TeamCity 6.0.2 Release Notes

Feature

- TW-15000 - Add Git support to Create Maven Build Configuration page
- TW-15217 - Expose related P4 environment variables when using Perforce checkout on agent

Usability Problem

- TW-14454 - TeamCity Plugin for Eclipse displays an empty Failed Tests View when attempting to view information on a build configuration without failed tests.

Bug

- TW-5300 - Use log4j configuration for VCS debug logging
- TW-12798 - Build hangs when running tests on Win 2003
- TW-14159 - OutOfMemoryException when triggering personal build with large files
- TW-14285 - "Issue not found" for Jira connection: Argument 2 for @NotNull parameter of jetbrains/buildServer/issueTracker/IssueData.<init> must not be null
- TW-14818 - Do not remove IDEA coverage results files if they created after the build start
- TW-14959 - dotCover should produce descriptive warnings on no code coverage collected
- TW-14969 - Saving a priority class pops up an error message
- TW-15008 - Mercurial plugin does not detect changes in merge commits
- TW-15016 - Current problems may contain incorrect information for a failed test
- TW-15026 - TFS server plugin leaks TC-TFS* folders under server's TEMP
- TW-15033 - IntelliJ IDEA Project build runner creates .JAR files with duplicated .class when final .EAR contains cyclic dependencies
- TW-15052 - TeamCity not retrieving all changes from TFS
- TW-15059 - Out of memory in JavaC in Team City version 6
- TW-15065 - Nant build runner target framework selection doesn't work
- TW-15092 - TeamCity 6 Maven runner is not accepting MAVEN_OPTS properly
- TW-15100 - Build feature parameters are not validated
- TW-15103 - org.codehaus.plexus.component.repository.exception.ComponentLookupException at end of Maven project run
- TW-15135 - Inconsistent build trigger description for personal builds
- TW-15141 - Strange message when submitting pre-tested commit
- TW-15155 - Windows tray notifier does not upgrade
- TW-15167 - Using the same target archive file name when publishing artifacts produces wrong archive content
- TW-15170 - Incorrect selection in agent requirement Edit dialog
- TW-15175 - EA-24978 - assert: Alarm._addRequest
- TW-15205 - IDEA coverage does not generate coverage report if there is one more step in the build

Exception

- TW-14871 - There is no Application Shell running.
- TW-14980 - TeamCity 6 upgrade - Java compiles began failing with "java.lang.InternalError: Can't connect to X11 window server using 'localhost:10.0' as the value of the DISPLAY variable"
- TW-15121 - Unable to collect changes - NullPointerException
- TW-15127 - Must specify valid information for parsing in the string.
- TW-15133 - EA-24892 - CNFE: PluginClassLoader.loadClass

Performance Problem

- TW-15083 - SVN externals caches mostly do not work

Cosmetics

- TW-15045 - Issue Tracker error: Error decoding XML-RPC response
- TW-15102 - Misspelling on Local Changes dialog
