

IntelliJ IDEA 2016.1 145.1616.11 Release Notes

No subsystem	Bug	IDEA-152472	Editor loses focus on entering Distraction Free or Presentatipn Modes
	Bug	IDEA-143263	Find In Path is not autopopulating a selection from Find Preview window
	Usability	IDEA-156750	IDE launch delays a long time if using slow cellular network
Code Analysis. Inspection	Bug	IDEA-154422	Method reference can be replaced with qualifier breaks code
	Bug	IDEA-154467	Suggested fix: Make method return void
Database	Usability	IDEA-146810	When you attach an previously-never-attached file to a console the console chooser shows lazily
Decompiler	Bug	IDEA-156371	IDEA says that bytecode version 46 is Java 1.3, actually it's Java 1.2
Documentation	Bug	IDEA-141620	Duplicating entries in the Expression Type popup
Editor. Error Highlighting	Bug	IDEA-154622	Incorrect "Non-static method cannot be referenced from static context"
	Bug	IDEA-154645	Accessing a constructor method reference on a type parameter isn't highlighted as an error
Gradle	Feature	IDEA-153010	Map Gradle's compileOnly configuration to provided
	Bug	IDEA-155963	Gradle war 'providedCompile' dependencies not observed since version 2016.1.2
	Bug	IDEA-156080	Gradle integration: turning off Create separate module per source set" breaks Gradle tasks and Run Configurations
	Bug	IDEA-155475	Gradle: Disabling transitive dependencies for compile config marks all dependencies as runtime
Java. Error Highlighting	Bug	IDEA-154283	bad code green: Unhandled exception IOException
	Bug	IDEA-154619	Quick fix 'Change parameter of method..' changes parameter type and leaves code uncompileable
	Bug	IDEA-154419	Misleading tooltip error
	Bug	IDEA-151387	Good code is red: captured bounds
	Bug	IDEA-154968	False error in lambda: 'compareTo(capture<? extends java.lang.Number>)' in 'java.lang.Comparable' cannot be applied to '(java.lang.Number)'
	Bug	IDEA-154377	Error 'Methods A(List<T>) from y.A and A(List) from x.A are inherited with the same signature' should not happen on constructors.
	Bug	IDEA-155627	incorrect "inference variable has incompatible bounds"
	Bug	IDEA-154722	False syntax error and incorrect refactoring
	Bug	IDEA-155551	false "incompatible types" error when assigning to primitive type
	Bug	IDEA-154278	Good code red. Pass raw to generic method
	Bug	IDEA-154174	Bad code green. Lambda forward reference to this
	Bug	IDEA-154305	Good code red. Reference to final field inside lambda in anonymous class constructor
	Usability	IDEA-155192	IntelliJ erroneously highlights inner lambda when outer lambda is missing needed return type.
	Usability	IDEA-155153	Unclear error message on red code: incompatible types
Java. Intention Actions	Bug	IDEA-154185	Unable to replace if-else with ternary operator inside lambda
	Bug	IDEA-147577	Expression type action slightly broken
Java. Refactoring	Bug	IDEA-154833	"Convert to Instance Method" should be able to create default methods in Java 8 interfaces

	Bug	IDEA-152837	Need casting for inlined variables
	Bug	IDEA-153174	In-place refactoring of parameter types does none-required searches
Java.Inspections	Bug	IDEA-154759	Lost cast during conversion from Anonymous type to Lambda
	Bug	IDEA-154751	Nested anonymous classes could cause problem during conversion to lambdas
	Bug	IDEA-152766	Replace anonymous class with lambda produces uncompileable source
	Bug	IDEA-154861	Redundant type cast false positive / intention causes broken code
	Bug	IDEA-153661	False positive 'Redundant type cast' inspection
	Bug	IDEA-154805	Ambiguous call after conversion anonymous class to lambda.
	Bug	IDEA-153701	False positive 'Redundant type cast' on lambda parameter
	Bug	IDEA-155045	Inspections: Redundant local variable quick fix creates uncompileable code
	Exception	IDEA-154354	can't commit if Reformat and Cleanup are selected
	Exception	IDEA-155017	Incorrect expression 'new Map<StList<BaseClass>[]>{0}'
Packaging and Installation	Bug	IDEA-155856	After update from 2016.1.1 to 2016.1.2 IntelliJ IDEA won't start anymore on mac os x
	Bug	IDEA-156078	"Open recent project" from Windows taskbar does nothing
Unit Testing. JUnit	Bug	IDEA-155036	Wrong resource used in "Tests in package > whole project"
Unit Testing. TestNG	Bug	IDEA-153832	How to turn off separation test log to each test
User Interface	Bug	IDEA-156246	About font on Windows is hardcoded to Tahoma, doesn't support some glyphs (Chinese)
	Bug	IDEA-153827	Log tool window loses focus by TAB.
	Bug	IDEA-152525	IDE loses focus after closing toolwindow with a `Alt+[0-9]` shortcut
	Usability	IDEA-156077	Empty space instead of CLion app icon when minimize Welcome screen
JavaScript. Inspections	Bug	WEB-21650	JavaScript analysis never finishes if a variable named "i" is missing "var"
Node.js	Bug	WEB-21368	Scoped npm modules are not detected as installed
SASS	Bug	WEB-21764	Incorrect "Generated source files should not be edited..." warning
TypeScript	Bug	WEB-21331	Ws generates wrong code for constructor
