

Scala Plugin Roadmap

Welcome to Scala IntelliJ IDEA Plugin Roadmap. This is short term roadmap due to Scaladays 2014 conference.

- Better error highlighting
- Better performance
- Smarter completion
- ~~Implicit parameters/conversions debugger~~
- ~~Import management improvements, including sorting/grouping in optimize imports feature~~
- Scala support in Upsource
- ~~Improvements in project configuration (replace Scala Facet by compiler library)~~
- SBT Server (?)
- SBT Console/Tasks
- ~~HOCON format support~~
- Interactive mode in Scala Worksheet
- ~~Support for `->` and `=>` special characters~~
- Extract method improvements
- Extract Trait
- ~~Postfix templates~~
