

PhpStorm EAP 142.4912 Release Notes

PHP Completion	Feature	WI-17528	Code completion when overriding class properties with new default values
	Feature	WI-28812	Provide completion for methods when implementing interface
	Feature	WI-6223	Complete parens after function-like constructs (isset etc)
	Feature	WI-8035	Getters and setters autocomplete proposal like in IntelliJ
	Feature	WI-16918	Autocomplete method name and signature when overriding parent
	Bug	WI-28810	Completion should take into account final modifier
	Bug	WI-28811	Function keyword inserted twice if function name starts with f
	Bug	WI-28858	Getters and setters shouldn't be suggested for constants
	Bug	WI-28859	Getters and setters completion shouldn't suggest private fields of parent classes/traits
	Usability	WI-26877	Provide completion for possible injections after @lang
	Usability	WI-22118	No autocompletion for function and constants in namespace
	Usability	WI-28862	Remove "<Generic>" from completion list after @lang
	Usability	WI-28861	Provide getter/setter completion for trait
	Usability	WI-28860	Don't suggest completion for getter/setter if there is already a keyword before
PHP Inspections	Bug	WI-28456	Null Coalesce Operator creates not initialized warning
PHP Refactoring	Usability	WI-28316	Disable extract refactorings for return types
PHP debug	Usability	WI-28712	Debug console: Provide completion for variable \$this
	Usability	WI-28715	Debug console: Provide completion for fields/methods
	Usability	WI-28564	Debug console: Show error message in case of error evaluating code
	Usability	WI-28562	Debug console: Provide completion for variables defined in REPL
PHP lang	Feature	WI-27713	Support PHP 7 Context sensitive lexer (allows use keywords for Method names)
	Feature	WI-27450	Support PHP 7 generator delegation (yield from)
	Bug	WI-28786	Variable in string leads to copy without unescaping
	Bug	WI-28847	Redundant extra backslash escaping within strings.
	Bug	WI-28807	Incorrect quote scaping when the whole string is replaced
	Bug	WI-28809	Paste string before another one scapes quotes from the first
	Bug	WI-28321	Constructor/Destructor/Clone methods can't declare a return type
PHP test	Cosmetics	WI-28544	Remove leading :: (double colon) from tests with data provider
Plugin: Deployment _ FTP..	Bug	WI-27750	Lock on deployment settings saving
PHP Run	Bug	WI-28445	HTTP request run-configuration: set encoding for response content
No subsystem	Feature	IDEA-143686	Add ability to export class hierarchy to text file
	Bug	IDEA-145094	PSI invalidated outside transaction
	Bug	IDEA-144892	Distraction free mode: Cancel action for compilation is not working
	Bug	IDEA-138829	Default project encoding has changed in WebStorm 10

	Bug	IDEA-136385	Find Action / Search Everywhere: "Show Log in Explorer/Finder" action is missing
	Bug	IDEA-133942	Focus often stays in editor when dialogs are shown
	Bug	IDEA-144866	Changes in DocumentImpl related to setting bulk update mode broken ability to reformat non-physical document in non-dispatch thread
	Bug	IDEA-142785	Export settings: IDEA generates 0-sized settings.jar
	Exception	IDEA-137007	NPE at sun.font.FontDesignMetrics\$MetricsKey.init(FontDesignMetrics.java:217)
Code Formatting and Code Style	Bug	IDEA-144945	Incorrect notification "The file is indented with 3 spaces instead of 2" in Dart file
	Bug	IDEA-144408	Adjusting Settings via a Quick-Fix allows alters Default
Code Navigation	Feature	IDEA-106194	Search in File structure dialog with paste support
	Usability	IDEA-22690	Show definition for class should show the package
Debugger	Bug	IDEA-145015	Quick evaluate expression (ctrl+alt+8) instruction is silently ignored when an attempt is made to evaluate the same expression a second time.
	Usability	IDEA-144953	Navigate from Evaluate Dialog should close it
Diff_Merge	Usability	IDEA-137362	Commit Changes dialog diff area to small
	Usability	IDEA-105203	diff section in commit window is not resizable
Editor. Editing Text	Feature	IDEA-111564	Leave caret where is if inline refactor mode is exited with Shift-ESC
Editor. Error Highlighting	Bug	IDEA-144686	Inconsistent coloring in Maven pom.xml/Spring config.xml files
External Tools	Bug	IDEA-110240	Auto select run tool after commit
User Interface	Feature	IDEA-136007	Hide gutter icons in Distraction-free mode
	Bug	IDEA-86906	Move to Opposite Group should keep cursor focus
	Bug	IDEA-137147	Fatal error initializing 'org.intellij.images.fileTypes.impl.ImageFileTypeManagerImpl' (MacOSX 10.10.3 beta)
	Bug	IDEA-70943	Tooltip animations and buggy visibility are exceedingly frustrating
	Bug	IDEA-145115	Code lenz popups do not hide until clicked
	Bug	IDEA-132765	Floating progress indicator doesn't disappear after exiting Distraction Free mode or Presentation mode
	Usability	IDEA-145126	an option to hide 'tool window' buttons
	Cosmetics	IDEA-145084	Use of made up word 'abstragate'
Version Control	Bug	IDEA-144946	Exceptions from shelf after project move to another folder
	Bug	IDEA-144287	after rebase failure IDEA should be able to restore itself from the shelf (semi-)automatically
	Usability	IDEA-137693	Apply patch requires the patch file to be selected in file chooser
Version Control. Perforce	Bug	IDEA-144949	Shelve/unshelve doesn't work with renamed or moved files
	Bug	IDEA-113824	Perforce asks to delete inactive empty changelist with p4 shelved changes
	Bug	IDEA-144951	Don't allow to delete empty changelists that have associated Perforce shelves
	Cosmetics	IDEA-145118	Perforce login dialog: add blank space to message
Data.Viewer	Cosmetics	DBE-1546	"Text" tab title should be renamed to "DDL"
No subsystem	Bug	WEB-16334	Code-completion/inspection not working properly with node modules with closure structure.

CSS	Feature	WEB-17950	CSS breadcrumbs
	Task	WEB-15537	Emmet: Change \$VAR0\$ variables to \$END\$ in templates which has single variable
Debugger	Bug	WEB-18080	JS console doesn't print log messages any more
File Watchers	Bug	WEB-18147	File watchers: file watchers don't listen to changes in files generated by other watchers
HTML	Feature	WEB-13515	Emmet: add settings for placing \$END\$ at the end of template text
	Usability	WEB-13513	There should be useful exit from emmet/live templates necessary variables enumeration.
JavaScript	Feature	WEB-13892	Writing html tags in jsx blocks does not autocomplete the closing tag like when editing html
	Bug	WEB-17979	Component is not resolved
	Bug	WEB-18073	'Find usages' does not work for react component
TypeScript	Feature	WEB-18094	TypeScript 1.6: ES6 Generators support
	Bug	WEB-18106	TypeScript: member visibility doesn't work for variables in module
	Bug	WEB-18150	Typescript: Child properties not found if parent property has multiple types
	Bug	WEB-17633	Intellisense for typescript classes-in-modules not work, for simple classes produces duplicate jump-to results
