface. Project View	Feature	<a href="#">IDEA-223834</a>	Add ability to "Copy path" relative to repository root
User Interface. Services View	Bug	<a href="#">IDEA-226737</a>	Services: RestoreHiddenConfigurations action should be available always when some configurations are hidden
	Bug	<a href="#">IDEA-227195</a>	Unable to remove Services tool window from panel
Version Control. Git	Usability	<a href="#">IDEA-228776</a>	Do not propose Force Add for directories
Version Control. Local History	Bug	<a href="#">IDEA-229351</a>	Undo doesn't work for "copy file" action
Version Control. Mercurial	Bug	<a href="#">IDEA-228035</a>	Authentication script does not work with pyhton 3
