

IDEA X 98.402 Release Notes

No subsystem	
IDEA-61437 (Feature)	GitHub functionality should also work on projects I collaborate on, but do not own myself
IDEA-58115 (Usability Problem)	No preselection of the only module when creating "Run Application" configuration
IDEA-61247 (Cosmetics)	UI glitch under GTK+L&F License agreement
IDEA-61245 (Cosmetics)	UI: background problem in Enter License Data dialog under GTK+ L&F
IDEA-61033 (Bug)	"Hang" with 100% CPU usage
WI-3907 (Bug)	PHP Surround With bugs
IDEA-57751 (Bug)	IDEA does not report error when private inner class is used as generics
IDEA-25084 (Bug)	Output path is incompatible ...
IDEA-58850 (Bug)	"Mapping failed" obfuscated due to swallowed IOException
IDEA-51364 (Bug)	Completion for enum literals inside annotation parameters suggests primitive types
IDEA-61453 (Bug)	Latest X EAP 98.382 can't run grails test-app anymore
IDEA-60835 (Bug)	Autocomplete too intrusive
IDEA-61285 (Bug)	"GIT Compare with latest repository version" fails
WI-3982 (Bug)	Git executable validation should not rely on filename
Code Analysis. Inspection	
IDEA-49078 (Usability Problem)	Inspections: on opening the settings dialog scroll to place selected node into the middle of the viewport
IDEA-57421 (Bug)	False positive "Declaration can have final modifier" inspection
IDEA-58085 (Bug)	Analyze / Inspect code results: applying quick fixes for spelling errors does not update the results tree
IDEA-20774 (Bug)	Inspection: Unused symbol
IDEA-56906 (Bug)	Suppress for fields annotated by 'FQN of annotation' has no effect
Code Formatting and Code Style	
IDEA-60781 (Bug)	After formatting cursor jumps from indented position to beginning of the line.
Code Navigation	
IDEA-49802 (Usability Problem)	Make scope selection in "Call Hierarchy" sticky
HTML Editing	
IDEA-49534 (Bug)	Completion for the img tag fails on '.'
IntelliJ Platform	
WI-3630 (Bug)	Formatting: big gap in php/html code mix
WI-3752 (Bug)	Settings: Code style settings not keeps between launches

JavaScript	
IDEA-61342 (Performance Problem)	Introduce parameter freezes for 15 seconds before showing dialog if function name is not unique
Flex Support	
IDEA-26695 (Feature)	flex: Ctrl-W in argument/parameter list: provide selection step that includes all arguments/parameters but excludes parentheses
IDEA-61504 (Feature)	flex: provide ctrl-w step that spans complete function parameter list, excluding parentheses
IDEA-61469 (Bug)	Inspection reports "unused Method"
IDEA-59924 (Bug)	flex: invalid completion variants after "this." and "super."
IDEA-60344 (Bug)	flex: addEventListener() handler signature inspection: "Change Signature" QuickFix simply removes parameter
IDEA-59593 (Bug)	Strange errors in mxml document
IDEA-61354 (Bug)	"i:" is automatically converted to "if", instead autocompletion would be expected.
IDEA-61292 (Bug)	ActionScript 3: method inlining broken
IDEA-61376 (Bug)	autocomplete in src attribute of Embed statement is broken
J2EE	
IDEA-50996 (Bug)	Artifacts: application.xml validation incorrectly verifies long paths in ejb/web URI
Project Configuration	
IDEA-56817 (Usability Problem)	Run configuration: When creating a new run configuration, after selecting the main class, the configuration name should be filled in automatically
IDEA-60019 (Bug)	Web Artifacts: module library shouldn't appear in WEB-INF/classes directory in the default artifact
IDEA-60906 (Bug)	Paths in module file(*.iml) are not relative to module dir
IDEA-26195 (Bug)	Add application server library: incorrect scope
IDEA-46476 (Bug)	Settings: Compiler / Exclude: changing Recursively option does not switch changes to "modified" state
IDEA-58047 (Bug)	Web facet resources packaging doesn't honor Excluded folders
IDEA-51910 (Bug)	Artifact: when different artifacts copy same named file to the same output, only one file is processed
IDEA-51220 (Bug)	Artifacts: falsely shown 'missing from artifact' if module library contains Jar directory
Unit Testing. JUnit	
IDEA-11707 (Feature)	Export Junit/Run Results/Statistics.
IDEA-61324 (Usability Problem)	JUnit statistics table: double-click should navigate to Test
IDEA-60642 (Bug)	Instantiating tests is 3x slower in IDEA X than in IDEA 9
UML	
IDEA-61540 (Cosmetics)	UML Configuration: please add 'human-friendly' names to providers
XML editing	

IDEA-61299 (Bug)	XSLT: completion of xsl:choose generates red code (no namespace prefix)
PHP lang	
WI-3107 (Feature)	Create directory if file name contains /
WI-4021 (Feature)	PHP: code after namespace declaration could be not indented
WI-3460 (Usability Problem)	PhpStorm always adds 2 extra tabs after ">"
WI-3998 (Cosmetics)	PHP: Introduce Refactorings: typo in warning tooltip
WI-3965 (Bug)	Unused local variable when using only \$name in foreach (\$_SERVER as \$name => \$value)
WI-3153 (Bug)	autofilling phpdocblock for missing parameter on wrong location
Platform/JavaScript	
WI-4074 (Bug)	Report syntax errors on C-like default argument parameters
J2EE.Tomcat	
IDEA-20077 (Performance Problem)	IDEA eats CPU when starting Tomcat run configuration
Refactoring	
IDEA-57427 (Bug)	Renaming of type parameter: Problem detected where none exists
IDEA-61074 (Bug)	Extract Function leaving behind code
Version Control. Git	
IDEA-51314 (Usability Problem)	GIT: Tagging should give some feedback
IDEA-59833 (Cosmetics)	"Add Snapshot" action name is non-intuitive (it should be better "Add to Git" or something)
IDEA-60369 (Bug)	misc.xml frequently changes because of ProjectKey GitRepositoryLocation
IDEA-59587 (Bug)	Git: after file is moved its status is 'added' until refresh
IDEA-59641 (Bug)	Git: externally committed file isn't unmarked until explicit refresh
IDEA-58707 (Exception)	AE at com.intellij.openapi.components.impl.ComponentManagerImpl.getComponent
Maven Integration	
IDEA-55271 (Bug)	Maven dependencies with scope provided not included in classpath for JSP validation
IDEA-61455 (Bug)	Maven: support LATEST and RELEASE versions for module dependencies
Editor. Intention Actions	
IDEA-24049 (Cosmetics)	introduce field does not allow object versions of primitives
J2EE.Web	
IDEA-53485 (Usability Problem)	Web/Ejb Facets: do not list test folders in source roots section
	Unknown
IDEA-20130 (Bug)	Settings search not working with slash character

Editor. Code Completion	
IDEA-48622 (Usability Problem)	Duplicated static fields in smart completion list
IDEA-58084 (Bug)	static method import via completion: reduce noise by collapsing overloaded matches from same containing class
IDEA-49848 (Bug)	JAVA: bad completion proposals
IDEA-61448 (Bug)	Mouse selection in code completion dialog is not recognized
IDEA-49333 (Bug)	Completion inserts extra brackets
GWT Support	
IDEA-57422 (Bug)	GWT ui:style field="foo" in ui.xml not related to @UiField "foo" in java class
IDEA-60627 (Bug)	GWT plug-in: conflict of dependencies
IDEA-25818 (Bug)	GWT i18n improvement (don't complain about duplicate methods)
IDEA-49921 (Bug)	issue with JSNI method detection with generics
IDEA-50276 (Bug)	Not every string literal is recognized as a css style name
Debugger	
IDEA-55168 (Bug)	Debugger does not release log files after debugging session is complete
Editor. Editing Text	
IDEA-58070 (Performance Problem)	Soft wrap: Improve soft wraps performance
IDEA-61275 (Bug)	Editor: the folded class comment should not be auto-expanded on class declaration editing
J2EE.App Servers.Generic	
IDEA-44958 (Bug)	Deployment configuration: with Use default = On custom VM parameters are still used
User Interface	
IDEA-61426 (Bug)	Spelling error - "Please entrer an abbreviation" in XML Zen Coding dialog
IDEA-61356 (Bug)	Running an application with opened editor: focus is inconsistent
Google App Engine	
IDEA-25489 (Performance Problem)	IDEA becomes very slow after stopping the GoogleAppEngine
Groovy/Grails	
IDEA-49738 (Feature)	Grails: support Gant features in .groovy files from scripts directories
IDEA-61031 (Bug)	Cannot collapse comments anymore
WI specific	
WI-3728 (Bug)	generated phpdoc for __construct has broken indent
