

Leda 122.746 Release Notes

No subsystem	
IDEA-93965 (Feature)	Cucumber for Groovy: Find Step Usages doesn't work for Scenario Outline steps
IDEA-94265 (Feature)	cucumber: cucumber run configuration editor should support some glues
IDEA-94268 (Usability Problem)	groovy cucumber: create more user friendly new step definition
IDEA-94025 (Bug)	Please warn user about unknown nature when importing from eclipse
IDEA-94205 (Bug)	Forms fail to compile with the new external mode
IDEA-94295 (Bug)	External build: Eclipse integration: Make fails if non-java project (without .classpath file) is imported
IDEA-94076 (Bug)	Eclipse integration: content of library archive file as linked resource is not resolved
IDEA-93821 (Bug)	If we change database name in database connection it is not updated
IDEA-94272 (Bug)	"Attach sources..." notification appends one file several times in library sources
IDEA-26738 (Bug)	Unchecked warning generated for valid use of generics in hamcrest Matchers#hasSize
IDEA-59290 (Bug)	False "unchecked" warning - should be OK
IDEA-93917 (Bug)	Can't use Generate Getter and Setter
IDEA-61449 (Bug)	No warning for unchecked call
IDEA-94173 (Bug)	Leda maven build errors
IDEA-94258 (Bug)	Darcula comboboxes are too high
IDEA-94259 (Bug)	Darcula white lines in debugger panels
IDEA-93959 (Bug)	Cucumber for Java: running java and groovy tests as "Cucumber java" tests fails with "CucumberException: Couldn't load formatter class: CucumberJvmSMFormatter"
IDEA-94324 (Bug)	preview panels of find usage tab don't keep their size after a tab change
IDEA-90456 (Bug)	'Go to custom region' list shows a maximum of 8 lines
IDEA-94011 (Bug)	Good code is red - generics
IDEA-94325 (Exception)	Unable to create run configuration
Android	
IDEA-85676 (Feature)	Make Android LogCat a tab-able view on Debug Panel
IDEA-85457 (Usability Problem)	Android. Add option to automatically show logcat window on run
IDEA-93039 (Usability Problem)	Better diagnostics in Android designer when the device is not specified
IDEA-93042 (Bug)	Can't access device manager from "Edit Profiles" when I don't have any devices configured
IDEA-70914 (Bug)	getBoolean vs parseBoolean
IDEA-94256 (Bug)	Doesn't compile aidl files which have no content
IDEA-94147 (Bug)	EAP 12 Android Image problems
Code Analysis. Inspection	
IDEA-60267 (Feature)	Quickfix to change primitive type used as type parameter to corresponding boxed type

IDEA-93796 (Feature)	RFE: Import inspection results
IDEA-72635 (Feature)	"Log statement not guarded by log condition" inspection should support subclasses of the Logger class
IDEA-93838 (Bug)	Inspection "new Boolean()"
IDEA-93289 (Bug)	"surround with try-with-resources" should surround all usages of the resource
IDEA-70370 (Bug)	Overloaded varargs precompilation method highlight
IDEA-94244 (Bug)	error when running inspections offline
IDEA-94068 (Bug)	False negative on boolean condition always-false inspection.
IDEA-93694 (Bug)	"Fully qualified name unnecessary" inspection messes up with Android resources
IDEA-60166 (Bug)	Generics: misleading warnings (Part 2)
Code Formatting and Code Style	
IDEA-82963 (Bug)	code style format setting bug
Code Navigation	
IDEA-94300 (Bug)	Sources not found for package-info in a maven dependency with sources and docs downloaded through Support in Maven Project Tool Window
Compiling Project	
IDEA-81817 (Bug)	Case-change of package is not propagated to output directory tree, leading to compilation problems
IDEA-94238 (Bug)	Modules are placed in multiple annotation processor configurations
IDEA-94072 (Bug)	External build: Eclipse integration: Make doesn't create files in changed compile output path
IDEA-93853 (Bug)	Make: no error if parameterized type capture bound is incompatible to declared bound
IDEA-94065 (Bug)	External Compiler Not Properly Handling Extra Web Descriptors
IDEA-93295 (Bug)	Make: removing reference to supertype from subtype does not make client code re-compiled
Database	
IDEA-94024 (Usability Problem)	Database Console output window does not show up until the query is finished
IDEA-93302 (Performance Problem)	Database Console: more efficient 'Save All to File'
Diff_Merge	
IDEA-94002 (Cosmetics)	Inline Diff: inaccurate markers for additions and deletions
IDEA-58717 (Cosmetics)	Diff window: cosmetics
IDEA-88946 (Cosmetics)	Merge Tool: inaccurate merge markers in case of new line at the end of conflicted files
IDEA-67658 (Bug)	Show diff for new file: incorrect visualizing
Editor. Editing Text	
IDEA-60478 (Feature)	provide table view for csv files (same view as used by database/sql support)
IDEA-93466 (Bug)	Cannot always jump to matching bracket

Find, Replace, Find Usages	
IDEA-76974 (Bug)	Invisible blocks prevent clicks on text
IDEA-70470 (Bug)	"Highlight usages of element at caret" setting doesn't work nicely with static imports
IDEA-70469 (Bug)	"Highlight Usages in File" doesn't work too nicely with static imports
Flash_Flex	
IDEA-94082 (Bug)	AS3: Cannot create inline object with dynamic keys
IDEA-94351 (Bug)	Flex external build: compilation fails if output folder doesn't exist and 'use HTML wrapper' is on
IDEA-63471 (Bug)	Incorrect resolve in case of package and class with the same name
IDEA-94083 (Bug)	Arrangement of ActionScript code with metatags misplaces metatags and breaks code
IDEA-90997 (Bug)	External javac compiler failing with java.lang.ClassNotFoundException: org.apache.sanselan.ImageReadException
GUI Designer	
IDEA-90210 (Bug)	Palette Tool window: selection of components groups on Mac OS is invisible
Grails	
IDEA-94319 (Bug)	Grails 2.: mock test methods are not resolved
IDEA-94124 (Bug)	Failed to synchronize Grails settings if grails 2.0.3 used with maven
Groovy	
IDEA-93662 (Feature)	Groovy: complete type in tuple declarations
IDEA-93884 (Feature)	Groovy: Support different highlighting for static and static final fields
IDEA-94228 (Bug)	DGM methods are duplicated in completion
IDEA-93954 (Bug)	Groovy parser: \n is allowed before colon in ternary operator
IDEA-93644 (Bug)	Convert to Java: don't wrap binary or in DGM.asBoolean
IDEA-93643 (Bug)	Convert to Java: don't add unnecessary explicit qualifier for static methods
IDEA-93640 (Bug)	Groovy: 'Collapse if' does not work
IDEA-93877 (Bug)	Convert to java: correct processing class references
IDEA-93665 (Bug)	Groovy: 'invert if condition' works incorrectly
IDEA-93666 (Bug)	Groovy: intention 'remove return keyword' should not be available in certain places
IDEA-94314 (Bug)	Groovy: semicolon may be body of control statements
IDEA-93880 (Bug)	Convert to java: correct processing of implicit coercion in return
IDEA-94086 (Bug)	Cucumber for Groovy: cannot create new step file
HTML	
IDEA-25523 (Bug)	IDEA parse error "statement expected" while parsed <script> block guarded with html comment <!-- -->
IDE Configuration	
IDEA-52046 (Feature)	run/debug menu folder structure

Java. Error Highlighting	
IDEA-94090 (Bug)	Annotations on enum entries. Code red - but it valid
IDEA-94322 (Bug)	Improper 'Replace StringBuilder with String' quickfix
Java. Intention Actions	
IDEA-53337 (Bug)	"Generate constructor" for Generics inheritors produces uncompileable code if type parameter name equals to some class from java.lang package
Java. Refactoring	
IDEA-73501 (Bug)	Inline variable breaks code (needs cast)
IDEA-80695 (Bug)	Incorrect refactoring
IDEA-94129 (Bug)	Push Down unnecessarily deletes @Override annotation when a method being pushed down is implemented in interface and exists in subclass
IDEA-42987 (Bug)	Refactor / Rename class: references in the same file, but different class to class from another package are not updated
IDEA-72738 (Bug)	'Make static' refactoring on inner class breaks code (uses field before declaration)
IDEA-94084 (Bug)	"Find Usages" is confused by certain overloads of generic methods who share type parameter names
JavaScript	
IDEA-84515 (Task)	?????
IDEA-93944 (Bug)	javascript - "declare" is not allowed as an identifier in strict mode?
IDEA-86746 (Bug)	JS: 'Convert to named function' intention applied to arrow function breaks the code
IDEA-86607 (Bug)	JS: Introduce Variable refactoring doesn't work correctly for arrow functions
IDEA-93825 (Bug)	Unexpected error "Must be lvalue" in script tag
IDEA-93911 (Bug)	"Duplicated jQuery selector" warning in jQuery HTML constructors
IDEA-87220 (Exception)	JS: NPE on applying 'convert to named function' intention to arrow function
Maven	
IDEA-93979 (Usability Problem)	Cannot add multiple managed dependencies
IDEA-94048 (Bug)	Maven run configuration - profiles list gets randomly re-ordered after closing and opening project
IDEA-93990 (Bug)	Maven operation "exclude dependency" does not work properly with Perforce
IDEA-94098 (Bug)	Maven3: with 'use maven3 for project importing' option set the sources generation doesn't work
IDEA-94246 (Bug)	When importing maven project, dependencies with packaging jboss-sar are lost
IDEA-93894 (Bug)	<code>project.parent.basedir</code> can not be resolved as correct path
Packaging and Installation	
IDEA-66316 (Feature)	exe4j generated executables in IDEA based products should use unique environment variables for the JDK instead of the default IDEA_JDK

IDEA-65264 (Usability Problem)	idea64.exe should look for a different environment variable than idea.exe
Project Configuration	
IDEA-94042 (Bug)	Create Project From Template: the SDK set as default one is not applied while creating projects from template
SQL	
IDEA-94138 (Bug)	IDEA marks good sql code in the stored procedure as wrong (PostgreSQL)
IDEA-94071 (Bug)	PostgreSQL, extract epoch + values statement, good code is red
Tapestry	
IDEA-25877 (Bug)	IDEA should not report warning "private field is never assigned" for injected fields
Template Languages. Velocity	
IDEA-93925 (Feature)	Velocity Directives - Quick Help Support
IDEA-93922 (Bug)	Velocity Multiline Comment expand is produces an invalid comment.
Unit Testing. JUnit	
IDEA-93789 (Bug)	Unable to run Groovy JUnit Tests
Unit Testing. TestNG	
IDEA-94299 (Usability Problem)	Run Configuration is not updated after package rename
User Interface	
IDEA-93991 (Feature)	Run Configurations: Move up/Move down actions could work for folders
IDEA-62296 (Feature)	Add option to run unit tests from module context menu
IDEA-93984 (Usability Problem)	Run Configurations: with folder selected Add New Configuration shows popup without proper preselection
IDEA-93987 (Usability Problem)	Run Configurations: names of new configurations created in different folders are not unique by default
IDEA-93978 (Usability Problem)	Run Configurations: with all configurations in folders impossible to drag one out of folder
IDEA-93993 (Bug)	Run Configurations: dragging folder down shows drop location between target folder and its subnodes
Version Control. Git	
IDEA-93487 (Bug)	Merge panels are swapped when unshelving during Git Update Project produces a conflict
IDEA-93961 (Bug)	Git log: "Refresh" buttons activates branches display always
IDEA-94075 (Bug)	Revert change list action suggest to delete null

Version Control. Mercurial	
IDEA-93648 (Feature)	Mercurial annotations: clicking on annotate should show the "Affected Paths" dialog
IDEA-93391 (Usability Problem)	incoming / outgoing changesets indicator gone
IDEA-94018 (Bug)	hg4idea: java.lang.IndexOutOfBoundsException when refreshing Repository tab
Version Control. Perforce	
IDEA-93291 (Bug)	Perforce: after invalid P4PORT entry correcting in p4.config IDEA still uses the old host though TestConnection works properly
Version Control. Subversion	
IDEA-94220 (Cosmetics)	VCS status messages suffering from slightly poor grammar
IDEA-94180 (Bug)	Edit Source from Changes Repository Details - under Subversion - does not work (sometimes?) for added files
IDEA-92938 (Bug)	Subversion: Undo for committed package move doesn't remove the packages
IDEA-92941 (Bug)	Subversion: duplicated classes are created on Undo added file move
IDEA-92587 (Bug)	Subversion: Endless cleanup working copies on creating project from just checked out sources
IDEA-93910 (Bug)	CRITICAL: hanging background tasks blocks many functionalities
Version Control. TFS	
IDEA-82498 (Feature)	Support TFS 11 (aka TFS 2012)
IDEA-94108 (Bug)	TFS: Compare with: fail to load content for revisions before file move/rename
IDEA-90755 (Bug)	TFS History: Unicode characters are incorrectly displayed
IDEA-94110 (Bug)	TFS: committed folder is marked as unversioned until explicit refresh when committing file move to it
