

RubyMine 2020.1 (201.6668.156 build) Release Notes

No subsystem	Bug	RUBY-26063	Missing space in No Ruby SDKs found notification
Core	Bug	RUBY-26002	Don't allow querying type of calls that are passed blocks
	Bug	RUBY-26024	indent guide does not reach the end of the method block
	Cosmetics	RUBY-25909	Fix the Action name in `bundle` for run anything to all be lowercase
Lang. ERB	Bug	RUBY-24197	.js.erb files cannot handle ES6 syntax
Remote Interpreters	Feature	RUBY-25943	Unified SSH: When no SSH configs added, SSH Configurations window shows only 'Nothing to show' text
	Bug	RUBY-25948	Credentials for SSH deployment configuration are gone when going back from RubyMine 2020.1 EAP6 to RubyMine 2019.3.3
	Bug	RUBY-25942	Unified SSH: drop list SSH configuration doesn't show whole text when no SSH configuration created
Remote Interpreters. Docker	Bug	RUBY-25111	Cannot stop rails application running with docker remote interpreter
	Task	RUBY-25927	Change text of Ruby Docker Settings
Ruby. Code Completion	Bug	RUBY-22477	Incorrect path completion in require_relative
	Bug	RUBY-25841	Don't display constants twice in completion
Ruby. Code Insight	Bug	RUBY-25891	Incorrect detection of overridden method
Ruby. Debugger	Bug	RUBY-25997	Debugger skips breakpoints in case of enabled coverage (ruby <2.5.0)
	Bug	RUBY-26009	Debugger doesn't stop on a breakpoint in case of inheritance from BasicObject
	Bug	RUBY-25996	Attach to process doesn't show any processes in case of remote interpreter
	Bug	RUBY-25553	fails to step into super
	Bug	RUBY-26078	RM doesn't show correct methods to step into if method called with parameters
Ruby. Inspections	Bug	RUBY-25995	Incorrect highlight for "incorrect argument count" when no args passed
	Bug	RUBY-25360	The replace safe navigation operator with nested nil checks doesn't work with query methods
	Bug	RUBY-25988	"!" and "?" symbol key suffixes are not ignored by the spell checker
	Bug	RUBY-25916	Unnecessary "Parameter shadows an outer parameter" inspection for underscore variable
	Bug	RUBY-25508	False positive 'Incorrect call argument count' inspection
	Bug	RUBY-25687	False missing argument error is shown for .select method
	Bug	RUBY-23617	Incorrect fix for unused local variable
Ruby. Parsing	Feature	RUBY-24952	Update numbered parameters support to the new '_' syntax instead of '@'
	Bug	RUBY-25968	Syntax errors in tap and do block
	Bug	RUBY-26006	RubyMine freeze on parsing a file
Ruby. Run Configurations	Bug	RUBY-25869	RubyMine opens an incorrect browser page when the 'Start JavaScript debugger' option is enabled
Ruby. Tests	Cosmetics	RUBY-25880	Rename Test::Unit to Minitest in a Rails view
Ruby. Type Inference	Bug	RUBY-26008	Missing types in standard library stubs
	Bug	RUBY-25953	Type checking does not happen for keyword arguments

Ruby. Version Managers	Bug	RUBY-25186	RVM Not playing nicely with 2018.3.1+ and RVM 1.29.9
Core. File System	Bug	IDEA-65174	OS fsnotifier unable to see changes under symlink/subfolders until restart/no notifier works correctly.
Core. IDE Settings	Bug	IDEA-235697	Settings search via "Find Action" doesn't work
	Bug	IDEA-235940	SSH Configurations steal focus
	Bug	IDEA-235325	After Restore Default Settings invocation IDEA treats the plugins incorrectly
	Bug	IDEA-235413	AbstractTreeUi.myElementToNodeMap leaks reference to configurable of unloaded plugin
	Bug	IDEA-235713	Don't automatically import configs for debug IDEA instance
	Bug	IDEA-235857	"Cannot read scheme" - IDE fails to load its own configuration xml file from .idea folder if the file contains byte-order mark
	Bug	IDEA-233857	Do not check "Visible only for this project" by default when create SSH configuration
	Bug	IDEA-233499	Rename SSH configuration dynamically
	Usability	IDEA-233305	Provide ability to start the IDE with an empty config
	Usability	IDEA-234079	Show Import Config dialog if idea.config.path is explicitly specified in vmoptions.
	Task	IDEA-233301	Log the automatically imported configs
	Exception	IDEA-226651	Internal error when create Desktop Entry
Core. IDE Settings. Sharing	Exception	IDEA-234617	java.lang.Throwable at com.intellij.cloudConfig.CloudConfigManager.connectThisInstanceOperation
Core. Indexing	Exception	IDEA-231678	AE at com.intellij.util.indexing.MemoryIndexStorage.setBufferingEnabled
Core. Installation	Bug	IDEA-233816	Symlinked Rubymine Configuration leads to being unable to open multiple projects via CLI
	Bug	IDEA-236950	WebStorm upgrade from 2019.3.4 to 2020.1: conflicts in installation area
	Bug	IDEA-235899	On updating IDEA, a new Python plugin version is downloaded but not actually installed
Core. Licensing	Bug	IDEA-231811	Excessive number of writes to idea.key
	Cosmetics	IDEA-227658	Date in license dialog is not fully visible
Core. Platform API	Feature	IDEA-234013	Add Extension Point to contribute additional details into About popup
	Bug	IDEA-233783	Deadlock in InterfaceExtensionPoint
Core. Plugin Management	Bug	IDEA-236699	Welcome Wizard: disabling default plugins doesn't work
	Bug	IDEA-235025	IDEA freeze on Spring Messaging plugin disabling
	Bug	IDEA-235397	Unreadable error message
	Bug	IDEA-234528	Can't execute shell script after enabling shell plugin without restart
	Bug	IDEA-233742	Bundled dynamic plugin become downloaded and has strictly defined version after disable/enable
	Bug	IDEA-235945	Plugins, installed during IDE customization, not-installed after IDE launch
	Bug	IDEA-234729	Restart suggestion not always shown on plugin unload failure
	Bug	IDEA-234122	Exception and freeze on disabling Markdown plugin when .md file is opened
	Bug	IDEA-235176	Do not suggest plugins supporting exact filenames for files already supported by exact filename by installed plugins
	Usability	IDEA-231815	Treat the situation when both bundled and downloaded plugin exist more user-friendly
	Exception	IDEA-234123	Exception on enabling Commander plugin

	Exception	IDEA-234030	Exceptions when invoking Search everywhere after disabling HTTP Client plugin
	Exception	IDEA-230987	Throwable at com.intellij.util.indexing.FileBasedIndexImpl.dropRegisteredIndexes after updating plugins
Core. Project Settings	Bug	IDEA-232634	IJ 2020 EAP regression for project hot reload after 'gradle idea'
	Bug	IDEA-230707	unable to multi select when adding library dependency
	Bug	IDEA-229737	Empty error message box on stopping JDK downloading
Core. Quick Documentation	Bug	IDEA-235078	JavaDoc: Empty space before parameters in rendered documentation fragment
	Bug	IDEA-229804	Quick doc on hover is shown after mouse moving away from editor area
	Cosmetics	IDEA-208369	Don't show module in quickdoc for local declarations
Core. Run. Configurations	Bug	IDEA-235725	WSL2: unable to run application
	Bug	IDEA-235710	Rider: incorrect run configuration share location being shown in the run configuration editor
Core. Run. Targets	Bug	IDEA-236232	[run.target] Pull docker target always pulls "latest" tag, even for "openjdk:8"
Core. SSH	Feature	IDEA-234840	Custom name and rename for SSH config
	Bug	IDEA-236520	SSH configuration changes disappear from Settings dialog on Apply pressing
	Usability	IDEA-236191	Add button to rename ssh config to toolbar
Core. Statistics	Bug	IDEA-233990	Data sharing dialog is shown twice
Editor. Editing Text	Bug	IDEA-233340	Hitting <Tab> at the end of the buffer leaves the editor and goes to the sidebar panel
	Bug	IDEA-232792	Double click on a parameter does not highlight usages in function
	Bug	IDEA-235703	In-editor Javadoc leaves large gap between comment and code
	Usability	IDEA-235716	Broken GoTo (ctrl+click) in rendered javadocs
Editor. Formatter	Bug	IDEA-231481	Detected file indent does not seem to be invalidated after the code is fully re-formatted
	Bug	IDEA-230976	IDEA is modifying .idea\codeStyles\Project.xml
	Bug	IDEA-233647	Log contains too many ' INFO - rojectCodeStyleSettingsManager - Saving Project code style '
Editor. Intention Actions	Bug	IDEA-233784	Intention preview: Infinite loading and exception(Should be invoked only when having a document)
Editor. Large Files	Bug	IDEA-234404	[Large File Editor] AssertionError: File text mismatch
	Bug	IDEA-234864	[Large File Editor] AssertionError: file/doc text length different
Editor. TextMate Bundles	Bug	IDEA-232235	'<' in HTML DOCTYPE is highlighted as bad character when using textmate bundles
Lang. Shell Script	Bug	IDEA-229741	New Shell Script Run Configuration breaks Debugging of Java applications when using shell script in before launch setup
Tools. Docker	Feature	IDEA-219125	Docker. Support --gpus command line option
	Bug	IDEA-234261	DockerCompose: completion should work for images in quotes
	Bug	IDEA-235678	Docker: error about parsing this key for some forms of --gpus
	Bug	IDEA-234250	Docker. Image Console: the old Pull dialog is called from context menus and via buttons
	Bug	IDEA-234210	Docker: support `--sysctl` in docker run configuration CLI options
	Bug	IDEA-233884	Docker: inspect container doesn't work
	Bug	IDEA-216531	Docker: support custom credential stores / helpers

	Bug	IDEA-234229	Docker. Pull images. No result by completion with one symbol
	Bug	IDEA-234231	IOException: Pipe broken, pipe id: `ImagePullPanel.pipe:plug` at attempt to pull an image
	Bug	IDEA-234265	DockerCompose: provide inspection errors for invalid images format
	Bug	IDEA-234944	DockerCompose: Add navigation from images in quotes to the docker hub
	Bug	IDEA-234233	Docker: Don't pull all the images by "tomcat: "
	Performance	IDEA-235826	Rider freezes after Clean and Build inside DockerFileDetector
	Usability	IDEA-234994	Recognize Dockerfile.jvm and Dockerfile.native as docker files
	Usability	IDEA-234982	Docker: Set focus at console command line by Exec->bash on a container
	Cosmetics	IDEA-232754	Docker Plugin - bad English in error message when plugin can't reach file system root
	Task	IDEA-234571	Internationalize Docker plugin. Round 2
	Exception	IDEA-234266	java.util.concurrent.ExecutionException at completion for invalid tags
	Exception	IDEA-233998	IDE exception when trying to run Dockerfile configuration with `Run build image` option disabled
	Exception	IDEA-233298	Docker: com.github.dockerjava.api.exception.InternalServerErrorException at calling Exec command
Tools. HTTP Client	Bug	IDEA-234435	Generate HTTP Request: correctly treat read-only files
	Bug	IDEA-234891	Can't rename host in http client
	Bug	IDEA-234539	HTTP Client: Server base path marked as red without error
	Bug	IDEA-235298	HTTP Client: Can't generate all requests from MultipleBasePaths yaml specification
	Bug	IDEA-234388	Provide more fast way to create HTTP Request via gutter.
	Bug	IDEA-234656	Completion hint is disappearing after "clear read-only flag" dialog
	Usability	IDEA-234659	Add text and selection in template
	Usability	IDEA-234739	Http Client: more comfortable "move refactoring"
	Task	IDEA-235567	Add FUS to generation in HTTP Editor
Tools. Terminal	Bug	IDEA-234406	Split sessions are lost when moving terminal tab to the editor – disable the action for split sessions
	Bug	IDEA-234503	Provide keyboard navigation between split terminals
	Exception	IDEA-234523	Throwable when move terminal tab to editor
User Interface. Accessibility	Bug	IDEA-234385	Screen reader does not read "Search Everywhere" dialog name when it is invoked
User Interface. Action System	Exception	IDEA-234033	NPE at com.intellij.openapi.actionSystem.impl.ActionManagerImpl.unregisterAction
User Interface. Focus	Bug	IDEA-235551	Esc does not return focus to Editor from Find panel if a toggle is focused
User Interface. Look and Feel	Bug	IDEA-206402	Mac proxy icon missing in the title bar
	Bug	IDEA-235462	Extra space in "New file" dialog
User Interface. Project View	Bug	IDEA-223785	Project Tree view during Drag/Drop horizontal scroll is jarring and gets in the way
	Usability	IDEA-231440	can i control `details in tree view` format?
Version Control. Git	Bug	IDEA-234159	Changes of submodule objects do not appear in Local Changes
	Bug	IDEA-234426	AssertionError when opening changed project file in light mode on Windows
	Bug	IDEA-234795	Can no longer select differences in new commit tab

	Bug	IDEA-234374	Strange sorting when "Group by directory" is enabled
	Usability	IDEA-174600	Git Interactive Rebase dialog: allow to remove commit via Backspace or Delete
	Usability	IDEA-216780	Amend button is undiscoverable
	Usability	IDEA-233381	After restart selected tab is switched from "Local Changes" to "Log"
Version Control. Mercurial	Bug	IDEA-233629	Mercurial auth script is not compatible with older python versions.
	Exception	IDEA-233283	update failed for AnAction with ID=hg4idea.CompareWithBranch
Version Control. Subversion	Bug	IDEA-234491	Cannot checkout Subversion project from Welcome screen
No subsystem	Feature	WEB-44187	Run Prettier on save - add jsx and tsx files by default
	Bug	WEB-43941	VueJS plugin with vuex-smart-module not working in IntelliJ IDEA v 2019.3 with destructuring assignment
	Bug	WEB-42930	Duplicate script tag message for multiple <script> tags in Laravel Blade file
	Bug	WEB-44221	Completion for object literal properties with "this." behaves incorrectly for TypeScript explicit this specifications
	Bug	WEB-44149	Run prettier on save triggers in other project "Non-Project Files Protection
	Bug	WEB-44183	Remove inspection 'Unresolved JavaScript variable' from injections
	Bug	WEB-44076	IndexOutOfBoundsException when Introduce field
	Bug	WEB-44222	Completion for object literal properties with 'this.' doesn't properly handle non-identifier property names
	Performance	WEB-43007	Import optimization in TypeScript is too slow to be used as a trigger on save
	Usability	WEB-44108	Improve presentation of long paths
	Task	WEB-44295	Do not show browser icons in XML files
	Task	WEB-44337	Bundle the Grazie plugin with WebStorm
CoffeeScript	Bug	WEB-35585	support dynamic imports in coffeescript
Dart	Task	WEB-44167	Create 'Dart Web' run configuration type by default to run/debug Dart web applications
Debugger	Bug	WEB-44064	Electron Main Debug Not Working
	Bug	WEB-44400	When re-run failed Karma tests in debug mode, debugger doesn't stop on breakpoint
	Bug	WEB-44313	JS Debugger: problems with source resolution when content is symlinked
	Bug	WEB-43747	When attaching to a running Mocha test, debugger doesn't consider breakpoints in the first launch
	Bug	WEB-44306	Reference Error in the list of threads when debugging an npm script with nodemon
	Bug	WEB-44425	Apply 'do not step into' to library roots other than 'node_modules'
	Bug	WEB-44245	Debugger works improperly
	Usability	WEB-43215	Remove line separator between input and corresponding output in JavaScript debug console
	Usability	WEB-43277	Replace Drop Frame with Restart Frame action
HTML	Feature	WEB-40474	Support Vue in HTML files containing a Vue CDN or local file link
	Performance	WEB-43760	UI freezing because of calling XmlTag#getDescriptor on EDT
JavaScript	Feature	WEB-44208	Inject TypeScript JSX and TSX when `jsx` and `tsx` language tags are used
	Bug	WEB-43955	Show empty custom JSDoc tags in quick documentation
	Bug	WEB-44168	Can't go to declaration for modules imported from sub namespaces.

Bug	WEB-42929	Type hint of "this" keyword malfunctioning in WebStorm.	
Bug	WEB-44256	TypeScript constrained @template in jsdoc	
Bug	WEB-38447	Properties defined with ES6 getters/setters are shown as functions in quick documentation	
Bug	WEB-43689	Resolve for symbols from JavaScript libraries doesn't work in test files in IntelliJ IDEA	
Bug	WEB-44308	Inline function should parenthesize object literals if inlining inside shorthand arrow	
Bug	WEB-41997	an unresolved identifier "type" is highlighted as a used local var	
Bug	WEB-44255	JSX: parse several consecutive tags	
Bug	WEB-32548	Remove redundant escape quickfix breaks the regexp	
Bug	WEB-42099	incorrect classification of a for on loop variable as global	
Bug	WEB-31303	Quick Doc: Markdown: recognize table syntax	
Bug	WEB-44177	Inspection 'Unused global symbol' doesn't work for methods whose name consists of one / two letters	
Bug	WEB-38449	Show inferred type in completion when using ES6 getters/setters	
Bug	WEB-36237	Structure view: different view of Setter & Getter in js & ts	
Bug	WEB-43923	JavaScript: Vue 2.6.11 not properly analyzed	
Bug	WEB-44175	No autocomplete on material-ui createStyles in pure JS	
Bug	WEB-44370	Exception showing JSDoc comment containing "pre" tag	
Bug	WEB-44008	Incorrect import from Node.js core modules	
Bug	WEB-44162	Quick documentation is empty	
Bug	WEB-37405	Javascript RegExp error: Unclosed character class	
Bug	WEB-36755	No autocompletion if npm package's package.json doesn't contain types property	
Performance	WEB-44069	Quick Documentation: Fetching documentation takes a lot of time (~5 sec)	
Usability	WEB-44119	fn.call() does not prompt import	
JavaScript. Frameworks	Feature	WEB-44180	Angular: Support new Ivy metadata format and enable Ivy by default
	Feature	WEB-41565	Vue: Support for Composition API
	Feature	WEB-44371	Vue: improve type evaluation with composition API and support Vue 3
	Bug	WEB-40709	Angular: Component or directive properties inherited from an abstract library class are not recognized
	Bug	WEB-43160	Completion for compound React components from semantic-ui-react
	Bug	WEB-44487	Vue.js: SOE when `include` tag present in HTML file
	Bug	WEB-44140	Incorrect Angular "Missing or invalid component declaration in module" inspection
	Bug	WEB-39018	Autocompletion not working for "react-testing-library" and "dom-testing-library" modules
	Bug	WEB-42364	Angular modules aren't recognized if installed with pnpm
	Bug	WEB-40778	Angular directives with the transloco library
	Bug	WEB-41402	`innerHTML` is not recognized as valid attribute if the brackets are omitted
	Bug	WEB-44388	Wrong Copy and Paste in TSX files
	Usability	WEB-43720	Customizable VueJs language injection
	Task	WEB-42901	Use "npX" as the default option for all generators (that support the npX command)

JavaScript. Inspections	Bug	WEB-44314	JavaScript inspection "Duplicate case label" assumes incorrect comparison operator
	Bug	WEB-30679	JS: invalid "redefining of eval is not allowed" error
	Bug	WEB-42918	"const variable without initializer" from assigning PHP to inline JS, not short tags
	Bug	WEB-44053	False positive 'Expression statement is not assigned or call' inside js expression statement fragment fully injected in a literal
	Bug	WEB-44343	unary operator with exponential operator error
JavaScript. Refactoring	Bug	WEB-44283	Inline function only inlines the first line of the function if used in shorthanded arrow function
	Usability	WEB-43163	Perform inline rename for global top-level symbols used only in the current file or is unused
Live Edit	Bug	WEB-43334	Live Edit in HTML does not work with vue installed via npm
	Bug	WEB-43476	Live edit does not work with XHTML file
	Bug	WEB-37042	LiveEdit HTML element highlight feature not working
Node.js	Bug	WEB-44322	Show brew installations of pnpm in "Package manager" drop-down list
	Bug	WEB-41288	Destructuring makes the variable resolution fails
	Bug	WEB-44392	Show "pnpm install" instead of "npm install" if pnpm configured
	Usability	WEB-25409	node_modules and linked subproject does not refresh automaticaly
Pug (ex-Jade)	Bug	WEB-43803	Syntax error for arrow functions inside objects in Pug
TypeScript	Bug	WEB-39540	Not support tsx in SFC of vue.js
	Bug	WEB-44052	Paired ' or " is not inserted in generics lists before '>'
	Bug	WEB-35365	No autocomplete on material-ui createStyles
	Bug	WEB-44214	Quick documentation shows link only to one related declaration when they are merged
	Bug	WEB-44236	No properties are suggested for conditional type which involves generics
	Bug	WEB-44000	JSDoc: do not show mdn urls for non-standard types from lib.d.ts
	Bug	WEB-42460	Autocompletion suggests properties that are not allowed by TypeScript (generics + property map)
	Bug	WEB-44060	Literal vaules are not suggested in template strings
	Bug	WEB-44137	Optimize incompatible literals and literal vs primitive combinations to 'never'
	Bug	WEB-31257	No 'number'/'string' items in completion for enum members in static context
	Bug	WEB-44046	Type guards are not applied in TSX markup
	Bug	WEB-44037	TypeScript: quick navigate/ quick doc should escape element name from the typescript service
	Bug	WEB-44011	JSDoc: do not expand simple typescript aliases
	Bug	WEB-44335	Show information about an object when calling the quick doc on 'this'
	Bug	WEB-44003	Shouldn't expand conditional types for raw generics
	Bug	WEB-44321	TS: problem with generics in Vue composition API with reactive wrapper.
	Bug	WEB-43997	Incorrect inferring from a type with multiple call signatures
	Bug	WEB-44258	Invalid 'static method is not accessible' for static member access via 'this'
	Bug	WEB-44166	Quick documentation hangs when react HOC is defined
	Bug	WEB-44009	JSDoc: incorrect type presentation for properties
Bug	WEB-44237	Generic constraints are not always taken into account and are buggy with conditionals when expanding generic type to object type	

	Bug	WEB-44394	Resolve is broken when import is shorthand
	Bug	WEB-44160	Incorrect editor highlighting when using generic function as a generic parameter
	Bug	WEB-44312	TS: problems with inference of generic default values of generics
	Bug	WEB-34561	Code completion/types when using the React.createContext-API is inaccurate (with TypeScript)
	Bug	WEB-44273	Number literals are not considered when evaluating possible branches for switch statements (i.e for "create missing switch branch" inspection)
	Bug	WEB-38460	TypeScript: jest.spyOn no longer auto-completes parameter values (2019.1.1)
	Bug	WEB-44262	Typescript readonly parsing with indexed types
	Bug	WEB-28642	TypeScript. Go To Declaration opens base class instead of needed. Idea [2017.2.3].
	Performance	WEB-43982	High cpu usage when editing typescript
	Task	WEB-44105	TypeScript: use quick doc from service for unresolved references
	Task	WEB-44027	Update bundled TypeScript to 3.8
	Task	WEB-44294	Support TS 3.9 awaited type (at least minimally)
Unit Tests	Bug	WEB-44377	Failed mocha tests cannot be rerun in debug mode
	Bug	WEB-43995	'Highlight problem line in test' inspection doesn't work for jest when using WSL node interpreter
No subsystem	Bug	DBE-10189	"Preview update" does not work when table is not introspected
DB Connectivity	Bug	DBE-10087	SSL Handshake Error Connecting to newly built MySQL 5.7.29 Server
	Bug	DBE-10067	Cannot connect to MySQL via SSH with \$ in database name
DB Console	Feature	DBE-8332	Navigation to Execute options from query-chooser dropdown
DB Introspection	Feature	DBE-8674	Display indexes for view
	Feature	DBE-6417	MS SQL: support rules introspection
	Feature	DBE-6868	Support sparse columns
	Bug	DBE-4769	MS SQL/Azure: Support sequences
	Bug	DBE-10298	Stored procedures support in Redshift introspection
DB Refactoring	Bug	DBE-10185	"Preview update" does not work when using alias
Data Import & Export	Feature	DBE-5858	Better error message when importing data
	Feature	DBE-10338	New action: export to database... in the context menu of CSV file
	Bug	DBE-9654	CSV/TXT Import to MSSQL Database without importing an id value
	Bug	DBE-10172	CSV Formats settings are reset on restart
	Usability	DBE-10333	Make CSV extractor default
Data Views	Feature	DBE-4123	Support native excel format export
	Usability	DBE-10307	Text search hides all the other buttons
	Usability	DBE-6414	Databrowser Escape from Search Ctrl-F
	Usability	DBE-8733	Enable "Hide column" actions inside data view
SQL Completion	Bug	DBE-9882	SQL editor needlessly quotes identifiers (tables, columns, stored procedures) for Intersystems Caché databases
	Bug	DBE-9758	Database console autocomplete autoquotes everything in jdbc presto connection
	Bug	DBE-10012	Bad completion for GROUPING SETS

SQL Format and Style	Bug	DBE-10202	Case sensitivity not respected for procedures/functions in packages
SQL Generation	Bug	DBE-10396	Unable to resolve class com.intellij.database.model.DasObjectWithSource
	Bug	DBE-10259	The drop cascade checkbox of the Confirm Drop Schema Dialog does nothing!
SQL Highlighting	Feature	DBE-8365	Redshift stored procedures support
	Bug	DBE-10182	Cassandra 'CONSISTENCY' command is not supported
	Bug	DBE-10273	Good code red: CAST to varchar without length not accepted by DataGrip
	Bug	DBE-10268	PostgreSQL Identity columns syntax check bug
