

# IntelliJ IDEA 14.1 140.2683.2 Release Notes

|   |  |
|---|--|
| No subsystem                                  |  |
| <a href="#">IDEA-97844</a> (Feature)          | Resource bundle should be associated to file even written in constant  |
| <a href="#">WEB-15327</a> (Feature)           | Can you support server side includes in preview server   |
| <a href="#">IDEA-108119</a> (Cosmetics)       | Code folding should be disabled, when irrelevant   |
| <a href="#">IDEA-136605</a> (Cosmetics)       | Correct grammar on the page "Web Browsers"   |
| <a href="#">IDEA-136763</a> (Bug)             | TestStatusListener extensionPoint not called when running tests with SMRunner  |
| <a href="#">IDEA-135073</a> (Bug)             | IDEA can't download source but it exists in a remote repository  |
| <a href="#">IDEA-136334</a> (Bug)             | Cannot fetch remote documentation: Element: class com.intellij.psi.impl.source.PsiMethodImpl because: parent is null; stub=null invalidated at: see attachment |
| <a href="#">WEB-15308</a> (Bug)               | WebStorm keeps re-indexing every few seconds 😞   |
| <a href="#">IDEA-136830</a> (Bug)             | New reformat dialog: do not show optional label, if there is no available actions  |
| <a href="#">IDEA-78557</a> (Bug)              | Correctly process RuntimeExceptions thrown while generating documentation  |
| <a href="#">IDEA-136615</a> (Bug)             | Colors & fonts: background for white spaces is not updated   |
| <a href="#">IDEA-136582</a> (Bug)             | when creating a test with CTRL-Shift-T the default class level javadoc is not inserted   |
| <a href="#">WEB-15238</a> (Bug)               | Syntax check for config.jscs.json reports "esprima" key as unknown   |
| <a href="#">IDEA-136776</a> (Bug)             | As of 14.1 IDEA Color & Font theme resets after every restart to default   |
| <a href="#">IDEA-135891</a> (Exception)       | java.io.IOException: An existing connection was forcibly closed by the remote host   |
| Android                                       |  |
| <a href="#">IDEA-136597</a> (Bug)             | Android-Gradle: new project is created with no Project SDK specified   |
| Build tools                                   |  |
| <a href="#">WEB-15380</a> (Bug)               | Grunt: alias tasks defined in load-grunt-config aliases.yaml aren't loaded   |
| Code Analysis.<br>Inspection                  |  |
| <a href="#">IDEA-136363</a> (Cosmetics)       | Useless tags in description of inspection issues   |
| <a href="#">IDEA-23971</a> (Bug)              | Warn on @NotNull nont-initialized fields in a class that has default constructor   |
| <a href="#">IDEA-136580</a> (Bug)             | "Contract violation" warnings are reported for manual method contract  |
| Dart  |  |
| <a href="#">WEB-15207</a> (Usability Problem) | Display default values in pop-up dart docs   |
| <a href="#">WEB-15109</a> (Bug)               | Good Dart code red: switch statement with labels   |
| <a href="#">WEB-15141</a> (Bug)               | Dart doc pop up does not include generics  |
| <a href="#">WEB-14847</a> (Bug)               | Arrows in Dart quick docs render poorly for at least some OSes/Java Versions.  |
| <a href="#">WEB-12674</a> (Bug)               | When renaming a dart file that is part of a library also the entry in the library file should change.  |

|                                 |   |
|---------------------------------|---|
| WEB-14865 (Bug)                 | Debugger doesn't work for web applications  |
| WEB-12895 (Bug)                 | Make better prediction for "choose declaration" for Dart (jump to 'part of')                          |
| Database                        |   |
| IDEA-88363 (Usability Problem)  | Database table editor: Shift+Enter could open multiline editor even in not editing mode               |
| IDEA-63267 (Usability Problem)  | Database table editor: inconsistent moving of focus with Enter/Shift+Enter (not in cell editing mode) |
| Debugger                        |   |
| IDEA-97477 (Feature)            | "Pretty print" variable values copied from the debugger   |
| IDEA-136698 (Usability Problem) | Join "Export Threads" and "Get thread dump" actions   |
| IDEA-136722 (Bug)               | Copying bean fields from Variables debugger frame is broken   |
| IDEA-136606 (Bug)               | Debug: View values in editor - slow for huge arrays   |
| IDEA-72849 (Bug)                | Debugger doesn't display unicode characters properly  |
| IDEA-136612 (Bug)               | Allow to hide package name in frames view   |
| Diff_Merge                      |   |
| IDEA-136694 (Cosmetics)         | Diff view: the labels appear too close to the window border   |
| IDEA-128038 (Bug)               | Diff dialog for added jar file - use the same component as for updated jar                            |
| IDEA-136679 (Bug)               | Can't move diff splitter if filename is long  |
| Editor. Editing Text            |   |
| IDEA-111888 (Usability Problem) | Deleting a quote removes matching quote, even with 'Insert pair quote' Smart Key turned off           |
| IDEA-108784 (Cosmetics)         | Shivering cursor in Quick Definition View and on line numbers in Diff/Merge tool                      |
| IDEA-136319 (Bug)               | Hungry Backspace intermittent strange behavior since upgrade to 14.0.3                                |
| IDEA-136397 (Bug)               | Close brace in try resource block   |
| IDEA-136536 (Bug)               | Incomplete code deleted when cursor moved   |
| IDEA-125512 (Bug)               | switch case doesn't indent properly   |
| IDEA-112705 (Bug)               | vertical indent guides should not be stopped by comment lines   |
| IDEA-136452 (Bug)               | Can't surround with {} code starting from the comment under if statement                              |
| Groovy                          |   |
| IDEA-134978 (Bug)               | Good Groovy code red - traits with Generic  |
| IDE Configuration               |   |
| IDEA-136382 (Bug)               | Bundled custom file types disappear   |

|                          |   |
|--------------------------|---|
| Java. Code Completion    |   |
| IDEA-136624 (Bug)        | Bad pluralization in suggested names  |
| IDEA-136777 (Bug)        | Generate getters and setters does not respect field name prefix   |
| Java. Error Highlighting |   |
| IDEA-136717 (Bug)        | JDK 8 method reference support: wrong "Cannot resolve method"   |
| IDEA-136628 (Bug)        | God lambda red when exception handler calls method throwing exception                                       |
| IDEA-136527 (Bug)        | Java/Editor incorrectly reports "Inconvertible types"   |
| IDEA-75628 (Bug)         | Invalid error report in the JPA code  |
| IDEA-135937 (Bug)        | "Might not have been initialized" in lambdas  |
| IDEA-135791 (Bug)        | Type inference broken for lambda block using try-with-resources   |
| Java. Intention Actions  |   |
| IDEA-136851 (Bug)        | Nullity annotation at wrong place for generated setter  |
| Java.Inspections         |   |
| IDEA-136603 (Feature )   | IDEA does not warn if annotated with @Nullable local variable is used for @NotNull parameter method         |
| IDEA-136642 (Bug)        | 'for' loop replaceable with 'foreach' on list iterator and stream API fails                                 |
| IDEA-136805 (Bug)        | False alarm "Call to Thread.sleep() while synchronized" inspection  |
| IDEA-136163 (Bug)        | Incorrect hint: "Can be replaced with method reference" for an implicit lambda short->int conversion        |
| IDEA-136680 (Bug)        | "Unnecessary fully-qualified name" inspection too eager in Javadoc  |
| IDEA-136675 (Bug)        | Field may be static false positive if initialization expression of a final field has non static method call |
| JavaScript               |   |
| WEB-14964 (Feature)      | Create Babel File watcher configuration   |
| IDEA-136652 (Bug)        | Packages prefix to reference java classes in Nashorn  |
| WEB-13589 (Bug)          | JSDoc: provide type checking/completion for parameters in function that implements interface method         |
| WEB-13845 (Bug)          | JSDoc: type mismatch errors when using function new type to specify the constructed type of a constructor   |
| WEB-15256 (Bug)          | Incorrect reserved word used as a name  |
| WEB-13877 (Bug)          | PsiEquivalenceUtil.areElementsEquivalent must not be null   |
| WEB-13900 (Bug)          | Assigned expression type string is not assignable to type T   |
| WEB-15362 (Exception )   | JSDoc: StringIndexOutOfBoundsException when print parameter name on Russian                                 |
| WEB-15361 (Exception )   | Closure Compiler: NullPointerException when use certain @param syntax                                       |

|  |  |
|--|--|
| Packaging and Installation                     |  |
| <a href="#">IDEA-136689</a> (Task)             | Do not replace WebStorm stable with WebStorm EAP in Mac OS Launchpad                                 |
| <a href="#">IDEA-136787</a> (Bug)              | MacOS: Selecting SNAPSHOT as IntelliJ Platform Plugin SDK fails                                      |
| Plugin Support. API                            |  |
| <a href="#">IDEA-109043</a> (Feature )         | Using JavaFX 2 for developing Plugins UI   |
| Profiling                                      |  |
| <a href="#">WEB-14911</a> (Usability Problem)  | Profiling: Heap: improve tabs naming   |
| <a href="#">WEB-14910</a> (Usability Problem)  | Profiling: Heap: long URLs should be shown shorter   |
| <a href="#">WEB-15328</a> (Usability Problem)  | Profiling: CPU: improve time stamp for the log file  |
| <a href="#">WEB-15395</a> (Usability Problem)  | Profiling: Heap: provide "Take Heap Snapshot" action for Run Configuration                           |
| <a href="#">WEB-14951</a> (Bug)                | Profiling: Heap: Many odd objects are shown for the Heap snapshot from the Chrome Canary             |
| <a href="#">WEB-15173</a> (Bug)                | Profiling: CPU: Timeline: prohibit empty x range selection   |
| <a href="#">WEB-15389</a> (Bug)                | Profiling: Tools: V8 Profiling menu group should be dumb aware                                       |
| <a href="#">WEB-15400</a> (Bug)                | Profiling: Heap: context menu invoked for Search results should not use selection from other tabs    |
| <a href="#">WEB-15396</a> (Bug)                | Profiling: Heap: Remove Mark should update all tabs at once  |
| <a href="#">WEB-15330</a> (Bug)                | Profiling: CPU: do not delete .log file on IDE restart   |
| <a href="#">WEB-15398</a> (Exception )         | Profiling: Heap: Summary: IOOBE on expanding child nodes of top groups                               |
| <a href="#">WEB-15394</a> (Exception )         | Profiling: Heap: validate name of the created snapshot   |
| SASS   |  |
| <a href="#">WEB-15305</a> (Bug)                | Import of compass isn't resolved in sass.erb files   |
| SQL  |  |
| <a href="#">IDEA-44071</a> (Usability Problem) | SQL: typing opening quote does not insert closing quote in hexadecimal and binary strings (literals) |
| <a href="#">IDEA-44159</a> (Bug)               | SQL: MySQL: bit literals in form 0bvalue are red   |
| <a href="#">IDEA-136754</a> (Bug)              | MySQL dialect marks COLLATE as error   |
| SQL Editing                                    |  |
| <a href="#">DBE-1125</a> (Bug)                 | Formatting issues in MySQL's quickdoc  |
| <a href="#">DBE-1128</a> (Bug)                 | Add live template on the fly   |
| Spring   |  |

|                                   |   |
|-----------------------------------|---|
| IDEA-136678 (Bug)                 | Spring Boot: custom application configuration properties of Map type are shown as errors if List is used as map value |
| TypeScript                        |   |
| WEB-13904 (Bug)                   | Typescript: assigning "this" to another variable breaks typing.   |
| WEB-15090 (Exception )            | TypeScript Compiler: AssertionError on project dispose  |
| Unit Testing. JUnit               |   |
| IDEA-136817 (Bug)                 | IU 2285.5 - IDEA junit runner fails with nullpointer  |
| User Interface                    |   |
| IDEA-136669 (Usability Problem)   | Select/deselect all methods for test  |
| IDEA-135970 (Bug)                 | JDK9 still not working  |
| IDEA-109618 (Bug)                 | File chooser doesn't show directories matched by "Ignored files and folders" patterns                                 |
| User Interface.Darcula            |   |
| IDEA-100249 (Usability Problem)   | Darcula: default attributes for Javadoc   |
| Version Control. Git              |   |
| IDEA-116852 (Feature )            | Implement filtering (speed search) in "VCS   Git   Compare with branch..."  |
| IDEA-78347 (Usability Problem)    | Option to use --full-history in file history  |
| Version Control. Log              |   |
| IDEA-118190 (Performance Problem) | VCS Log: Select All in a large repository freezes the UI forever  |
| Version Control. Perforce         |   |
| IDEA-135398 (Bug)                 | Can't add filenames containing the ellipsis wildcard (...) error on attempt to refresh changes                        |
| Version Control. Subversion       |   |
| IDEA-134859 (Exception)           | IAE at com.intellij.execution.process.BaseOSProcessHandler\$SimpleOutputReader.<init>                                 |
