

Leda 122.327 Release Notes

No subsystem	
IDEA-89915 (Feature)	Notification on stderr output in Run panel / Console
IDEA-91177 (Usability Problem)	There are no keyboard shortcuts for switching between panes and to apply diffs in differences viewer
IDEA-90985 (Cosmetics)	Make it more explicit in the tip that braces are added by Complete Statement action
IDEA-90638 (Bug)	idea hangs up on lookup
IDEA-90636 (Bug)	Overridden/implemented markers are not rendered for methods of library classes without sources
IDEA-90968 (Bug)	Ambiguous mnemonic in the "Navigate" menu
IDEA-90945 (Bug)	Display balloon notifications - option does not persist after restart
IDEA-90810 (Bug)	Please add the word 'reservable' to spellchecker
IDEA-90525 (Bug)	OOM when opening a GWT-based project
IDEA-89780 (Bug)	"Next Bookmark" doesn't work in files from excluded directories
IDEA-90987 (Bug)	Exception on addition of the new application server
IDEA-90117 (Bug)	No Rerun possible in Run Window for External Tool
IDEA-90868 (Exception)	CME at com.intellij.openapi.actionSystem.impl.ActionToolbarImpl.addNotify
IDEA-90957 (Exception)	JDK 1.8: IOE at PsiJavaParserFacadeImpl.createParameterFromText() on 'Create a Method From Usage' quick fix if the method has a lambda argument
CSS	
IDEA-90143 (Exception)	Throwable on Refactor/Rename CSS property
Code Analysis. Inspection	
IDEA-91079 (Feature)	If statement could be replaced with conditional expression shall have an option to be ignored when a nested conditional expression exists.
IDEA-90688 (Feature)	Spell checker shall ignore @SuppressWarning and //noinspection String literals
IDEA-64875 (Usability Problem)	"Constant conditions and exceptions" should eliminate false positives by analyzing static final constants
IDEA-91280 (Bug)	Infer not-nullity from numeric comparisons of values assigned based on that not-nullity
IDEA-90736 (Bug)	Remove 'try-finally' block breaks code when using try-with-resources
IDEA-91016 (Bug)	JDK 1.8: when lambda type is incompatible with the declared type, quick fix incorrectly suggests to change type
IDEA-88766 (Bug)	Nullable: include final fields into data flow
IDEA-90863 (Bug)	JDK 1.8: "Anonymous type can be replaced with lambda" inspection should check declaration type of anonymous class
IDEA-91055 (Bug)	JDK 1.8: "Anonymous class can be replaced with lambda" inspection should not report anonymous classes with "this" reference
IDEA-31555 (Bug)	Wrong warning: method invocation may produce a NullPointerException
IDEA-90964 (Bug)	JDK 1.8: "Replace with lambda" quick fix doesn't handle recursions
IDEA-90613 (Bug)	Invalid @Nullable processing

IDEA-91184 (Bug)	JDK 1.8: "Replace with one line expression" intention could be suggested for lambdas with void return type
IDEA-89964 (Bug)	Constant conditions & exceptions inspection is incorrect with instance checks in loops
IDEA-91007 (Bug)	Refused bequest shall ignore java.lang.Object methods which are overridden.
IDEA-91003 (Bug)	Serializable/Deserializable class in secure context wrongly prompts for generic parameters
IDEA-89654 (Bug)	Incorrect control flow warning with @Nullable
Code Formatting and Code Style	
IDEA-90860 (Usability Problem)	Reformat Code breaks Copyright/Header
IDEA-90890 (Bug)	Some code formatting preferences ignored sometimes
IDEA-90553 (Bug)	Reformatting does not work for injected JSON
IDEA-88640 (Bug)	Reformat Code: "Only text changed to VCS" option is not taken into account when "Show Reformat Code dialog" is off
Compiling Project	
IDEA-90875 (Bug)	"Cyclic inference" error for legitimate lambda code
Database	
IDEA-90952 (Usability Problem)	DB console: copying data ignores Data Export settings (by default)
IDEA-91142 (Usability Problem)	With opened database console main IDE window title is not readable
IDEA-90996 (Usability Problem)	Database Console Properties: make Result set page size field bigger
IDEA-91029 (Bug)	Database console: action shortcuts are missing in reopened console
IDEA-91023 (Exception)	Database console: typing in console for the same data source in different projects causes Throwable at LowLevelSearchUtil.processElementsContainingWordInElement()
Diff_Merge	
IDEA-76498 (Cosmetics)	Compare Directories: on removing the last difference the bottom panel still shows the file content
IDEA-69715 (Cosmetics)	Diff window: label rendering antialiasing  bug
IDEA-89426 (Cosmetics)	Strange font aliasing at the bottom of diff panel
Editor. Editing Text	
IDEA-90637 (Bug)	Completion: 'No suggestions' popup appears in the incorrect place
IDEA-90499 (Bug)	Ctrl+Backspace deletes delimiters instead of whitespaces only and leads to SyntaxErrors in code
IDEA-89874 (Bug)	Folding: Impossible to unfold a region by clicking to {...} if the caret was in that region before folding and if Soft Wraps are ON
IDEA-90853 (Bug)	console and server log windows not responding to font size zooming
File System	
IDEA-91057 (Bug)	UI does not respond on second project indexing

IDEA-90319 (Bug)	Diff reports "Contents are identical" when changes made externally while different project was opened
GWT	
IDEA-91118 (Bug)	Macros dosent work in Run Configuration (especially in GWT)
Grails	
IDEA-90760 (Feature)	Handle Grails taglib documentation format for documentation view and autocomplete
Groovy	
IDEA-72885 (Feature)	Completion of methods taking multi-argument closures, like <code>eachWithIndex{}</code> or <code>inject(){}</code> , should add paramters to closure
IDEA-91164 (Feature)	Should have an Intention to strongly type groovy variable
IDEA-91263 (Bug)	Incorrect type of result of ' ' operator
IDEA-91257 (Bug)	Parsing and highlighting of extends list in Groovy
IDEA-90781 (Bug)	StackOverflow while copy/cut-paste in Groovy file
IDEA-90724 (Bug)	'Safe Delete' refactoring of java method parameter from doesn't delete it from groovy calls
IDE Configuration	
IDEA-89926 (Feature)	Assign keyboard shortcut to "Play Saved Macros" action
J2EE	
IDEA-91313 (Usability Problem)	Kill app server process on close
Java. Code Completion	
IDEA-90944 (Bug)	JDK 1.8: Smart Code Completion for a lambda return value suggests nothing if the lambda body is not enclosed in braces (no explicit "return")
IDEA-90941 (Bug)	JDK 1.8: Smart Code Completion after 'return' in a lambda can't infer generic return type
IDEA-90294 (Bug)	Don't use substring match in word completion
IDEA-90606 (Bug)	Smart completion misses exception from try-with-resources
IDEA-90765 (Bug)	When a completion popup is visible in Python code, typing . does not popup next completion
IDEA-91083 (Bug)	JDK 1.8: Code Completion in one line expression lambda inserts unnecessary semicolon in some cases
IDEA-90900 (Bug)	Complete statement works incorrectly in some simple cases
Java. Error Highlighting	
IDEA-90812 (Bug)	JDK 1.8: Good code is red: lambda type is not inferred inside elvis operator
IDEA-91071 (Bug)	Bad code green: anonymous constructor
IDEA-91140 (Bug)	JDK 1.8: lambdas not enclosed in parentheses in conditional operator are erroneously highlighted with "Lambda expression not expected here"
IDEA-90998 (Bug)	JDK 1.8: recursive lambda call should be error-highlighted

Java. Intention Actions	
IDEA-90867 (Bug)	JDK 1.8: "Replace lambda with anonymous class" should insert import rather than fully qualified interface name
IDEA-91005 (Bug)	JDK 1.8: "Expand lambda expression body" intention is named "default" in Settings Intentions
IDEA-90854 (Bug)	JDK 1.8: "Replace lambda with anonymous class" doesn't change "super" references
Java. Refactoring	
IDEA-90879 (Bug)	JDK 1.8: Inline Refactoring should handle lambdas properly
IDEA-91122 (Bug)	JDK 1.8: Extract Variable Refactoring applied to one-line-expression lambda code that references lambda parameters adds new variable to outer scope
IDEA-91126 (Bug)	JDK 1.8: Inline a void method to an one-line-expression lambda inlines the method to wrong place
IDEA-91061 (Bug)	JDK 1.8: Inline Refactoring doesn't allow to inline local variables to lambdas
IDEA-91063 (Bug)	Renaming a Java Enum constructor via rename refactoring renames all the elements of that enum
IDEA-91065 (Bug)	JDK 1.8: Wrap Method Return Value Refactoring produced invalid code if return value is a lambda with return statement
IDEA-90950 (Bug)	JDK 1.8: Inline Refactoring is available for a lambda parameter, but does nothing
IDEA-91076 (Bug)	JDK 1.8: Extract Method Refactoring doesn't create parameters if applied to a lambda
IDEA-91087 (Bug)	Process Duplicates after Extract Method works incorrectly on anonymous class with non-void method
IDEA-91150 (Bug)	JDK 1.8: Inline Field Refactoring applied to a lambda field doesn't insert cast
JavaScript	
IDEA-90334 (Feature)	Support '(optional)' parameter declaration option of JSDuck
IDEA-89497 (Feature)	Make JavaScript quickfix to change type in JSDoc annotation
JavaScript. Debugger	
IDEA-91258 (Bug)	JS Debug: chrome: starts with wrong profile directory and wrong arguments
Maven	
IDEA-90784 (Bug)	IDEA hungs when pressing "run maven target" on tasks configuration
Packaging and Installation	
IDEA-81212 (Feature)	Include idea64.exe in CE distribution
IDEA-64072 (Bug)	10.0 install didn't properly update registry, can't associate .java files with idea.exe
Project Configuration	
IDEA-79059 (Feature)	Project structure: show library scope in usages popup
SQL	
IDEA-90951 (Exception)	DbUtil.getElementQualifiedName() NPE

Spring	
IDEA-66857 (Feature)	Spring Integration support: for endpoint elements check that poller is/is not configured depending on input-channel
IDEA-37697 (Feature)	Move top-level bean up/down (Ctrl-Shift-Up/Ctrl-Shift-Down)
IDEA-90872 (Feature)	Spring integration support: jdbc:parameter element: check that 'value' and 'type' attributes are not used if 'expression' is provided
IDEA-23133 (Feature)	Spring Batch: provide spring-batch predefined variables for SpEL
IDEA-90703 (Feature)	Spring Integration support: check that 'security:secured-channels' element defines 'authentication-manager' & 'access-decision-manager' or default beans exist
IDEA-90651 (Feature)	Spring Integration support: AMQP: outbound-channel-adapter, outbound-gateway: 'exchange' attribute should reference existing exchange names if any
IDEA-90643 (Feature)	Spring Integration support: AMQP: inbound-gateway, inbound-channel-adapter: check that 'queue-names' attribute is set if no 'listener-container' attribute is specified
IDEA-90641 (Feature)	Spring Integration support: AMQP: inbound-channel-adapter, inbound-gateway: queue-names attribute should reference corresponding beans
IDEA-90871 (Bug)	Spring Integration support: jdbc:parameter: primitive types are error-highlighted for 'type' attribute values
IDEA-90574 (Bug)	Spring Integration support: AMQP: 'int-amqp:channel' element is reported as error when used as 'channel' attribute reference
IDEA-90570 (Bug)	Spring Integration support: AMQP: check that element defines the 'connection-factory' attribute or the 'rabbitConnectionFactory' bean exists
IDEA-90727 (Bug)	Spring Integration support: 'security:secured-channels' element: support the default access-decision-manager
IDEA-85643 (Bug)	task:scheduled-tasks reports "scheduler must be instance for ThreadPoolTaskScheduler" while it must be TaskScheduler instance according to DTD
IDEA-85483 (Bug)	Spring Batch: "step" scope is highlighted red though using batch-namespace
IDEA-91096 (Bug)	Spring-Security 3.1.0 alias beans get auto-wire errors in IntelliJ but actually do work at run-time
Task Management	
IDEA-86116 (Usability Problem)	Removing multiple tasks is a pain
IDEA-90017 (Cosmetics)	Task management: "Goto Task" action could be renamed back to "Open Task"
Unit Testing. JUnit	
IDEA-91113 (Cosmetics)	When killing a test process a balloon is displayed saying "Tests were not started"
User Interface	
IDEA-90876 (Usability Problem)	File menu Close Project Mnemonic "J" moved to Project Settings that already has keyboard shortcut
IDEA-90428 (Usability Problem)	CTRL+ SHIFT + N dialog should show paths relative to content url(not to .idea folder locations)
IDEA-90569 (Cosmetics)	Darcula: "Loading..." animated icon doesn't look good
IDEA-91085 (Bug)	Reset filter(Esc) in Settings dialog resets selected element as well
IDEA-61766 (Bug)	Impossible to resize table columns
IDEA-90818 (Exception)	assertIsDispatchThread throws exception after opening project

Version Control	
IDEA-91000 (Usability Problem)	'Delete local copies of added files' should remember its state in Revert Dialog
IDEA-26980 (Bug)	IntelliJ IDEA does not correctly refresh jar files after unshelving
Version Control. Perforce	
IDEA-65569 (Usability Problem)	Be more verbose on "invalid connection" error
IDEA-90443 (Bug)	Wrong Perforce revision reported for committed changes
IDEA-90220 (Bug)	perforce integration disabled after failure to resolve host name
IDEA-90958 (Bug)	Perforce Integration - 3 ways to connect only one works.
IDEA-53207 (Bug)	Perforce operations not working correctly
Version Control. Subversion	
IDEA-90759 (Bug)	deadlock in svn code
IDEA-75800 (Bug)	SVN "Merge from..." not working
IDEA-91152 (Exception)	SVN: NPE at org.jetbrains.idea.svn.dialogs.QuickMerge\$MergeAllWithBranchCopyPoint.consume
Web Services	
IDEA-91059 (Usability Problem)	Web Services: on facet creating no engine selector is available, sample code is generated for glassfish silently
IDEA-91268 (Bug)	Web Services: configured Global Libraries not added to module dependencies should not affect Java From WSDL generation
IDEA-91128 (Bug)	Web Services: on New/WebService creating either validate the name or allow to add package prefix
IDEA-91048 (Bug)	WebServices: New Client creating: Generate Java Code From WSDL: the Choose WSDL or WADL File chooser is always empty
IDEA-91197 (Bug)	WebServices: when the path to Glassfish server is set in teh WebServices Settings, Generate Java From WSDL action fails
IDEA-91060 (Bug)	web Services: validate the path to engine in Settings
IDEA-90953 (Bug)	In LibraryAlreadyExists dialog Cancel action works as Add
IDEA-90946 (Bug)	RESTful webservices: Generate Java From WADL fails if the wadl file path contains spaces
IDEA-91013 (Bug)	RESTful Webservices: no possibility to generate java code from not-local wadl file
IDEA-91015 (Bug)	RESTful webservices: 'generate client code' option makes module creating fail
IDEA-91027 (Bug)	RESTful webservices: new-created/deleted classes are not considered by GenerateWADLFromJava tool - build is necessary
IDEA-91137 (Bug)	Web Services: Glassfish: GenerateWSDLFromJava fails for projects located in the mounted disks
XML	
IDEA-61055 (Bug)	XML: moving tags up/down wrecks well-formedness
IDEA-90935 (Bug)	Deadlock during git unstash
