

# IntelliJ IDEA 11 116.32 Release Notes

No subsystem	
<a href="#">IDEA-54256</a> (Feature)	"Go to setting" action
<a href="#">IDEA-63866</a> (Usability Problem)	VCS messages window usability problem
<a href="#">IDEA-82123</a> (Cosmetics)	"Run with coverage: <configuration>" would read better as "Run '<configuration>' with coverage"
<a href="#">IDEA-71258</a> (Cosmetics)	Tab settings should not be disabled if "None" is chosen as the tab placement
<a href="#">IDEA-82009</a> (Bug)	{0} appears in the intention name
<a href="#">IDEA-81958</a> (Bug)	Compile server: Make after package rename doesn't remove old classes
<a href="#">IDEA-82035</a> (Bug)	IDEA holding on to memory for too long? Possible leak?
<a href="#">IDEA-82038</a> (Bug)	Run/Debug Configurations: ClassCastException on attempt to open 'unknown' run configuration
<a href="#">IDEA-81301</a> (Bug)	Flex: when merging compiler config files, remove duplicate options
Android	
<a href="#">IDEA-80598</a> (Bug)	Android: remove Logcat from Debugger
<a href="#">IDEA-79737</a> (Bug)	Library Android project constantly marks gen/ folder as a source folder
<a href="#">IDEA-81782</a> (Bug)	Some text (tags) missing in inspection results
<a href="#">IDEA-74391</a> (Bug)	Android: "New resource file" action doesn't allow to create property animation in res/animator directory
Code Analysis. Duplicates	
<a href="#">IDEA-82049</a> (Bug)	Code wrongly marked as duplicated
Code Analysis. Inspection	
<a href="#">IDEA-22436</a> (Feature)	Warn about usage of bitwise operators
Database	
<a href="#">IDEA-73744</a> (Bug)	Parameters in Queries in database console not working
<a href="#">IDEA-79111</a> (Bug)	java.lang.ArrayIndexOutOfBoundsException: 2 when refreshing tables
<a href="#">IDEA-81621</a> (Bug)	Wrong error reportings in DB2 dialect
<a href="#">IDEA-82178</a> (Bug)	Error message on successful connection to DB2 database
Editor. Code Completion	
<a href="#">IDEA-81966</a> (Bug)	Accepting completion variant for a generic type with < inserts duplicate angle brackets
<a href="#">IDEA-82111</a> (Bug)	Cannot use autocompletion with mouse

Editor. Editing Text	
IDEA-82024 (Feature)	native2ascii: make it possible to manage case of unicode literals used during the processing
IDEA-82131 (Exception)	Editing UIBinder templates with inline css throws huge number of NullPointerExceptions
Editor. Error Highlighting	
IDEA-82003 (Bug)	Redundant type case is not highlighted in assignment?
File System	
IDEA-82089 (Usability Problem)	Attach sources menu no longer goes straight to the directory where jar file exists
Find, Replace, Find Usages	
IDEA-82075 (Usability Problem)	Selection vanishes on typing in Replace field ... when I want to Replace in Selection
IDEA-82068 (Bug)	Find: Don't set selection to the whole fold region that is expanded during navigation to the match
Flex	
IDEA-81920 (Feature)	import from FlashBuilder: map folders where resource bundles are stored to src paths
IDEA-78816 (Usability Problem)	Move 'Edit validation options' down in quickfix list
IDEA-59180 (Usability Problem)	AIR application descriptor problem when importing from Flash Builder
IDEA-81447 (Usability Problem)	don't show map (object or dictionary) structure in file structure
IDEA-82101 (Usability Problem)	Flex, desktop packaging: if no pck file name is set in build configuration, use some default name for packaging
IDEA-81808 (Task)	?????
IDEA-81812 (Bug)	Flex SDK name is rendered incorrectly in code completion right-hand-side text
IDEA-81816 (Bug)	No way to create AIR/AIR mobile package in IDEA 11.1 EAP
IDEA-81818 (Bug)	?????
IDEA-81710 (Bug)	'Included' linkage type must make dependency transitive.
IDEA-82157 (Bug)	Flex, air packaging: if the single file is chosen for packaging, set its path relative to src root, not to directory it resides in
IDEA-82099 (Bug)	Flex, Package Air application: packaging fails for desktop unsigned package because of invalid file name
IDEA-82026 (Bug)	Flex UI Designer: Error: Cannot add [object DocumentFactory] to [object DocumentFactory],[object DocumentFactory]
IDEA-81644 (Bug)	Flex Project Structure, SDKs: 'Find usages' should show SDK usages
IDEA-82073 (Bug)	accessing an attribute named "default" in XML leads to an unnecessary warning in Actionscript editing
IDEA-82177 (Exception)	Flex Project Structure: IllegalArgumentException on pressing OK in Add Dependency dialog if nothing was selected

Groovy/Grails	
IDEA-82171 (Feature)	'Enable Groovy hot-swap' debugger setting
IDEA-68415 (Feature)	Grails Console Functionality
IDEA-82161 (Bug)	Groovy: IDEA does not compete 'instanceof' keyword inside 'while'
IDEA-82044 (Bug)	Groovy debugger doesn't show variables clearly visible in the current scope
IDEA-81763 (Exception)	Groovy: NPE at GroovyRunnerUtil.getRunningClass() on creating a new Run/Debug Configuration
IDE Configuration	
IDEA-82151 (Usability Problem)	Colors and fonts configurables: use case-insensitive sorting
J2EE.App Servers.Generic	
IDEA-81731 (Bug)	IDEA blocks while tc server is starting
JSP	
IDEA-72167 (Bug)	Introduce variable on JSP page no longer allows entry of variable name
JavaScript	
IDEA-76216 (Feature)	More intelligent jsQualifiedClassName() and jsClassName() functions in live templates
IDEA-82069 (Cosmetics )	A dialog with one option should not be called a wizard
IDEA-62438 (Bug)	Good JSON is red when injected
IDEA-79414 (Bug)	IllegalStateException at JSFormatUtil.formatClass() on Refactor/Rename ActionScript class from illegal name
IDEA-82051 (Bug)	[Too much/Wrong order] JavaScript suggestions when using fluent builder pattern
Maven	
IDEA-81925 (Feature)	Read source and target language level from maven properties
IDEA-53165 (Feature)	Nice to have code highlight in groovy plugin source for maven
IDEA-73134 (Bug)	Maven dependencies in webapps may override each other due to naming scheme
Play! framework	
IDEA-80162 (Feature)	Support for Play! custom tags in subfolders
IDEA-78789 (Bug)	Play framework support: custom tag rename should be performed correctly - closing tag should be updated
Project Configuration	
IDEA-82167 (Bug)	Project Structure: src and test roots should be colored accordingly
Refactoring	
IDEA-82084 (Bug)	Remember my choice "Initialize in" for Introduce field in-place refactoring
IDEA-82127 (Bug)	Strange dialog title

IDEA-82103 (Bug)	Move Method breaks code
SQL	
IDEA-68050 (Usability Problem)	SQL: code completion does not suggest schema/database name in new table creation statement
IDEA-72900 (Bug)	SQL Console results do not display / Table Editor does not display
IDEA-45765 (Bug)	SQLite: NOT unary operator within binary expression is red
IDEA-74537 (Bug)	SQL: SQLite: PRAGMA with value is red
IDEA-74532 (Bug)	SQL: SQLite: REFERENCES without columns is red
IDEA-82054 (Bug)	"Data Sources" cannot refresh tables
IDEA-45943 (Bug)	SQLite: back slash is processed as escape character by default
IDEA-45461 (Bug)	MySQL: ROW constructor is not resolved
Spring	
IDEA-82012 (Bug)	Spring validation seems broken in 114.243
IDEA-81965 (Bug)	Spring MVC: don't detect fileset in case of package/class using as dispatcher servlet contextConfigLocation if AnnotationConfigWebApplicationContext isn't set as contextClass
IDEA-81913 (Bug)	Autowiring that works in 10.5.2 is broken in 11.0.2
IDEA-81962 (Bug)	Spring MVC: correctly process dispatcher servlet configuration - set xml config should be autodetected
IDEA-81886 (Bug)	Context configuration locations still not recognized for AnnotationConfigWebApplicationContext
IDEA-81885 (Bug)	Spring Beans Usage not Properly Recognized with Annotation Based Spring Configuration
IDEA-80699 (Bug)	Spring 3.1: xml config can be added to existing AnnotationConfigApplicationContext fileset by intention but appears there in red
IDEA-81963 (Exception)	INRE at com.intellij.util.indexing.FileBasedIndex.a
Task Management	
IDEA-55045 (Usability Problem)	When creating a new task with a changelist, add "track context" option
IDEA-58429 (Bug)	Task management: don't allow to create changelists for tasks in non-versioned projects
Template Languages. FreeMarker	
IDEA-81987 (Bug)	Freemarker macro definitions: unnecessary default parameter value warning
IDEA-81647 (Bug)	Can't recognize "/spring.ftl"
Unit Testing. JUnit	
IDEA-78962 (Feature)	JUnit test filters based on regular expressions
User Interface	
IDEA-78905 (Usability Problem)	Run configuration must be unreasonably wide
IDEA-82162 (Exception)	Popup owner must be showing exception

Version Control	
IDEA-25610 (Usability Problem)	"Move to another changelist" dialog: sort existing changelists alphabetically
IDEA-81569 (Performance Problem)	Poor performance when moving lines in web.xml (Alt-Shift-DOWN/UP) while the web.xml is displayed in change details (Changes tool window)
IDEA-82102 (Performance Problem)	POM-editor (and others) react slowly to keyboard input / slow response
Version Control. Perforce	
IDEA-82173 (Usability Problem)	Ability to switch to Perforce online mode in Changes View
IDEA-81954 (Bug)	Replace 'login silently' option with 'remember password' in Perforce settings
IDEA-82018 (Bug)	EAP build 114.243 Changes window shows P4 changelists with no files
IDEA-81504 (Bug)	Perforce: unversioned files appear as modified without checkout on going offline
Version Control. Subversion	
IDEA-81996 (Usability Problem)	Subversion: Diff dialog: display Properties tab for files with unchanged svn properties to avoid blinking
IDEA-82107 (Performance Problem)	SVN updates working copy format information in EDT
IDEA-82094 (Bug)	Subversion: ShareProject: incorrect working copy format is used despite the settings (1.7 always)
IDEA-82148 (Bug)	SVN: checkout info 1.6 format didn't worked
IDEA-82144 (Bug)	Cannot commit multiple SVN projects in one operation
IDEA-81994 (Bug)	Subversion: don't show 'too old command line client' notification on Subversion settings editing if 'use command line client' option is off
IDEA-66410 (Bug)	Subversion + SSH: alert when using private key auth in putty format
IDEA-82065 (Bug)	Subversion: incorrect Properties Diff is shown for renamed/moved files entries in Repositories view
Version Control. TFS	
IDEA-82154 (Bug)	TFS: MacOSX: Query WorkItems dialog that appears on searching work items in ConfigureCheckinParameters dialog can't be closed until Configure... one is closed
