[TeamCity 9.1.4 \(build 37293\) Release Notes](#)

[TeamCity 9.1.5 \(build 37377\) Release Notes](#)

Feature

- [TW-43484](#) - Add.NET runtime agent requirement based on NuGet.exe version in use

Usability Problem

- [TW-42756](#) - Visual Studio Tests runner settings are unclear in 9.1.3
- [TW-43431](#) - Failure conditions for code coverage metrics don't include "Branch Coverage" for jacoco plugin

Bug

- [TW-10090](#) - Build may be not stopped on disconnected agent (build runs until manually stopped)
- [TW-41442](#) - I have builds in the build queue that are not processing
- [TW-42664](#) - ArtifactPublishingFailedException: String index out of range: -8
- [TW-43113](#) - NuGet Feed Credentials: Feed URI should be normalized when forming list of credentials to pass to nuget.exe
- [TW-43449](#) - NuGet: Publish step doesn't work with NuGet 3.3 and NuGet Feed Credentials build feature
- [TW-43546](#) - Exception while connecting to TFS server: Unexpected end of file
- [TW-43563](#) - NuGet Runner targets .NET 4.0 but requires .NET 4.5 to be installed
- [TW-43582](#) - IntelliJ plugin: TeamCity actions leak project
- [TW-43595](#) - Custom run build dialog: Cannot Shift-select text in parameter name
- [TW-43636](#) - NUnit 3.0 x86 blows up
- [TW-43659](#) - Wrong text field lengths in copy project dialog on main administration page
- [TW-43661](#) - NPE on add build step in REST api
- [TW-43714](#) - HTML is not well -formed XHTML: not closed link "tag"
- [TW-43726](#) - VCS error is not cleared if VCS root has changed in build configuration due to external change (on disk or by commit in versioned settings)
- [TW-43760](#) - VSTest.console execution failed (VSTest 2015)
- [TW-43764](#) - If email verification action is initiated, log it with normal level instead of debug
- [TW-43766](#) - Strange logging on the agent (Number of vcsRootEntries)
- [TW-43786](#) - Confusing documentation on using NUnit from MSBuild (Nunit 3 case)
- [TW-43789](#) - Build can be cancelled if runBuild XML RPC call is slow for some reason
- [TW-43802](#) - "-StreamCopy" threads can be left after errors communicating with Git repository (timeout stopping server)
- [TW-43813](#) - No way to see verbose lines in the build log of a queued build
- [TW-43839](#) - Improve logging on Perforce workspace deletion during agent-side checkout
- [TW-43866](#) - Build can fail with "Failed to perform checkout on agent: You don't have permission for this operation." on clean checkout with Perforce agent-side checkout
- [TW-43867](#) - Make remember me cookie expiration time configurable
- [TW-43875](#) - Bundled IDEA does not have Guice plugin (wrong inspections related to Guice)
- [TW-43891](#) - Commit is not shown in Changes popup of running build.
- [TW-43921](#) - Visual Studio Tests step fails with NullPointerException
- [TW-43953](#) - The duplication of tests' output in the TC build log for NUnit 3 tests
- [TW-43954](#) - Remove "binpath" attribute from NUnit 3 project files
- [TW-43956](#) - Remove "Run a process per assembly" checkbox from NUnit 3 runner settings
- [TW-43961](#) - NuGet plugin size increased significantly (from 6Mb to almost 20Mb)
- [TW-43970](#) - Documentation for predefined keys not working
- [TW-43972](#) - VS2015 cannot read my feed
- [TW-43983](#) - Registered agent can be displayed on Disconnected tab with the 'Ping failed, check firewall on agent machine' reason
- [TW-43986](#) - The 'compared to' option is not selected for new failure condition on metric change
- [TW-43992](#) - EC2 agent can register twice (consuming 2 licenses)
- [TW-43998](#) - Server startup can be slow because of temporary tables listing in SQL server

- [TW-44011](#) - Number of files not reported on build Changes tab

Exception

- [TW-21954](#) - Errors in catalina.out after Shutdown Server Complete

Performance Problem

- [TW-43958](#) - Database connections can occupy significant amount of memory
- [TW-44043](#) - Disk usage (re)scan should not load disk subsystem too much

Cosmetics

- [TW-43877](#) - Message for "Build configuration has been moved successfully." is unclear
