

# Leda 123.23 Release Notes

|  |  |
|--|--|
| No subsystem                                   |  |
| <a href="#">IDEA-95581</a> (Usability Problem) | Show project structure errors in the problems window   |
| <a href="#">IDEA-91871</a> (Bug)               | Support Oracle XMLTYPE in DB table views   |
| <a href="#">IDEA-95635</a> (Bug)               | Feedback: JDBC parameter inspection fails in more complicated case   |
| <a href="#">IDEA-95687</a> (Bug)               | Android lint inspection lazy loading   |
| <a href="#">IDEA-86873</a> (Bug)               | Out of memory exception when trying to manage file encodings   |
| <a href="#">IDEA-95509</a> (Bug)               | Welcome screen: recent projects paths use incorrect notion on Mac  |
| <a href="#">IDEA-94971</a> (Bug)               | Jetty deployment - Server is not connected. Press 'Deploy' to start deployment   |
| <a href="#">IDEA-95784</a> (Bug)               | Bad watermark font   |
| <a href="#">IDEA-91425</a> (Bug)               | Scope Pattern: # character in filenames triggers a syntax error  |
| Android  |  |
| <a href="#">IDEA-95292</a> (Bug)               | Android Designer: Properties table: impossible to select values from drop-down lists via keyboard  |
| <a href="#">IDEA-95211</a> (Bug)               | When creating a new project from existing sources, the res/raw directory is ignored.   |
| <a href="#">IDEA-95467</a> (Bug)               | Android: External Build: building of an artifact that depends on another artifact fails with "android-validator: Artifacts related to the same module have different ProGuard options" |
| <a href="#">IDEA-95571</a> (Bug)               | Android: External Build: "Generate unsigned APK" compiler option is ignored - unsigned APK is not generated  |
| <a href="#">IDEA-95389</a> (Bug)               | Android Device configuration doesn't validate Screen Height  |
| <a href="#">IDEA-94868</a> (Bug)               | Android: External Build: SDK is not found during compilation if module dependencies are stored in Eclipse format   |
| <a href="#">IDEA-91387</a> (Bug)               | Android UI Designer - Backspace deletes the value of properties  |
| AspectJ  |  |
| <a href="#">IDEA-95716</a> (Bug)               | compile with ajc fails: Internal error (Plugin: com.intellij.aspectj): null  |
| Code Analysis.<br>Inspection                   |  |
| <a href="#">IDEA-95738</a> (Bug)               | "Make method return type X" inspection duplicates the return statement in rare case  |
| <a href="#">IDEA-95735</a> (Bug)               | Incorrect "field may be final" inspection  |
| Code Coverage                                  |  |
| <a href="#">IDEA-89617</a> (Bug)               | Cannot run tests with coverage and -Djava.system.class.loader=com.intellij.util.lang.UrlClassLoader enabled  |
| <a href="#">IDEA-94816</a> (Bug)               | ClassNotFoundException during java instrumentation for code coverage   |
| Compiling<br>Project                           |  |
| <a href="#">IDEA-95615</a> (Bug)               | Cannot compile on AJC  |
| <a href="#">IDEA-94905</a> (Bug)               | External Build messes up artifact build  |

|                                  |  |
|----------------------------------|--|
| IDEA-93832 (Bug)                 | Changed sources not recompiled when using external build   |
| IDEA-95402 (Bug)                 | Problems tool window is not updated on changing module library dependencies                              |
| IDEA-95257 (Bug)                 | Annotation processor's resources are handled at compile different than with maven                        |
| IDEA-95599 (Bug)                 | Groovy compiler error  |
| IDEA-95473 (Exception )          | IC-122.813 cant work with recent JDK8 build (as the choosen project JDK)                                 |
| Cucumber JVM                     |  |
| IDEA-95239 (Bug)                 | Refactoring with cucumber and JUnit doesn't work on spell checking.                                      |
| Debugger                         |  |
| IDEA-95341 (Bug)                 | Switching tabs in Debug view changes location in console window  |
| Drools                           |  |
| IDEA-95488 (Exception )          | CCE at com.intellij.psi.impl.source.codeStyle.ReferenceAdjuster.getClassReferenceToShorten               |
| Editor. Editing Text             |  |
| IDEA-95675 (Bug)                 | Source Code Pro font displays '&' as a bunch of strange lines when used between quotes.                  |
| IDEA-94968 (Bug)                 | Idea hung  |
| IDEA-95460 (Exception )          | INRE through FileBasedIndexImpl.processFilesContainingAllKeys()  |
| Find, Replace, Find Usages       |  |
| IDEA-92172 (Bug)                 | Find in scope does not work as expected  |
| Flash_Flex                       |  |
| IDEA-95767 (Bug)                 | External build: Flash build configuration is not recompiled when dependency SWC file is changed          |
| IDEA-95701 (Bug)                 | Flex, Implement Interface intention: chosen parent class not reflected in code                           |
| IDEA-95401 (Exception )          | Flex, UML diagram: IllegalArgumentException on choosing New/MXML Component from diagram right-click menu |
| Grails                           |  |
| IDEA-95628 (Cosmetics)           | cannot resolve symbol in UrlMappings.groovy  |
| Groovy                           |  |
| IDEA-95630 (Performance Problem) | GrTypeDefinitionImpl#isDeprecated causes stub->ast switch  |
| IDEA-95790 (Bug)                 | Groovy inspection - Warning 'empty catch block' even if exception varibale name is ignored               |
| IDEA-95249 (Bug)                 | new WebView(contextMenuEnabled: false) in Groovy highlights 'false' as warning                           |
| IDEA-95550 (Bug)                 | Groovy: add throws clause to generated methods   |
| J2EE.JSF                         |  |

|                                |   |
|--------------------------------|---|
| IDEA-95596 (Bug)               | Implicit attribute "rendered" for JSF composite components not recognized   |
| Java. Code Completion          |   |
| IDEA-95710 (Bug)               | autocomplete is too aggressive when assigning array of primitive type to an Object  |
| Java. Error Highlighting       |   |
| IDEA-95691 (Bug)               | IDEA shows error in code that compiles. (Overloading var args)  |
| Java. Intention Actions        |   |
| IDEA-93017 (Bug)               | Implement interface method can't find a destination class   |
| Java. Refactoring              |   |
| IDEA-95696 (Bug)               | Extract method doesn't work if expression is under cursor but is not selected   |
| Maven                          |   |
| IDEA-95645 (Bug)               | specifying multiple goals in defaultGoal does not work  |
| Project Configuration          |   |
| IDEA-94057 (Bug)               | New Project Wizard: Create from Template: "Create source root" option is not needed for Grails and Griffon modules  |
| IDEA-95344 (Bug)               | Java Module created in existent project gets SDK different to project SDK   |
| IDEA-95399 (Bug)               | Web Artifact is built incorrectly after artifact configuration change and reverting back  |
| IDEA-94891 (Bug)               | Import Project: when selecting .gradle file as an import target, path to that file should be substituted to "Gradle project" field in "Import Project from Gradle" wizard |
| IDEA-94952 (Bug)               | Web artifact is built incorrectly after module rename   |
| IDEA-95474 (Exception )        | UnknownHostException: download.jetbrains.com at RemoteTemplatesFactory.createTemplates() on opening New Project/Module Wizard if there is no Internet connection          |
| Run   Debug configuration      |   |
| IDEA-95859 (Usability Problem) | Run Configurations: don't allow to add the run configuration as AnotherConfiguration to itself  |
| IDEA-64425 (Bug)               | Run configurations: Share = Yes for temporary and Apply does not update its appearance until dialog closing   |
| SQL                            |   |
| IDEA-90682 (Feature)           | Add sql intention for filling in columns in insert  |
| IDEA-48457 (Usability Problem) | SQL: the inspection for a view definition shows warning when table name is not resolved   |
| IDEA-76835 (Usability Problem) | SQL: SQLServer: TERTIARY_WEIGHTS() is yellow  |
| IDEA-79380 (Bug)               | SQL: SQLServer: "Unresolved reference" inspection reports warning for COUNT_BIG★  |

|                                |  |
|--------------------------------|--|
| IDEA-48856 (Bug)               | SQL: Oracle: type constructor expressions are parsed wrong   |
| IDEA-95621 (Exception )        | SQL: Throwable through SqlParser.parse() on deleting a value in INSERT ... VALUES clause             |
| Spring                         |  |
| IDEA-73639 (Bug)               | Spring 3.1 support: @Autowired Dependency generation: PsiInvalidElementAccessException               |
| UML                            |  |
| IDEA-67410 (Task)              | Map help buttons of the "create new members" dialogs   |
| IDEA-95698 (Bug)               | Building class diagram from inner class shouldn't include other inner classes                        |
| Unit Testing.<br>JUnit         |  |
| IDEA-95819 (Bug)               | Single test run does not show stacktrace from @BeforeClass and is not marked as failed               |
| IDEA-95469 (Bug)               | IDEA 12 no longer offers to open diff dialog when a JUnit test throws an org.junit.ComparisonFailure |
| User Interface                 |  |
| IDEA-95620 (Usability Problem) | The Welcome screen has no a close button   |
| IDEA-95878 (Cosmetics)         | Inappropriate tooltip for "Preview Usages" button in TODO  |
| IDEA-93647 (Bug)               | Error hint is not shown when refactoring is invoked with mouse                                       |
| IDEA-95268 (Bug)               | Welcome Screen: Create New Project From Existing Files action should be removed                      |
| IDEA-95785 (Bug)               | Remove stupid tooltips from welcome screen   |
| IDEA-94983 (Bug)               | Setting the tabs placement to None disables 'Window Editor Tabs Close'                               |
| IDEA-95413 (Bug)               | Show welcome screen on the same display where the last closed project window was                     |
| User<br>Interface.Darcula      |  |
| IDEA-95281 (Bug)               | Red color is too bright for the dark color scheme  |
| IDEA-95576 (Bug)               | UML diagrams look terrible under Darcula   |
| IDEA-95786 (Bug)               | Some links unreadable under Darcula  |
| Version Control.<br>Mercurial  |  |
| IDEA-68419 (Bug)               | Mercurial: file contents is not updated properly after UpdateTo... performing                        |
