

Previous Releases Downloads

The latest TeamCity release is available on the [official download page](#).

If you are [upgrading](#), please check that all your licenses will be still valid with the new version. A license is valid if its maintenance period covers the release date of the last major version release (the release date that is marked in bold below). Note that you are automatically licensed to receive all the following minor bugfix versions for the last major version covered by your maintenance period.

Download Options

- For all downloads you can get the SHA256 checksum: just add ".sha256" to the download URL.
- Windows installer can also be downloaded archived: replace ".exe" in the link to the installer with "-installer.zip".

Current TeamCity Version is 2020.1.2

Release date: 09 July 2020
Build 78726

[Windows installer](#)
[Archive with bundled Tomcat \(any platform\)](#)
