

PhpStorm EAP 171.3566 Release Notes

IntelliJ Platform	Bug	WI-34556	IML file is changed when project is shared between PhpStorm and IDEA
PHP Completion	Bug	WI-34831	Using two classes with same name and different namespaces inside one of namespace
	Bug	WI-34913	Completion of constants/functions from global namespace omit prefix in case when constant/function from the same namespace already exists
	Usability	WI-34914	Import of constant/function may change meaning of code
PHP debug	Bug	WI-32390	Smart step into has problem with code has Namespace
	Usability	WI-7465	Allow choosing IP to be sent to Zend Debugger on machine with multiple IPs
PHP lang	Bug	WI-34518	Short array syntax destructuring does not allow for key in foreach()
	Bug	WI-33577	Generate PHPDoc: confusing 'int null null' type
	Bug	WI-35030	Constants defined improperly using 'define()' are still resolved
	Bug	WI-35029	Constants defined using '\define()' are not resolved
	Bug	WI-34733	brace matcher fails on if/elseif without braces
	Usability	WI-34586	generate phpdoc does not add null annotation for typed parameter with null default value
No subsystem	Bug	IDEA-167627	Reference search doesn't work for files added via AdditionalLibraryRootsProvider
	Task	IDEA-168385	Widen Balloon API for new error selection feature
	Exception	IDEA-168538	NPE at com.intellij.ui.popup.PopupComponent\$DialogPopupWrapper.<init>
Code Analysis. Inspection	Bug	IDEA-168254	Inspect.sh(bat) doesn't work
	Cosmetics	IDEA-162907	Inspections settings: wrong font color for selected top level nodes
Code Formatting and Code Style	Performance	IDEA-166411	Twig plugin freezes on .groovy.twig files
Debugger	Feature	IDEA-168070	Allow to use expression as a Capture key
	Bug	IDEA-163334	Memory leak in jdi code
	Bug	IDEA-143277	Debugger: Smart Step Into can't find a line with lambda, while Step Into can
Docker	Bug	IDEA-168191	missing as operator for Dockerfile RUN command
Editor. Editing Text	Bug	IDEA-167937	Documentation window gets focus on second Smart Type completion
	Bug	IDEA-168209	Quick doc window is not closed from the first attempt
	Bug	IDEA-168069	Join Lines throws array index out of bounds on an empty file
	Bug	IDEA-168452	Backspace does not change cursor position
	Usability	IDEA-167931	"Quick Evaluate Expression" with default mouse shortcut adds multiple carets on Linux
	Cosmetics	IDEA-148843	A letter may appear on both sides of the caret
Find, Replace, Find Usages	Bug	IDEA-168276	"Find in path" doesn't change the directory to the selected one
Run Debug configuration	Bug	IDEA-139688	Shortcut for terminating (CMD+F2 on mac) multiple runs doesn't work
Structural Search and Replace	Bug	IDEA-168119	Structural Search dialog can change it's width to be unusable (because of long Status: text)

UML	Bug	IDEA-91121	UML class diagram : note disappear / are not saved
User Interface	Bug	IDEA-167825	Active project window is hidden under already opened projects
	Bug	IDEA-155088	Double click on tree's expand icon triggers double click listener
	Bug	IDEA-168315	Component.getGraphics() should not be used to get scale for the HiDPI API
	Bug	IDEA-168194	Huge gutter icons in latest 2017.1 EAP
	Performance	IDEA-168535	Concurrent access to tree set leads to hang
Version Control	Usability	IDEA-168473	Enable Store on shelf base revision texts for files by default
	Cosmetics	IDEA-131099	VCS: "Do you want to add.." wording
Version Control. Git	Bug	IDEA-168257	Deadlock in vcs
No subsystem	Bug	DBE-3150	single quote not escaped when copying DDL
DB Console	Bug	DBE-4136	Editor database toolbar is not restored on closing and reopening .sql file
DDL\PL Editing	Bug	DBE-666	DB2 for AS 400: opening Procedure/Function editor fails
SQL Highlighting	Bug	DBE-4093	escape characters in string not seen as word break by spell checker
No subsystem	Feature	WEB-24551	Add ability to run ESLint for the TypeScript sources files
	Bug	WEB-22819	ESLint and .vue files
Dart	Bug	WEB-25047	Dart's Coverage package update broke cov collection
JavaScript	Bug	WEB-17099	CommonJS: module functions not available when re-exporting module instance
	Bug	WEB-25449	ES6 Import Code Completion does not match CommonJS
	Usability	WEB-25455	Module Dependencies Diagram: provide separate popup shown for the empty context
JavaScript. Formatter	Feature	WEB-25019	"New line after (" in JS function calls should ignore multiline parameters and take into account only line breaks *between* parameters
	Feature	WEB-22612	"Reformat code" is unopinionated on TypeScript generics
	Feature	WEB-19523	No 'Wrapping and Braces' alignment code-style options for JavaScript 'new' expressions
JavaScript. Refactoring	Bug	WEB-25481	'Compute constant value' doesn't support ES6 template strings
Node.js	Feature	WEB-25514	Support for n (virtualenv for Node.JS)
	Bug	WEB-25154	[node][es6] Using quickfix to import exported function fails when import is present
Unit Tests	Bug	WEB-23102	Mocha: file is not recognized as spec file if there is no describe() definition there
