PhpStorm EAP 163.6957 Release Notes

PHP Completion	Usability	WI-33532	Unnecessary space character after autocomplete for "implements <Interface>"
	Usability	WI-33342	Overriding class property cursor placement is not useful
PHP Inspections	Bug	WI-23967	Parameter type inspection - false positive: type of unpacked arguments are not inferred
	Bug	WI-30855	Member has protected access error for protected parent class method/field usage in trait
	Bug	WI-33681	Strict standards: Parameter with default null value should be matched with the same default value or type ?type when overriding
	Bug	WI-33680	Strict standards: return type (by-value or by-reference) incompatibility is not detected
	Bug	WI-33222	Change modifiers: creates invalid signature for Interfaces
	Bug	WI-33666	False positive: "Declaration must be compatible" when overridden method has var arg
	Bug	WI-31754	Regression with Recursive resolve of constant values inside include expressions
	Bug	WI-33466	PHP 7.1: Private constant not indicating as being used in class.
	Bug	WI-33612	Cannot use argument unpacking with strict types enabled
	Bug	WI-33679	Strict standards: Parameters don't have to match when overriding trait's method.
	Bug	WI-33675	Strict standarts: parameters in constructor should be excluded from overridden inspection
	Bug	WI-33102	Missing declare types inspection: Don't show inspection warning in a mixed code
PHP Refactoring	Bug	WI-33007	Moving class to global namespace breaks @see statement
PHP debug	Bug	WI-32748	'break on first line' while attempting debug validation hangs PhpStorm
PHP lang	Feature	WI-33370	Make completion aware of assert(\$x instanceof Y)
	Bug	WI-23909	It should be possible to add optional argument to match signature
	Bug	WI-33638	Find usages doesn't group imports of constants and functions
	Bug	WI-14678	Strict standarts: declaration of overridden method should be compatible with parent class
	Bug	WI-32709	Analyze Stacktrace cannot parse filenames / line numbers anymore
	Bug	WI-14680	Green code marked Error: Cannot redeclare non static private variable as static
PHP test	Feature	WI-33586	PHPSpec: support phar executable
	Bug	WI-33475	Link to download Behat is unexpectedly editable
	Bug	WI-33594	Behat 3.2.0+: if there is undefined step the suite will hang
	Usability	WI-33537	PHPSpec: allow only PHPSpec configuration for the PHPSpecs files
	Usability	WI-33661	PHPUnit: add hyperlink to download phpunit.phar
Plugin: Deployment _ FTP..	Cosmetics	WI-33655	Deployment - "User name not specified" error with local folder

PHP Interpreters	Bug	WI-33563	Docker: addition of a new docker interpreter cause the first one to forget image name
	Exception	WI-33557	Docker: NPE is thrown on attempt to change docker mappings
SQL Editing	Bug	DBE-3253	Valid H2 SQL shows red line
SQL Highlighting	Bug	DBE-3302	SQL Server wrong highlighting of proc source
Build tools	Bug	WEB-21484	Ability to pass --silent option to npm when running script
JavaScript	Bug	WEB-23766	Template string conversion bug
JavaScript. Formatter	Bug	WEB-22858	incorrect indentation for arrow functions with implicit return
	Bug	WEB-22044	Shorthand object property names are formatted incorrectly
Node.js	Bug	WEB-23802	Deadlock when configuring node_modules library
