Maia 94.192 Release Notes

No subsystem	
IDEADEV-42174	Slow performance when editing JAVA code
IDEADEV-41626	Please, correct the spelling in Settings - Project Settings - Version Control - VCSs - Git
IDEADEV-41874	Exception during shutdown if more than one project was open
IDEA-51753	AIOOBE when multiple tabless editor groups exist on task switch or project close (with bugfix patch)
IDEADEV-42010	Add unambiguous imports and Optimize imports on the fly do not work
IDEADEV-41919	'add on demand static import' changes resolve target
IDEADEV-42126	Map ID reference.VersionControl.Git.PushActiveBranches to the Push Active Branches Dialog box
IDEADEV-41876	MacOS - java.lang.reflect.InvocationTargetException
IDEADEV-42118	Bad code is green: overridden method is static final
IDEA-51786	CDI: Injection, different jars(@Produces)

Code Analysis. Inspection	
IDEADEV-42089	false positive with "Constant array creation expression can be replaced with array initializer" inspection
IDEA-51627	incorrect warning for continue inside switch
IDEADEV-41927	Add option to ignore trivial finalize() methods to "'finalize()' does not call 'super.finalize()'" inspection
IDEADEV-42093	"Checked exception instance not thrown" reported erroneously
IDEADEV-41928	false negative in "'finalize()' does not call 'super.finalize()'" inspection
IDEADEV-41883	"Enum 'switch' that misses case" fails when enum class has non-enum-constant fields
IDEADEV-41933	Add option to ignore trivial finalize() methods to "'finalize()' declaration" inspection

Unit Testing. JUnit	
IDEABKL-5681	Unit Tests: when no test found in configuration the progress bar has only one green brick when '0 tests of 0 are Done'
IDEADEV-41871	Running a single test method of a @RunWith-style JUnit test does not work if @RunWith is inherited from a parent class
IDEA-27198	java.lang.NoClassDefFoundError when using JUnit3
IDEADEV-42082	JUnit run configuration editor coverage tab: Tracing radio button should be disabled
IDEA-27168	IDEA fails to run JUnit test with $ (dollar) in the package name

HTML.Editing	
IDEA-25930	CSS support not working for a long time...
IDEA-47946	No code completion for css selector for html with full content included

JavaScript	
IDEA-27270	Javascript inspection error (Unresolved Type) for browser objects

IDEA-26878	Actionscript: Code indention within switch/case
IDEA-26545	JavaScript completion totally stopped working
Flex Support	
IDEADEV-42164	IDEA deadlock
IDEA-51735	Good code marked red: field reference is not recognized
IDEA-51736	Flex formatting: not enough indent for static block
IDEA-51732	Good code marked red: String coercion to Boolean
IDEA-51659	0x0E is handled like a "confusing floating point literal"
IDEA-51652	Unintuitive handling of autocompletion for parameterized types
IDEA-51651	Autocompletion after ":" in strings and comments
IDEADEV-41978	Flex 4: support <fx:Private/> mxml tag
IDEA-27032	flex: extract field: "initialize in class constructor" not applicable in mxml context
IDEA-26755	mxml: completion variant for field expands to mxml FQN
IDEA-26552	flex: no completion for keyword 'dynamic'
IDEA-51635	protected static consts / code completion
IDEA-51440	Duplicate setter declaration is not highlighted as error
IDEA-51683	When completing function call with semicolon, semicolon is inserted before the brackets
IDEADEV-41981	Flex 4: support <fx:Library/> and <fx:Definition/> mxml tags
IDEADEV-41986	[DefaultProperty] annotation of parent class is not taken into consideration
IDEADEV-42039	"MissingResourceException: Can't find bundle for base name com.intellij.lang.javascript.JavaScriptBundle" on every IDEA start
IDEA-51610	Don't suggest to replace with import a package name that looks like fqn
IDEA-51762	Good code is red: Cannot resolve file 'AuthService'
IDEA-26995	Debugger doesn't work
IDEA-26664	location of generated code (fields)
IDEADEV-41890	XMLList in XMLListCollection shown red
IDEA-51780	Autocompletion after ":" in case statements
IDEA-26388	Error running tests
IDEA-51657	Add option to formatter for having single space before type reference
IDEADEV-42182	flex: 'pull up' dialog: selection logic inconsistent with Java, allows operating on invalid selection
IDEA-51668	Instance field is marked unused if only static methods access it
Project Configuration	
IDEADEV-41827	If a library contains an external Javadoc entry IDEA will always treat the library as changed
OSGi Support	
IDEADEV-39099	OSGi: libraries bundling doesn't work
UML	
IDEADEV-41864	Uml project config: reset and modified state are handled incorrectly

Android	
IDEA-26751	Please provide an option to make one android module depends on another
IDEA-51742	Android: full name for widget is marked as wrong in xml
Version Control	
IDEA-27179	Repository view of Changes shows wrong dates
IDEA-27577	CVS Annotate: Color editor background by revision or author
IDEA-51297	Apply Patch: Show file choosed dialog as soon as I use 'Apply patch' action.
IDEA-50621	Changelists with empty names should not be created
XML editing	
IDEA-26409	Major regression (again): valid XML with schemas gives errors
Version Control. CVS	
IDEA-51710	CVS Compare compares with wrong version
IDEA-50684	CVS: should not be possible to import to cvs if connection fails
Code Analysis. Dependencies	
IDEA-50121	Dataflow: Show usages of the variable (not only the flow)
IDEA-27228	Analyze dependencies on whole project trows thousands exceptions like that
Refactoring	
IDEA-20416	Refactor->Extract Interface usability
IDEA-46683	Search for callers in "Propagate parameters" of "Change Method Signature" dialog is not cancelable
IDEADEV-20861	Renaming a parameter should trigger renaming all parameters in inheritance hierarchy
IDEADEV-41681	On Introduce Parameter Object refactoring, preserve JavaDoc description for the parameters
IDEADEV-35295	Smarter accessibilty detection for inner class created by Introduce Parameter Object
IDEA-51633	Moving of JSF XHTML files allows only packages as target instead of folders
IDEA-13684	When renaming a class, rename variables can break code
IDEADEV-41353	Inlining varargs-methods creates unnecessary temporary variable
IDEA-12598	Copy class doesn't work correctly between modules
IDEA-46563	Push Members Down should be able to create subclass
IDEA-51690	Rename Field: do not offer to rename corresponding method parameters if I have added/removed a prefix (set in code style)
IDEA-43009	Move instance method changes code semantics when moving method to a class, which has a field with the same name as the method's parameter
IDEA-51711	Extract Method adds erroneous unnecessary parameter
IDEADEV-39711	Move method can incorrectly create private method when it is used in another class
IDEA-19002	Refactor: encapsulate fields performs slow search
IDEA-51577	Safe Delete Method: I'm not offered to delete method implementations of there are usages found despite I press 'ignore usages'

Task Management	
IDEADEV-41837	Tasks: i cannot get issues from YouTrack
Web Services	
IDEA-51764	When I try to generate java sources from wsdl I get an error (see attach)
CSS Editing	
IDEA-38432	CSS: non-curved braces without pair brace are resolved as matching to curved braces
IDEA-27197	CSS formatter breaks css @page pseudo-classes
IDEA-49170	Кириллица в CSS-селекторах
IDEA-51180	Highlight missing brace in css file
IDEA-51072	css autocompletions puts semi-colon inside close parenthesis
IDEA-51076	Parameters info in css works inside brackets only.
Groovy/Grails	
IDEA-51640	Show Groovy inner classes in structure view
IDEA-50337	Grails: navigation from view without matching action leads to last edit position in the controller
IDEADEV-41877	Duplicate entries for "Show usages"
IDEA-50708	Compilation of java class that use groovy static inner class fails
IDEA-50719	Please provide unified font in the Grails and Griffon pages of New Project/New Module wizards
IDEA-51639	Generate stubs for Groovy inner classes
IDEA-50459	Mirror Grails 1.2 dependencies
IDEADEV-42000	Groovy missing return statement inspection
IDEA-26402	Cannot un-check "Add --classpath" in default Grails run configuration
IDEA-26403	Maia 92.65 and 92.81 overwrite and destroy existing Grails run configurations on startup.
IDEADEV-41635	Groovy: IllegalArgumentException at GrTypeDefinitionImpl.add() on 'Inline super class' refactoring
IDEA-25856	Change Grails SDK? - Maia UI90.122
IDEA-50685	Map help button of the Grails and Griffon SDK pages of the New Project/New Module wizards
IDEA-24922	Grails run profiles "add classpath" resets to on, whenever you edit the profile
Tapestry Support	
IDEA-26518	Provide an easy way to navigate forth and back between a page/component class and its template
IDEADEV-41936	Tapestry t:id attribute should be allowed for all tapestry tags
J2EE.Deployment and Run.Glassfish	
IDEA-26132	war get's deployed in glassfish v3 b72, but IDEA doesn't recognize
IDEA-26126	glassfish domain directory hard-coded to the [glassfishhome]/domains (2&3)

Version Control. Perforce	
IDEADEV-40945	Perforce: sometimes files modified without checkout appear as opened for edit
IDEA-26554	Files randomly loose their Perforce state
IDEA-50957	Perforce: Incoming changes are not shown (for some client versions?)
	Unknown
IDEA-26871	Constantly getting "Could not save application settings: null"
J2EE.Seam	
IDEA-51699	Navigation from seam .page.xml files broken in version 9
IDEADEV-40843	Seam/RichFaces tags red/broken since build 9920
IDEA-51781	Seam's @Create and @Destroy methods are reported as unused
Find, Replace, Find Usages	
IDEADEV-42139	Find Usages: add an option to sort members structurally.
Editor. Error Highlighting	
IDEA-18617	Good code is red: Long number too large
IDEA-27090	EJB QL name resolution regression
IDE Configuration	
IDEA-41229	attach source directly from edit window
IDEA-19350	"Submit Performance Report" usability
GWT Support	
IDEADEV-42022	Support UIBinder functionality introduced in GWT 2.0
J2EE.JSP	
IDEA-27150	JSP error analysis never completes
Version Control. Subversion	
IDEA-27188	too many svn requests
IDEA-26607	Subversion: Update is not working properly
IDEA-26610	IDEA in 9.0 final can't read SVN credentials anymore (worked in RC1)
IDEA-50457	Information on progress is strange
IDEA-27223	SVN lockout
IntelliLang	
IDEA-27144	Not all SQL highlighting is working for JdbcTemplate after updating to Spring 3.0.0

Editor. Editing Text	
IDEADEV-41894	Bookmark locations are not adjusted as the code is being edited

J2EE.Spring	
IDEADEV-42062	spring 3.0: Ctrl-Alt-Space completion does not suggest elements from new spring 3.0 schemas
IDEA-51744	NPE at com.intellij.xml.index.XmlNamespaceIndex.getNamespace
IDEA-51678	Spring support doesn't consistently recognise beans wired using @Resource annotation with name parameter

User Interface	
IDEADEV-42179	Misspelling in context menu of Spring config text view
IDEADEV-41880	Quick lists missed from list of actions in keymap configuration panel
IDEADEV-42158	Inspection icon disappears on mouse over
IDEADEV-42132	TODO is highlighting block comment end pattern
IDEADEV-42144	Open dialogs and other dialogs should remember the size I like

Version Control. Git	
IDEADEV-41991	IDEA invokes git.exe with invalid command line: filenames that start with '--' should be escaped
IDEADEV-42007	Line separators should be checked for files to be stashed on the update
IDEADEV-42214	Throwable at git4idea.commands.GitHandlerUtil.runInCurrentThread

Maven Integration	
IDEADEV-41873	Maven settings.xml local repository doesn't substitue environment variable
IDEADEV-41885	When updating JAR versions in my POM, maven integration starts duplicating entries in my artifact configuration
IDEADEV-41957	Maven: set project's language level to the highest across the maven modules, but not higher.

SQL	
IDEADEV-41907	mysql: good code red: use of 'columns' instead of 'fields' for 'load data infile statement'
IDEADEV-29573	MySQL, SQLite: new table name provided in ALTER TABLE ... RENAME statement, RENAME TABLE statement is not resolved
