

IDEA X EAP

What is Early Access Program

We at JetBrains believe that making tools for developers should greatly involve listening to developers. Our Early Access Program lets development community closely participate in discussions devoted to IntelliJ IDEA and influence development planning, from early stages onwards. Early Access Program allows you to try pre-release versions of our software to evaluate features that will be added to the next release.

Be Careful

It is important to distinguish EAP from traditional pre-release software. Please note that the quality of EAP versions may at times be way below even usual beta standards.

What is IDEA X?

"IDEA X" is the codename for IntelliJ IDEA version 10.

Download IntelliJ IDEA Ultimate EAP

[IntelliJ IDEA 10.0.3](#)

You need to have a valid IntelliJ IDEA 10 license in order to use this EAP build.

Download IntelliJ IDEA Community Edition EAP

[IntelliJ IDEA 10.0.3](#)

Plugin Development Kit: Since the open-source Community Edition was released, we no longer provide the plugin development kit as a separate download. Please see <http://www.jetbrains.org/display/IJOS/Writing+Plug-ins> for instructions on setting up a plugin development environment.
