PhpStorm EAP 136.1255 Release Notes

PhpStorm EAP 136.1255 Release Notes

PHP Formatter	
WI-12364 (Feature)	Code Formatting - alignment consecutive class constants
WI-20850 (Bug)	A mismatch with PHPCS PEAR coding style validation: extra indent of a multiline function used as value in key=>value combination
WI-20881 (Bug)	Wrong indentation level in associative array when value is closure definition
WI-22441 (Bug)	Line comment at first column option is not preserved upon restart of PhpStorm
PHP lang	
WI-22445 (Bug)	@todo is not highlighted in PHPDoc
PHP lib stubs	
WI-22421 (Bug)	php: wrong signature for gzgets
WI-21717 (Bug)	Memcache:: getAllKeys() stub is incorrect
PHP project configuration	
WI-22450 (Bug)	Can't create project from existing files
PHP test	
WI-22448 (Feature)	Add annotation from PHPUnit 4
Plugin: Command line	
WI-22550 (Exception)	Command line tools autocomplete suggestions fail when *.txt not assigned as "Text file"
Plugin: Deployment _ FTP..	
WI-22388 (Usability Problem)	All remote hosts have a "web path on server", so they are all in the "upload files to" list
WI-22362 (Bug)	Sorted deployment excluded paths list. Alt+V deleted item that is not selected.
Plugin: WordPress	
WI-22541 (Usability Problem)	WordPress: Notification in Event Log "WordPress installation is not added to PHP	Include paths" has usability issues
WI-22301 (Usability Problem)	Don't add wordpress directory to include path if it's a child directory of opened directory
WI-22205 (Bug)	In balloon "WordPress containing plugins inside it's better to add whole WordPress to project" ignore button is not clickable
No subsystem	

WEB-11303 (Feature)	Grunt: support force and verbose options
WEB-11343 (Feature)	Grunt: run all tasks selected in the tree together
WEB-11342 (Usability Problem)	Grunt: notify when no tasks found for valid file
IDEA-122091 (Usability Problem)	Scratch editor > Save as: provide default directory
WEB-10928 (Usability Problem)	Bower: update bower.json on package installation
WEB-11260 (Usability Problem)	Grunt: inform user about selected invalid/inappropriate file
WEB-11322 (Usability Problem)	Grunt: provide Help button
WEB-11321 (Usability Problem)	Grunt: provide Close button on toolbar
IDEA-122255 (Bug)	[regression] mouse middle button on a line breakpoint should work as enable/disable
IDEA-122331 (Bug)	Cannot set breakpoints on multiple selections
IDEA-122467 (Bug)	Exception in creating syntax highlighter shouldn't prevent opening a file
IDEA-109467 (Bug)	Too big tooltip for Close Icon (Debug Window)
IDEA-88443 (Bug)	Run Inspection by Name: Inspections with same name are only shown once
IDEA-122283 (Bug)	Notification.expire() doesn't work if Event Log toolwindow hasn't been activated yet
WEB-11416 (Exception)	Grunt: Search Everywhere works incorrectly for "grunt" word
Clouds.Git	
IDEA-120027 (Feature)	Import Git-cloud apps from sources
Code Formatting and Code Style	
IDEA-116058 (Bug)	reformat code over selected text forces optimizes imports option
CoffeeScript	
WEB-11365 (Bug)	Litcoffee: incorrect parsing with text between statements
WEB-11378 (Bug)	Litcoffee: text without indent should be shown as comment by default
Debugger	
WEB-7303 (Feature)	Add support for debugging with node-webkit
WEB-11240 (Feature)	Live Console: implement multiple line input
IDEA-121301 (Usability Problem)	Setting a breakpoint after navigation to a folded method
WEB-11362 (Bug)	Live Console: can't evaluate variables in scope
IDEA-121738 (Bug)	Shift-click in gutter doesn't create 'no suspend' breakpoint anymore
WEB-11379 (Bug)	Console attached to the right text intent
IDEA-121964 (Exception)	IAE at com.intellij.javascript.debugger.nashorn.NashornObject.loadVariables
Diff_Merge	

IDEA-99129 (Bug)	External merge tool settings are lost after IDE restart
Editor. Editing Text	
IDEA-80056 (Feature)	Column selection mode improvement
IDEA-122192 (Usability Problem)	highlight usages should have highest priority
IDEA-121995 (Usability Problem)	Code selection is reseted on last line with space if Allow placement of caret inside tabs is enabled
IDEA-121067 (Bug)	Uncertain editor bug
IDEA-121896 (Bug)	Delete key doesn't delete CRLF while using multiple carets
IDEA-121966 (Bug)	Multiple-Cursor Jumpy
IDEA-122505 (Bug)	Incorrect cursor position in "Expression Evaluation" window
IDEA-122068 (Bug)	Unknown plugin error
IDEA-121042 (Bug)	Disable certain types of documentation dialogs (Documentation for proguard.txt)
Find, Replace, Find Usages	
IDEA-121444 (Performance Problem)	Find in path is slow
HTML	
WEB-6710 (Feature)	Autocomplete accept attribute for input type=file
WEB-8194 (Usability Problem)	HTML injection is too sensitive
WEB-11280 (Bug)	Extra tag is highlighted in the Tag tree
WEB-8630 (Bug)	Autocomplete of link rel should include 'import'
Indices	
IDEA-118211 (Performance Problem)	Performance problem when closing project
JSP	
IDEA-122428 (Bug)	Change make a new line in a jsp file
Java. Intention Actions	
IDEA-120869 (Usability Problem)	Unwrap allows to select multiple items but applies just one
JavaScript	
WEB-7714 (Feature)	Support Harmony Modules
WEB-9055 (Bug)	Invalid inline suggestion.
WEB-11359 (Bug)	Relative paths in define() not correctly resolved
WEB-11257 (Bug)	Partial string of JavaScript injection raises false warning

JavaScript. Formatter	
WEB-11339 (Bug)	javascript : inconsistent array items indentation when item is an expression
JavaScript. Frameworks	
WEB-11407 (Bug)	Cucumber-js: provide possibility to define executable via UI
JavaScript. Inspections	
WEB-11297 (Bug)	add support for jshint noyield
Language Injection	
IDEA-119475 (Bug)	Can't remove file reference
Project Configuration	
IDEA-121272 (Bug)	Adding library sources fires no events
Refactoring	
IDEA-120945 (Bug)	Safe delete finds occurrences in files that are going to be deleted
SASS	
WEB-11360 (Bug)	IDEA Sass parser won't allow to use parens after a pseudoclass if pseudoclass name is interpolated: `.foo:#{$bar}(1)` produces "End of line expected"
WEB-11364 (Bug)	Double-clicking a filename in the @import statement selects text weirdly
SQL	
IDEA-121965 (Bug)	[MySQL] REVOKE ALL PRIVILEGES, GRANT OPTION FROM 'ABC'@'DEF'; is marked invalid
IDEA-122350 (Bug)	PostgreSQL False Positives Using "FOR...IN DELETE/UPDATE...RETURNING" Statements
Task Management	
IDEA-120595 (Bug)	Restore compatibility with JIRA < 4.2
IDEA-122125 (Bug)	"Close Active Task" fail on commit
TypeScript	
WEB-11180 (Bug)	Typescript file watcher existence disables syntax highlighting
WEB-11385 (Bug)	TypeScript: methods of required module type not resolved
WEB-10856 (Bug)	TypeScript: module alias definitions not supported (declare module "aliasModuleName" {...}
WEB-11316 (Bug)	Typescript: Incorrect "Initializer type X is not assignable to to variable type number" error
WEB-11327 (Bug)	#TypeScript exception thrown in resolving + bad code shown good
User Interface	
IDEA-94140 (Cosmetics)	Run Configurations: first configurations of every type is shown below Defaults on creation

IDEA-122049 (Bug)	Mac messages: in some cases parent window is incorrectly detected
IDEA-122377 (Bug)	Don't show 'Plugin xxx failed to initialize and will be disabled' dialog in test mode
Version Control	
IDEA-117753 (Usability Problem)	Git Log: filter should trim leading spaces
IDEA-117920 (Usability Problem)	New VCS Log should remember long edges settings
IDEA-115902 (Cosmetics)	VCS-log: visual artifact on multi-repo root indicator
IDEA-121969 (Task)	Don't load changes details on start
IDEA-121990 (Bug)	Filter by old branch fails with exception if full graph is not loaded
Version Control. Git	
IDEA-121875 (Task)	Git log: Manually sort loaded commits by date
IDEA-122086 (Bug)	The log is not refreshed after cherry-pick with auto-commit
IDEA-119453 (Bug)	After conflicting merge 'git commit' should be called without "--only"
IDEA-120142 (Bug)	Git commit hook error messages no longer display
IDEA-121992 (Bug)	Git Log: after amend commit filtered log is not updated
IDEA-118328 (Exception)	Git Log: AE: Already disposed at com.intellij.openapi.components.impl.ComponentManagerImpl.getPicoContainer
IDEA-122051 (Exception)	NPE at com.intellij.vcs.log.ui.filter.UserFilterPopupComponent$VcsLogUserFilterImpl$1.fun
Version Control. Mercurial	
IDEA-122310 (Usability Problem)	Hg: "push as new remote branch" should not require me to check "Branch"
IDEA-122035 (Bug)	Hg Log: on selecting branch filter == tip the empty log is shown
IDEA-122148 (Bug)	Mercurial: Log: Highlight Not-Picked Commits button is useless
IDEA-122358 (Bug)	Push should use 'default' path by default
IDEA-122032 (Exception)	Throwable at com.intellij.vcs.log.graph.GraphColorManagerImpl.a
IDEA-122034 (Exception)	Throwable at org.zmlx.hg4idea.command.HgStatusCommand.parseChangesFromResult
