

Maia 94.426 Release Notes

No subsystem	
IDEA-52386 (Feature)	Better top-level class detection for stubs generation
IDEA-50618 (Cosmetics)	Correct grammar in plugin description
IDEA-52084 (Bug)	File Template glitches.
IDEA-52256 (Bug)	"Submit Performance Report" action fails on Mac OSX/custom idea.log.path
IDEA-24562 (Bug)	Quick documentation shows line break after parameter annotation
IDEA-23739 (Bug)	Quick JavaDoc confused by @code inline tag
IDEA-42152 (Bug)	Opening different project makes the font in documentation lookup smaller
IDEA-52370 (Bug)	Problems injecting HTML into HTML 😊
IDEA-52291 (Bug)	False syntax error flagged in Java regular expression, "Redundant group nesting"
IDEA-51919 (Bug)	reformatting will apply on whole project!
IDEA-52280 (Bug)	New in IDEA 9: hangs for 20-30 seconds when regaining focus
IDEA-52324 (Bug)	Expand all in TODO list doesn't work
Code Analysis. Inspection	
IDEA-52288 (Feature)	ImplicitArrayToString inspection should work on System.out.printf() and String.format()
IDEA-11222 (Usability Problem)	Improve usability of 'inspection quickfix submenu'
IDEA-15209 (Usability Problem)	"Specify Inspection Scope" dialog: radio buttons should act as group (up/down key support)
IDEA-22281 (Bug)	Custom javadoc tags of form {@foo} are not recognized
IDEA-51965 (Bug)	Inspection "Overridden method call during object construction" eats memory
IDEA-52030 (Bug)	"Replace for-each loop with indexed for loop" can produce inefficient code.
IDEA-52135 (Bug)	@SuppressWarnings("unchecked") does not work for "Raw use of parameterized class X"
IDEA-52144 (Bug)	"Unused declaration": suppress warning for class uses outer class when applied on inner class
IDEA-47680 (Bug)	Javadoc problems inspection: highlighting for absent @return description could be improved
IDEA-52407 (Bug)	Quickfix 'add braces' for Control flow without braces throws exception
Unit Testing. JUnit	
IDEA-24469 (Feature)	IDEA should report all failures reported by JUnit
IDEA-52351 (Bug)	JUnit runner "fails to fail" when org.apache.log4j.ConsoleAppender and Seam are used
Code Navigation	
IDEA-39126 (Bug)	JavaDoc parse is wrong for enumerated declarations
IDEA-22915 (Bug)	{@inheritDoc} in generic param javadoc
JavaScript	
IDEA-52054 (Bug)	StackOverflowError while editing JavaScript

IDEA-52271 (Bug)	Exception in Javascript file structure
IDEA-27045 (Bug)	Javascript editor breaking when doing some prototype templating
IDEA-52350 (Bug)	javascript comment parsing bug
Flex Support	
IDEA-51693 (Feature)	Need an action to package AIR installation file (*.air)
IDEA-52057 (Bug)	JS pull up: remove 'overrides' modifier when pulling up to the interface
IDEA-52396 (Bug)	Good code red: Initializer type Vector.<foo.Bar> is not assignable to variable type Vector.<Bar>
IDEA-52122 (Bug)	spelling correction in ActionScript is broken
IDEA-52254 (Bug)	Unable to complete MXML-class name in skinClass property
IDEA-47992 (Bug)	'Comment line' action in mxml file may lead to unexpected result and exception
IDEA-48785 (Bug)	Flex: asdoc support: Ctrl-Q for element with the @inheritDoc comment should show the inherited documentation
IDEA-52023 (Bug)	Highlight usages does not work for ActionScript in MXML Script block
IDEA-52295 (Performance Problem)	Parallel compilation: Always recompiling and not breaking on error
IDEA-51797 (Bug)	Unused selector warning for inline CSS
IDEA-52178 (Bug)	Coercion of Object to XMLList is marked red
IDEA-26145 (Bug)	flex: "Unwrap.." selection behavior inconsistent with Java
Project Configuration	
IDEA-51887 (Bug)	Auto-fill JavaDoc URL
IDEA-27189 (Bug)	Artifact should have been renamed with all references if I change it's name
IDEA-27203 (Bug)	creating artifact break all web run configurations
IDEA-52070 (Bug)	Import from Eclipse does not work - displays "Unknown modules detected" and cannot build, cannot find libraries
Project View	
IDEA-52453 (Bug)	No Icon for .xsd files that are read locked in Project View
IDEA-25711 (Bug)	Tree view for custom scope is not updated immediately on class declaration changes
IDEA-19975 (Bug)	Unable to create new Java objects (classes, interfaces, packages, etc) in Favorites view
Android	
IDEA-52068 (Bug)	Android, Completion: 'class' attribute values are duplicated in list of choices
Version Control	
IDEA-51285 (Bug)	Local Changes Update should not prevent IDEA exit
Code Coverage	
IDEA-46562 (Usability Problem)	Analyze->Code Coverage: Coverage Suites has no quickselection
J2EE.Hibernate	

IDEA-52472 (Bug)	Hibernate console: with partial results shown accordingly to "Result Set Page Size" Previous page is enabled instead of Next page
Version Control. TFS	
IDEA-52492 (Bug)	TFS: CustomCheckinPolicies: no policies are evaluated for all projects if one of projects overrides global options so that no policies are evaluated
IDEA-52476 (Bug)	TFS: CustomCheckinPolicies: consider policies configured in overriding project settings only if globally policies are not evaluated
Refactoring	
IDEA-40703 (Bug)	Refactor / Inline parameter: process the case where local class participates in the argument
IDEA-23984 (Bug)	Rename parameter does not work correctly if a parameter starts with the same letter as the parameter prefix
IDEA-21328 (Bug)	Refactoring: "rename method" does not remember the state of "Search for text occurrences" checkbox
IDEA-52195 (Bug)	Encapsulate field should move javadoc to newly created methods or ask
IDEA-52192 (Bug)	Type Migration fails to migrate RHS
IDEA-26029 (Bug)	Introduce Constant action may create private field in a new class and make code invalid (visibility does not update)
IDEA-52377 (Bug)	Invalid method: PsiMethod when running Extract Class
IDEA-11833 (Bug)	Rename Inheritors can be a little smarter with naming conventions
IDEA-52164 (Bug)	Refactor / Inline parameter: assignment to local variable between its declaration and the call causes the incompilable code
IDEA-52169 (Bug)	Refactor / Inline parameter: visibility limitations could raise a conflict
IDEA-52171 (Bug)	Refactor / Inline parameter: reference to static member moved to different class is incorrect in case of "Replace with local variable" = On
IDEA-52170 (Bug)	Refactor / Inline parameter: moving non-static member access to static context could raise a conflict
Version Control. CVS	
IDEA-52137 (Bug)	CVS: UpdateProject doesn't work for multiroot project with default VCS mapping
IDEA-52132 (Bug)	CVS: Repository/Incoming views show nothing for projects with versioned paths below project root
CSS Editing	
IDEA-52150 (Exception)	NPE at com.intellij.psi.css.CssSupportLoader.isInFileThatSupportsEmbeddedCss
GWT Support	
IDEA-26990 (Bug)	?????
Documentation	
IDEA-13126 (Usability Problem)	Quick documentation lookup (Ctrl+Q) problem
Maven Integration	

IDEA-21448 (Usability Problem)	Add dependency should insert dependency at cursor (not the end of the dependencies)
IDEA-20803 (Usability Problem)	Exclude output paths is not checked by default in project settings
IDEA-52167 (Bug)	94.273: Maven "provided" scope jars no longer appearing on test classpath
Editor. Intention Actions	
IDEA-52118 (Feature)	quick fix for javadoc: unresolved symbol
IDEA-52456 (Bug)	"Replace + with String.format() call" produces wrong format string with quoted char
IDEA-52457 (Bug)	"Replace + with .append() call" doesn't replace all + operators
J2EE.Web	
IDEA-47253 (Bug)	"Cannot resolve servlet" warning is show only for html in web resource root
Version Control. Perforce	
IDEA-52071 (Exception)	NPE - PerforceManager.getServerVerzionYear
Editor. Code Completion	
IDEA-23600 (Bug)	Java CodeCompletion does not show static methods on instances
Editor. Error Highlighting	
IDEA-31848 (Feature)	More intelligent i18n handling
IDEA-52205 (Bug)	Good code is red: ambiguous reference with valid single import
J2EE.EJB2	
IDEA-52378 (Bug)	StackOverflowError attempting to open "Weblogic Server tab for an EJB
Version Control. Subversion	
IDEA-52333 (Bug)	Subversion: show 'authentication required' notification on attempt to create new branch
IDEA-52507 (Bug)	Subversion: Pending incoming changes aren't detected anymore
IDEA-51936 (Bug)	IntelliJ hangs on synchronize
IDEA-52201 (Bug)	svn credentials not remembered
Debugger	
IDEA-36597 (Feature)	Autoboxing not used in Code Fragment Evaluation
IDEA-50234 (Usability Problem)	Breakpoints configuration dialog shouldn't show tabs if only one breakpoint panel is registered
Editor. Editing Text	

IDEA-15609 (Feature)	Quick Javadoc for method should always display class
IDEA-52528 (Feature)	Please create vertical indent lines
IDEA-50343 (Usability Problem)	Suggestion for create new class dialog: Up/Down in name field changes kind
IDEA-27211 (Bug)	IDEA 9 freezes while editing Groovy/Grails files and open project- oder grails-Tab
IDEA-51439 (Bug)	Live templates do not work in injected context
IDEA-51940 (Bug)	PSI error when deleting code block Similar to IDEA-48642 and IDEA-49000
J2EE.Spring	
IDEA-27195 (Exception)	Exception when working with classes defined with AOP
IDEA-51315 (Exception)	ISE at com.intellij.aop.psi.AopPointcutExpressionFile.getAopModel
User Interface	
IDEA-27757 (Feature)	Cannot copy text from Messages - Make dialog
IDEA-17941 (Usability Problem)	Error message: The documentation for this element is not found.
IDEA-20370 (Usability Problem)	Generate JavaDoc for specific Scope
IDEA-17650 (Usability Problem)	Splash screen is too aggressive on Linux
IDEA-52224 (Bug)	Changes Tool Window: Cannot Expand/Collapse Tree while Indices Are Being Built
IDEA-52223 (Bug)	TODO toolwindow shows items that have no todos in them
Groovy/Grails	
IDEA-38524 (Feature)	Add quickfix to escalate inaccessible member visibility
IDEA-39961 (Feature)	Check access modifiers compatibility
IDEA-50789 (Usability Problem)	Groovy: with search for property accessors usages every usage is reported three times
IDEA-50141 (Usability Problem)	Running groovy class/script through Ctrl+Shift+F10 always runs newly created temporary run configuration
IDEA-52183 (Bug)	If groovy library added to a project 'Method getMetaClass is not implemented' error will be shown for existing Groovy classes
IDEA-51766 (Bug)	IDEA doesn't stop on breakpoints inside Gant targets
IDEA-25396 (Bug)	Code Fragment Evaluation, unable to evaluate static method calls when language is Groovy
IDEA-52366 (Bug)	Grails filters (residing in grails-app/conf) should be visible to source & test code
IDEA-51949 (Bug)	Grails: IDEA tries to collect dependencies for applications with Grails SDK version less than 1.2.0 configured
IDEA-52246 (Bug)	groovy control flow is still busted
IDEA-51638 (Bug)	Groovy Control Flow reporting many invalid warnings
IDEA-49723 (Bug)	Maia wants to check in grails plugins
IDEA-51934 (Bug)	Groovy constructor calls should be disambiguated by parameter count
IDEA-52012 (Bug)	'Select word' on Groovy method call name should first select name+argument list and only then qualifier
IDEA-52410 (Bug)	Cannot compile project after updating from Groovy 1.7.0 to 1.7.1

IDEA-50010 (Bug)	Grails: hasErrors() method is not resolved in controller
IDEA-51903 (Bug)	Grails 1.2: 'Grails dependency configuration may be outdated, ...' info never disappears
IDEA-50587 (Exception)	ClassCastException at JavaCodeStyleManagerImpl.c() when accessing groovy property from java code via getter
IDEA-26706 (Exception)	Exception when no type is specified for a dynamic property
SQL	
IDEA-52527 (Exception)	NPE at CodeCompletionHandlerBase.doComplete() on basic completion in SQL console
