

PhpStorm EAP 173.3531 Release Notes

PHP Formatter	Bug	WI-38520	`elseif` PSR1/PSR2 Code Style Preset
	Usability	WI-37896	Reorganize PHP Code Style Other tab
PHP Inspections	Bug	WI-38565	Redundant closing tag is show for HTML/PHP mix
	Usability	WI-37583	Avoid usage of internal "empty PHPDoc" meaning in PHPDoc inspection options/descriptions
Plugin: Deployment _ FTP..	Bug	WI-2449	Invalid descendent file name "ssh:" or directory a\b (on Linux)
PHP Lang	Bug	WI-38422	{CARET} is not replaced with actual caret if PHPDoc code block is empty.
PHP Test	Bug	WI-38561	Codeception: Codeception run configuration is always executed if there is a local Codeception configuration and class inside a file
	Usability	WI-38532	Provide capitalized and not capitalized variables for Test method
	Usability	WI-38320	Hide 'class to test' panel in 'new test' dialog if action was invoked from the class
No subsystem	Bug	IDEA-181176	MacOS: Gogland loses "before launch" entries of run configurations when closing
	Bug	IDEA-180884	Run Dashboard: on clicking in the run configurations tree the corresponding pane doesn't get focus
	Bug	IDEA-181314	Exception appears when copy default run/configurations
	Bug	IDEA-179610	Code region is shown twice in the Structure panel
Debugger	Bug	IDEA-181118	Run configuration fails in debug
Diff_Merge	Bug	IDEA-172735	Navigation from File structure pop-up does not work inside Diff panel
Docker	Feature	IDEA-167859	Allow using files with environment variables to run Docker container
	Bug	IDEA-181123	Docker. Run Configuration. "Command preview" and "Command line options" fields should not remain over the other windows by changing focus
	Bug	IDEA-181258	Docker. RunConfiguration. Command preview. Place a space after a not-default Dockerfile name to separate "-t" option from the name
	Bug	IDEA-181170	Docker. Run configuration. Correct UI for adding/editing mounts: add "edit" state, add cursor position, add max of empty lines
	Bug	IDEA-181180	Docker: Run Configuration. Port bindings from "Command line options" field are ignored if "Bind ports" field is not empty
	Bug	IDEA-181183	Docker: Run Configuration. Mount binding from "Command line options" field doesn't work
	Bug	IDEA-181225	Docker: Run Configuration. Container name field. Run failed if the field value contains spaces at the beginning/end
	Bug	IDEA-181086	Docker. Image Run Configuration. Command preview is always empty
	Bug	IDEA-180381	Docker: Run Configuration. Validate container names
Find, Replace, Find Usages	Bug	IDEA-181019	Error when doing a 'find usage' with 'derived class' selected in dialog
Run Debug configuration	Usability	IDEA-181198	RunDashboard: finished and not started configurations could not be distinguished in tree
User Interface	Cosmetics	IDEA-181117	ExpandableTextField has incorrectly rendered 'Expand' button
User Interface.Darcula	Cosmetics	IDEA-120491	Darcula: Java syntax highlighting in jsp broken

Version Control	Bug	IDEA-180991	VCS group by directory should show path relative to the path of project/module
DB Console	Bug	DBE-5366	2017.3: unable to ROLLBACK aborted transaction with Postgres
Data Views	Feature	DBE-5324	Paste TSV/CSV to Data Editor
	Bug	DBE-3183	Can't edit history column in Postgres
User Interface	Bug	DBE-5232	Database console font is not affected by "Console Font" setting.
	Cosmetics	DBE-5362	ugly database counter
JavaScript	Feature	WEB-29454	typescript: exclude javascript files from indexing if package contains typescript declarations
	Bug	WEB-19444	JS: Invalid 'Duplicate declaration' highlight in destructuring assignment
JavaScript. Inspections	Bug	WEB-29280	Invalid 'conflicting inherited declaration' highlight (observable with React components in JS files)
TypeScript	Bug	WEB-29408	AutoFormat with member reordering issue
