

0xDBE 1.0 EAP 142.2675 Release Notes

DBE-1333	Postgres' name on a Windows splash screen
DBE-1323	Diff the results of 2 queries in a tabular view
DBE-1324	Show Diffs Of CSV Using Data View
DBE-1302	Data Sources and Drivers: editing Schemas and Tables and Apply causes "Error Loading" message
DBE-1314	Support sql server escaping in delimited identifiers
DBE-1215	Sql console: current schema in not remembered upon restart
DBE-1330	Function Editor: Refresh action refreshes all opened views for the same DB object
DBE-1279	locked by transaction: @editor:<MYSCHEMA.BAR>
DBE-908	MSSQL Console: all commands in console are executed together after upgrading 0xDBE
DBE-1319	PostgreSQL aggregate FILTER clause
DBE-444	Oracle public synonyms are not resolved
DBE-1285	MS_SQL: Cannot insert a row with the table editor for SQL Server when IDENTITY_INSERT is set to OFF for that table's primary key.
DBE-631	MS SQL: no Parameter Info for stored procedures and functions
DBE-1073	MS SQL inspection wrong assumptions
DBE-1269	configured colors are not shown in the 'choose connection' menu when executing sql files
DBE-417	Combined usage of CTE and variables
DBE-340	mssql - variable declarations are not included in queries
DBE-1096	MS-SQL: Alter column does not autocomplete
DBE-1120	MS-SQL: Live template alias autocomplete suggests non alpha character
DBE-1260	Good code marked bad - Column is invalid ... GROUP BY
DBE-1264	MSSQL: valid query with OFFSET and FETCH works not correct
DBE-238	Not obvious how to create a new SQLite database
DBE-442	Stream Data for Save/Copy to File
DBE-356	Copy query result to file: java.lang.OutOfMemoryError
DBE-20	0xDBE: the project opened before leaving the application is not remembered
DBE-956	Table Editor: allow to edit PostgreSQL arrays
DBE-1280	(Not a bug, can be closed) No route to host when using a ssh keypair login
DBE-700	PostgreSQL 9.4 filter clause support
DBE-1304	ClassCastException: at com.intellij.sql.script.SqlScriptModel.getResultTypeInner(SqlScriptModel.java:140)
DBE-613	Postgres SQL & SET search_path TO
DBE-1187	JSON/JSONB PostgreSQL operator support
DBE-1270	EXPLAIN UPDATE (valid in Postgres) causes syntax error + inability to execute it (UPDATE executes instead)
DBE-1299	Postgresql syntax highlighting in HAVING clause
DBE-107	Data Source: recognize Oracle URL with SID [Data source setup - start with URL]
DBE-1292	Built-in CSV viewer: cannot add new rows in the table view
DBE-267	Cannot insert new row in a SQLServer table when using auto-incremented id columns
DBE-787	Table Editor: PostgreSQL: cannot add a row of only generated values

DBE-1293	NPE when running an XML query
DBE-221	Custom Type Handling/Coercion
DBE-422	Add object type grouping for tree in Database tool window
DBE-1282	Wrong values when copying big numbers to DB
DBE-502	Database: path to the file in Choose File to Save Data to File dialog is not saved
DBE-1266	"No factory for content type=runner-grid" exception when drag-and-drop the tab
DBE-1261	There is no upper limit to the number of database results tab
DBE-1262	If there is an empty line at the end of CSV file, then when insert data in Data tab - it is saved with one row behind
DBE-705	Oracle NUMBER columns are not being displayed correctly
DBE-1255	Data Viewer shows incorrect result
DBE-1238	Develop tips of the day for plugins, Git, Terminal and Go To Symbol FQN
DBE-293	JSON editor for Postgres
DBE-219	Visual data compare
DBE-1217	SQL console data view results: when query a table and a view at the same time - it is not possible to insert a row in a queried *table*
DBE-1103	Database Result Set Page indicator
DBE-1226	Displaying total number of rows in query
DBE-1241	Provide more pagination information on results exceeding "Result set page size"
DBE-1245	LIMIT - OFFSET in DB2
DBE-83	Allow support for Oracle tnsnames
DBE-1250	Getting empty Result window and exception on valid query
DBE-1121	Not possible to edit HSTORE fields in postgres DB
DBE-1173	Postgres Hstore columns rendered incorrectly with JSON extractor
DBE-1179	Data Sources and Drivers: label too small on High DPI.
DBE-1246	PostgreSQL - Schema view and "Copy DDL" incorrect on NUMERIC(x,x) types
DBE-1230	Scrolling sometimes slow / jittery / sluggish
DBE-1227	TableDiff: flicker on scroll
DBE-1181	Missing keyword definitions in db2 dialect
DBE-1228	TableDiff: compare with open tables
DBE-1232	Add visible hint what the current query executed with CMD-Enter would be
DBE-1218	Unable to exit full-screen mode on OS X, dock and windows controls are buried.
DBE-1201	PostgreSQL: date editor cannot be used to edit columns with 'interval' data type
DBE-1116	Table Editor: timestamp value is not submitted if some fields were changed manually and focus was not moved
DBE-1213	unknown db2 functions
DBE-319	Joins Produce Ambiguous Column Names
DBE-1220	Exceptions in parameter name/value highlighter in Insert statements
DBE-142	Date editor is weird
DBE-1114	row position is not preserved when transposing
DBE-1216	Data extractor for update sql with blob values does not generate correct hex string

DBE-1214	Transpose action to be available from context in data view
DBE-1200	Table Editor: editor for boolean columns does not commit change of cell values
DBE-527	DDL data source not synchronized when sql changes
DBE-958	StreamException: exception at IDE start
DBE-201	Provide a way to see Oracle object compilation errors
DBE-1111	Highlight values in SQL insert prepared statements by placing cursor on field
DBE-1191	Database window steal focus when executing multiple statements
DBE-1189	HP Vertica support
DBE-1131	Spinner shows up when there are more than one set of results
DBE-859	DB2: Good code is red: current timestamp + 1 days
DBE-1174	0xDBE-141.191 crashes on startup on Mac (Yosemite)
DBE-1175	Stored procedure debug
DBE-1145	Cannot remove or add columns in CSV data view
DBE-1171	Consoles: newly created file isn't shown at Files / Scratches / DB Consoles
DBE-62	Cannot open procedure in a package (Oracle)
IDEA-141666	Show Visualization... in Database tab is not working
IDEA-140743	Database: MySQL data source tree view shows only empty schema nodes
IDEA-141707	IntelliJ not showing Oracle datatype correctly, Oracle Long Raw shows as Blob in Database browser
IDEA-139365	database console locked by transaction
IDEA-138172	Cannot use Database console when connection to database user account is read-only
IDEA-106800	IDEA incorrectly exports tabular data from database console in CSV format: each value is wrapped inside " even if this is not necessary
IDEA-141435	Database integration: Access is allowed from event dispatch thread only
IDEA-141393	Renaming a database tab does not change the name in the Database console
IDEA-141359	High memory using when using database console
IDEA-79370	Data sources table views: numeric values could be aligned to the right cell border
IDEA-106036	database 'save to file' -> TSV produces empty file
IDEA-126322	Over-eager appearance of "Data" tab
IDEA-136465	Ctrl+Enter no longer working in .sql files
IDEA-140970	F2(Edit Column) does not work in DB Console Result View
IDEA-140910	SQL Server view definitions are fragmented
IDEA-133099	SQL editor loses focus when results are returned
IDEA-140147	Project Data Source falsely complains "driver files not downloaded"
IDEA-140385	Can't add new Data Source to project
IDEA-140745	Database table editor: BINARY_FLOAT value is rounded differently in editing and view modes
IDEA-140744	Database: CCE at DbDataSourceImpl.populateState() on adding a file with trigger definition to a DDL data source
IDEA-131762	Database console + tab title limit = SIOOBE at StringUtil.getShortened()
IDEA-140412	Query results not being reloaded/refreshed from database (Database Console, MySQL)
IDEA-140348	Can't commit to MySQL database with "Database tools and SQL" plugin

IDEA-101066	Can't edit PostgreSQL table field with enum type
IDEA-140356	Table editor does not fully display JSON columns in Postgres
IDEA-140324	SOE at com.intellij.ide.navigationToolbar.NavBarModel.a
IDEA-140269	SQLite Support
IDEA-88371	Table editor: Oracle BINARY_FLOAT and BINARY_DOUBLE values could be editable
IDEA-102914	Database: path to the file in Choose File to Upload dialog is not saved
IDEA-139849	Editing PostgreSQL jsonb field should allow the field to be edited / updated as text field
IDEA-139177	Database console does not show results when open in 2 projects
IDEA-135624	SQL Console: failure when querying table in H2 with a clob field
IDEA-139140	Database table editor: autocomplete no longer works in filter
IDEA-136342	Wrong commands written in database console log
IDEA-138616	intellij data extractor update sql with blob
IDEA-138638	Database Table Editor : "find/search for" default behaviour when typing
IDEA-137184	Cannot clear database console
