

PhpStorm 193.4099.12 Release Notes

No subsystem	Performance	WI-47179	Freezes in PhpIncludePathManager
Injections in PHP	Bug	WI-47113	Comments (#...) in regular expressions are annotated as not supported in 2019.
	Bug	WI-21065	\K in regular expression is treated as illegal/unsupported escape sequence
	Bug	WI-48582	Unknown character category
PHAR	Bug	WI-48848	Can't scroll to code in phar PHP archive files in a content root
PHP	Feature	WI-48891	New inspection: Redundant suppression
	Feature	WI-3791	Add ability unwrap function argument (remove function call)
	Bug	WI-41691	Previous parameter action doesn't work
	Usability	WI-41692	Next parameter action doesn't work for language constructions
	Exception	WI-48823	Exception when input comma after last parameter in function call
PHP Formatter	Feature	WI-48724	2019.3 EAP - PSR-12 inspection - using traits
	Feature	WI-48176	PSR-12: spaces between ?, &, ... marks and following entity
	Feature	WI-48168	PSR-12: All PHP reserved keywords and types MUST be in lower case
PHP Inspections	Bug	WI-48608	Namespace is marked as deprecated if it contains class with the same name
	Cosmetics	WI-45732	Rename 'PHP Code Sniffer' to 'PHP_CodeSniffer' in UI and documentation
PHP Refactoring	Bug	WI-40703	Inline function: may override variable if a variable with the same name is used in
	Exception	WI-47594	Introduce field: PIEAE when revert and apply refactoring again
	Exception	WI-48498	Extract Field throws exception and doesn't allow to change name if the variable t
PHP Test	Task	WI-46820	Improve test creation by class dialog
PHP Type Inference	Bug	WI-48821	@mixin breaks PhpParamsInspection
PHPDoc	Bug	WI-48766	property inspection switches parent and child class
	Bug	WI-48657	@method self not works anymore at EAP
Plugin: Deployment _ FTP..	Bug	WI-48587	"Download from here" saves all opened modified files
	Bug	WI-33253	Download project files will trigger "auto upload external changes"
	Performance	WI-48633	Consider making `com.jetbrains.plugins.webDeployment.autoupload.FileListener asynchronous
Code Analysis. Structural Search	Bug	IDEA-223146	PsiInvalidElementAccessException: Element class : on SSR replacing annotation
	Bug	IDEA-221558	SSR inline preview doesn't get updated on editor document change
	Bug	IDEA-223337	Search for Java methods should find methods with receiver parameter
Core. Debugger	Bug	IDEA-220181	Debugger ignores stepping filters when using new directed step-into
Core. Diagrams	Bug	IDEA-223512	UML Diagram: missing "Save as UML" button on a toolbar
Core. Installation	Feature	IDEA-194011	Turn vcs.log.graph module into a healthy maven dependency
Core. Password Management	Bug	IDEA-223257	java.lang.NoSuchMethodError: 'void com.intellij.credentialStore.CredentialAttributes.<init>(java.lang.String, java.lan java.lang.Class, boolean, int, kotlin.jvm.internal.DefaultConstructorMarker)'
Core. Platform API	Bug	IDEA-223894	PluginException trying to use ServiceManager to get service with multiple constr
	Bug	IDEA-223709	RubyMine 2013.EAP creating more than 800 threads on opening, freezing the IDE the computer for several seconds

	Bug	IDEA-223074	IDEA has to report regarding corrupted files / plugins
Core. Plugin Management	Bug	IDEA-209769	Transitive optional plugin XML dependency does not work
	Bug	IDEA-222461	Plugins management: incompatible plugins reporting is incorrect
	Cosmetics	IDEA-218594	Plugins: ugly dialogs on downloading failure
Core. Project Settings	Bug	IDEA-223363	IDE deletes newly added library configuration files if external storage is enabled
	Bug	IDEA-223730	java.util.ConcurrentModificationException at com.intellij.openapi.projectRoots.impl.UnknownSdkType.getInstance(UnknownSc
Core. Quick Documentation	Bug	IDEA-222946	identifier tooltip - due to scrollbar the tooltip window is not large (height) enough only 1 or 2 lines in the tooltip. So the text is always obscured.
Core. Refactorings	Performance	IDEA-214780	ToolBar action update freezes UI thread for a long time
Core. Run. Configurations	Bug	IDEA-222233	Copy-paste behavior in the Environment Variables editor
	Bug	IDEA-210252	[Environment variables] when pasting smth in addition to the existing value - the replaced
Core. Task Management	Bug	IDEA-134603	When switch from task to task with branch having new files these previously open not reopened
Editor. Code Completion	Bug	IDEA-223713	CNFE: com.intellij.codeInsight.completion.CompletionPhaseListener: Can't run 1.3.60-dev-2580-IJ2019.2-1 with IDEA Nightly IU-193.3938
	Bug	IDEA-223033	Different Live Templates differing by case only may shadow each other
	Bug	IDEA-223091	IntelliJ keeps freezing when editing story files
	Performance	IDEA-198887	MinusculeMatcher can be very slow on long prefix and name
Editor. Diff and Merge	Bug	IDEA-223218	Default focus on file list in 'Diff Between' window
Editor. Formatter	Bug	IDEA-223416	Regression: overriding FileIndentOptionsProvider no longer works when .editorcc
Lang. XPath and XSLT	Bug	IDEA-220836	Show Unique XPath is not working well
Tools. Docker	Bug	IDEA-223502	Docker: impossible to create a new exec command for a container: "Create..." d
	Bug	IDEA-193559	DockerCompose. Run Configuration: impossible to choose services to run
	Cosmetics	IDEA-178001	Docker. Run Configuration. Delete "Create new" from "Server" listbox.
Tools. Terminal	Cosmetics	IDEA-217612	Terminal rename session minimizes the terminal window
User Interface. Action System	Bug	IDEA-223815	intellij-community latest snapshot build causes exception when displaying Gener: popup
User Interface. Keyboard Input	Bug	IDEA-222847	Invoking Ctrl-Alt-O ("Optimise Imports") while indexing prints a character
User Interface. Project View	Bug	IDEA-206056	In Project Files, adorn symlink to folder with arrow in corner?
	Usability	IDEA-223758	Project view popup appears to the few pixels left
	Cosmetics	IDEA-171222	Module uses wrong icon in project tree
Version Control. Git	Feature	IDEA-124890	Feature Request: Add Colour hint to git branch menu when in Merging state
	Usability	IDEA-192646	Option for Commit Date rather than Author Date in File History and Annotations
	Exception	IDEA-222952	Throwable: Assertion failed: Repositories have unexpectedly diverged
Version Control. Subversion	Bug	IDEA-125032	Stuck in endless loop of modal SVN Authentication Required Dialog
	Bug	IDEA-223635	GetFilesFromVersionControl: CheckOut from Subversion fails silently
DB Connectivity	Bug	DBE-3272	H2 Data Source: automatic detection of database files for MV_STORE format (.m
	Bug	DBE-5559	H2 embedded: mv.db extension as appended to the database file each time

DB Diff	Bug	DBE-9226	Compare tool generates invalid mariadb sql for drop index when generating migr
Data Views	Bug	DBE-9217	When I press forward or backward button, Index is increased or decreased. But 1 the table. I think it is bug. Please fix this.
	Usability	DBE-9179	Thousands separator in results rows count view
SQL General	Bug	DBE-2667	"Quote identifier" should choose correct case
SQL Highlighting	Bug	DBE-8924	False warning about number of values when selecting identity column
	Bug	DBE-9160	DataGrip: Error indicated if trying to execute SQL Server procedure using user p: pass value
	Bug	DBE-9193	Good code is red when using dots in PostgreSQL CREATE VIEW WITH() option na
	Bug	DBE-3688	SQL: MySQL: support correct limitations for CAST and CONVERT arguments
	Bug	DBE-5819	Bad SQL is green: MySQL `delete * from`
	Bug	DBE-9210	Inspection ['Delete' statement without 'where' clears all data in the table] should when selection made by JOIN
No subsystem	Bug	WEB-41478	"Quote property names" too aggressive when working with selected properties
	Bug	WEB-37995	Higher-order function generic inference should work for lambdas invoking generi
	Usability	WEB-33143	closing tag should be smarter
Build tools	Bug	WEB-38986	Don't debug npm before launch tasks
Dart	Feature	WEB-41609	Dart formatter: use dartfmt tool when reformatting file parts, not only the whole
	Task	WEB-41628	Dart formatter: use dartfmt tool always, remove legacy formatting settings
Debugger	Bug	WEB-41598	Breakpoints don't work after app is reloaded by webpack
	Bug	WEB-21719	NodeJS Remote Debugging Doesn't Allow Breakpoints
	Bug	WEB-36015	Debugger attaches to "Before Launch" gulp script, application not launched
	Performance	WEB-38989	Optimize memory used for source maps
JSON	Feature	WEB-35787	JSON: Smarter colon/comma handling before the closing quote (disabled by defa
	Feature	WEB-38070	Complete statement could add quotes on JSON
	Feature	WEB-41515	Add editor action for "Copy JSON Pointer to clipboard"
JavaScript	Feature	WEB-41553	Don't show unexported symbols from libraries in the Go to definition popup
	Feature	WEB-41508	Highlight await once the caret is on async.
	Bug	WEB-41403	WebStorm 2019.3 EAP - After a while IDE show warning "unused constant"
	Performance	WEB-11215	large concatenated JS file causes hang
JavaScript. Formatter	Bug	WEB-40900	EditorConfig doesn't apply to <script></script> in .vue file
JavaScript. Frameworks	Bug	WEB-41477	Vue.js: attribute name is not in code completion on slot tag
	Bug	WEB-41564	Vue Mixin Fields Glitches
JavaScript. Refactoring	Bug	WEB-35616	Comment for typescript class last field is broken after applying intention "Create
	Bug	WEB-29335	'Extract superclass', 'Pull members up' should move comments around members
Node.js	Bug	WEB-38601	Windows: Electron does not show console output when run from npm run configu
TypeScript	Bug	WEB-41569	Completion in class, which implements extended interface with Omit, should sug properties
	Bug	WEB-40300	TypeScript - don't collapse single line comment
	Bug	WEB-41602	Container type is computed incorrectly for destructuring in a for-of loop
	Bug	WEB-41597	Intention to generate destructuring pattern should generate parameter list paren needed
	Bug	WEB-41661	Missing for-of array postfix when iterating over a local

Bug	WEB-41606	Infinite re-indexing of node_modules/
Bug	WEB-39678	TypeScript: Problem with type inference in redux(store.dispatch)
Bug	WEB-41562	Default generic value is not substituted in 'extends'
Usability	WEB-41430	Don't show 'delete' keyword in completion in call arguments
Usability	WEB-41591	Don't show variables in code completion for 'implements' clause
Task	WEB-41519	TypeScript: better globs support in "includes" / "excludes" options in tsconfig
