

Faradi 7.0.2 (build 21349) Release Notes

Feature

- [TW-20929](#) - Add ability to disable server free disk space watcher

Bug

- [TW-10384](#) - "Insert property" popup icon can hide the text behind it
- [TW-18102](#) - JavaScript injection in build status text
- [TW-18403](#) - SVN checkout fails with java.lang.ArrayIndexOutOfBoundsException: 65533
- [TW-19649](#) - TeamCity Server Startup Error
- [TW-20387](#) - IE8: Javascript stackoverflow in Run Custom Build Dialog
- [TW-20490](#) - Gradle build step: "JVM command line parameters" have no effect
- [TW-20689](#) - CVS Integration does not collect changes if quiet period in VCS root settings is set to a high value
- [TW-20692](#) - Highlight my changes does not work for changes from dependencies
- [TW-20782](#) - NPE on opening VCS usernames for a user
- [TW-20786](#) - "Failed to plug downloaded package to.. " error on NuGet.Commandline install
- [TW-20790](#) - Build can be marked as out of changes sequence if there are two VCS root instances with the same settings
- [TW-20806](#) - Slow REST response on builds lists (build tags listing case)
- [TW-20873](#) - Unexpected error: java.lang.NullPointerException during rules applying
- [TW-20875](#) - MSBuild/Sln runner may issue warning on fail to overwrite file in temp
- [TW-20900](#) - Wrong "Build is outdated" message
- [TW-20923](#) - TeamCity can start to collect changes from some very old revision
- [TW-20941](#) - Newlines are stripped from command line arguments even if argument is surrounded by quotes
- [TW-20945](#) - Problem With Nuget Dependency Trigger
- [TW-20990](#) - Exception is thrown on attempt to visit build configuration page without build steps

Exception

- [TW-20777](#) - Failed to update OpenInBrowserAction when user is logged out

Performance Problem

- [TW-20663](#) - Slow Subversion 1.7 Format Checkout
- [TW-20920](#) - Stop using cglib proxies for build configurations
- [TW-20921](#) - Build configuration pending changes cache can consume significant amount of memory

Cosmetics

- [TW-16457](#) - Safari: bad placement of completion icon
- [TW-17944](#) - Parameters references icon clashes with scroll in text area
