

0xDBE 1.0 EAP 141.191 Release Notes

DBE-1134	Can not open any more Java SE 6 runtime
DBE-140	Table Editor: add "Value Editor" popup for BLOB data
DBE-423	Database: focus doesn't switch from result panel to output
DBE-493	Database: Procedure/Function Editor does not show changed definition
DBE-1164	Consoles: folders with consoles have internal names when opened at other project
DBE-1159	Console: database result sets have same name for different consoles
DBE-1160	Database View: incorrect shortcut for console
DBE-1161	MySQL: declare continue/exit handler for (number) shows as error - but it's not
DBE-1157	Database Console Result Tabs: java.lang.IllegalStateException: @NotNull method if you close tab while query is still running
DBE-56	More than one console editor
DBE-1149	Console history: statements are sorted in a mixed way
DBE-1146	Console: no available schemas shown for Oracle, MS SQL, Sybase data sources
DBE-1151	Progress indication for activities initiated from console's table result tab
DBE-1148	PostgreSQL, MS SQL: tab name for result of SELECT statement is incorrect
DBE-305	Provide an ability to create schema aware sql console from database view
DBE-1141	Database console does not recognize any table
DBE-1072	Database console: MySQL unresolved qualified references
DBE-840	Database: console history could be saved under config, not system
DBE-1128	Add live template on the fly
DBE-1125	Formatting issues in MySQL's quickdoc
DBE-1071	date picker in database editor has hour 0 and hour 24
DBE-1042	Oracle GUIDs show a bunch of 0's at the beginning, and a bunch of random characters on the end
DBE-1081	remember hidden columns
DBE-1091	Quick Documentation (Ctrl + Q) screen is not updated after DDL change.
DBE-1086	After installing new version of 0xDBE all inspections disappeared
DBE-1020	Data Sources and Drivers: make possible to copy values of non-editable driver fields
DBE-1070	Disable displaying blobs
DBE-1059	Click to count: superfluous subquery is executed
DBE-1066	DB2 Inspection SQL_LINE_COMMENT
DBE-1065	Table Editor: doubled "No Data Available" for wide empty table
DBE-1052	Provide a button to pin results
DBE-1051	Smart completion (ctrl shift space) should complete join statement if there is only one variant
DBE-1044	PostgreSQL: wrong type at Database View for timestamptz, timetz and time formats with precision
DBE-1049	SQL / PostgreSQL formatting doesn't fully respect comment indentation
DBE-470	Code Style: setting "comment at first column" not persisted
DBE-1057	XML extractor does not escape illegal characters in xml columns on SQL Server
DBE-1058	Cannot tab when "helper" tooltip is present

DBE-1056	Support for varbinary(MAX) on SQL Server
DBE-1043	Oracle. Unresolved partition in "create table" statement
DBE-1047	Exception encountered deleting rows from a PostgreSQL table
DBE-1032	Table Editor: Large Values: popup for cell value does not disappear after moving focus
DBE-318v	archar tooltip for longtext column for MySql
DBE-1046	Deadlock upon starting 0xDBE
DBE-1026	Table Editor: Transpose View: a column that appears on 'Add Row' action is not wide enough
DBE-932	Oracle: 'select 2' without FROM clause is green
DBE-1035	Table Editor: Auto size column width on double click is a tiny bit to small
IDEA-137234	MySQL SSL Tunnel always auth failure with OpenSSH 6.7
IDEA-137187	the PostgreSQL dialect misses support for data-modifying queries in common table expressions
IDEA-136815	DB/JPA/QL: Console Run Configuration dropped
