

PhpStorm EAP 171.2613 Release Notes

Distribution packages	Bug	WI-34772	2017.1 Installer: 64-bit desktop shortcut on Windows was created with invalid symbols (wrong charset?)
PHP Completion	Bug	WI-26645	Auto-suggest with constants used in constructor breaks after a random, short delay.
PHP Inspections	Bug	WI-34748	Case sensitivity with Core classes leads to unused imports
PHP debug	Feature	WI-33585	User-defined constants: Provide an option to show/hide them ... or at least group them under dedicated/artificial node
PHP lang	Bug	WI-34314	False positive on "Default value for parameters" with ::class constant
	Bug	WI-34769	Namespace alias is case insensitive
PHP templates	Feature	WI-34628	Blade: support @component and @slot directive with nesting
Plugin: Deployment _ FTP..	Bug	WI-34796	Download from... in ProjectView always uses default server
Php Intentions	Feature	WI-34755	Inline add method/field fixes
Code Navigation	Bug	IDEA-165329	Can't copy class reference by hitting Ctrl+C in Navigate/Class list
Debugger	Usability	IDEA-156493	"Evaluate Expression" – underlined character conflicts with "Paste from History"
Docker	Feature	IDEA-153202	Docker plugin - select visible containers/images
Editor. Editing Text	Bug	IDEA-166581	Incorrect font rendering in vcs change preview (new hidpi)
	Bug	IDEA-166498	Incorrect border effect in editor with new hidpi
	Bug	IDEA-166059	Corrupted zero latency typing with the new hidpi
	Performance	IDEA-166747	Freeze after calling duplicate action repeatedly
IDE Configuration	Bug	IDEA-166362	Show warning notification concerning outdated boot java runtime
	Bug	IDEA-166807	IntelliJ does not recognize and deletes project shared file templates
	Bug	IDEA-166179	Font size is not preserved after updating to EAP build
	Usability	IDEA-166720	Please sort lines in Settings - Editor - General - Console - "Fold console lines that contains"
Plugin Support. API	Bug	IDEA-166007	Tolerate plugin.xml errors when actions aren't instanceof AnAction
Project Configuration	Feature	IDEA-156888	Simplify JDK setup for new projects
UML	Bug	IDEA-117020	Weird db UML diagram name in the recent files popup
User Interface	Bug	IDEA-166759	The cursor while over one ToolWindow sees another border toolwindow, located behind
	Usability	IDEA-153193	Tooltips for toolbars block clicks to buttons
DB Introspection	Bug	DBE-3863	Oracle Sources: long lines of procedures, packages, etc. are truncated
Data Views	Bug	DBE-3537	Error when trying to use the table editor in DB2
No subsystem	Feature	WEB-23847	Add support for command line parameters for react-native-cli
Dart	Feature	WEB-20645	Debug "Dart Test" executed by the Dart VM
	Usability	WEB-18687	Function conversion is difficult due to brace matching
Debugger	Feature	WEB-23955	debugging react native always attempts to run react-native run-android
	Bug	WEB-25012	Node 7: React native debugger does not work

	Bug	WEB-25061	Node 7: Stopping at breakpoint opens a new read-only editor (Windows)
JavaScript	Feature	WEB-22120	Missing parameters when generating abstract method bodies
	Feature	WEB-23511	Fix action 'Split into declaration and initialization (and move to scope start)' for destructuring
	Bug	WEB-17651	Split into multiple declarations removes comment
	Bug	WEB-25041	Exception when extracting variable used in decorator
	Bug	WEB-25033	Troubles with JS libraries in multimodule project
JavaScript. Formatter	Bug	WEB-24786	Wrong indent after 'Extract++'
JavaScript. Frameworks	Bug	WEB-24095	Add option to pass environment variable in React native configuration
Node.js	Bug	WEB-24956	Package.json: Ctrl+Mouse hover doesn't show description for scoped npm packages
TypeScript	Bug	WEB-24711	Fix 'Split into multiple declarations' for enum
