WebStorm 134.1361 Release Notes

No subsystem	
IDEA-120750 (Feature)	Fold single-statement methods into one line
IDEA-116542 (Usability Problem)	IDE Fatal Errors dialog: cannot reduce its size in case of long message
WEB-11069 (Task)	unexpected vertical scrollbar in Bower integration
IDEA-120629 (Bug)	PluginManager doesn't handle dependencies for plugins specified with idea.load.plugins.id system property.
IDEA-110268 (Bug)	Lossy encoding: false positive for separated 0A/0D as UTF-8
WEB-10967 (Bug)	WebStorm EAP 8: Throws exception when commenting out HTML containing AngularJS bindings
WEB-10964 (Bug)	WebStorm 8 EAP suggests wrong old settings directory on 1st start
WEB-10960 (Bug)	Good code red: replace pattern
IDEA-120941 (Bug)	Stack overflow error from VFS
IDEA-117794 (Bug)	& nbsp; in the message shown in "magnifier" view
IDEA-117734 (Bug)	Clipboard history no longer works by num hotkeys
IDEA-120665 (Bug)	Custom file type identifiers should include underscores
IDEA-121338 (Bug)	Multiple Carets: Menu items for multiple cursors are empty
WEB-11002 (Bug)	require("") breaks JavaScript Libraries
IDEA-120481 (Bug)	Ctrl+Alt+F7 cannot find usages in Selection
WEB-10683 (Exception)	Throwable at com.intellij.openapi.util.IconLoader.getIcon

CSS	
WEB-10820 (Usability Problem)	Break CSS "Missing/Redundant" into two separate inspections
WEB-8342 (Bug)	incorrect css inspection: invalid value: should be integer

CoffeeScript	
WEB-10817 (Bug)	coffeescript parser finds error in valid syntax
WEB-10878 (Bug)	CoffeeScript: Red code: RegExp inside interpolation

Console	
IDEA-120911 (Usability Problem)	follow link by keyboard

Dart	
WEB-9948 (Feature)	Dart: highlight deprecated functions in Editor
WEB-10227 (Feature)	Make Dart plugin compatible with IntelliJ IDEA 13 Community Edition
WEB-10460 (Bug)	Dartium browser startup options
WEB-10626 (Bug)	Dart: Cannot navigate to other classes
WEB-10427 (Bug)	Ask for Dartium location if it is not found in the standard place
WEB-7752 (Bug)	No Dart SDK support for Java projects

WEB-10523 (Bug)	Generator for getter add parens in Dart
WEB-9953 (Bug)	Dart: types completion is broken in some cases
Debugger	
IDEA-109979 (Feature)	The ability to set breakpoints in the breakpoints edit window
IDEA-121294 (Usability Problem)	Toggling breakpoint with a mouse causes unfolding of a section
IDEA-120904 (Bug)	Debugger UI: watch variable text field is shown when debug tool window is hidden
IDEA-81276 (Bug)	Show the current program execution point does not bring hidden windows to front
IDEA-120680 (Bug)	Breakpoints are not shown until indexing finished after IDE start
IDEA-46403 (Bug)	Breakpoint on an empty line
Diff_Merge	
IDEA-120993 (Bug)	Git commit dialog shows incorrect diff
IDEA-121050 (Bug)	Incorrect hint
IDEA-95011 (Bug)	Diff file size limit exception handled poorly
Editor. Code Completion	
IDEA-120976 (Cosmetics)	'Complete' work is mentioned 3 times in a simple sentence
IDEA-121138 (Bug)	Tab completion does not work in autopopup
Editor. Editing Text	
IDEA-121057 (Usability Problem)	Multiple Carets: Alt-N works in "whole word" mode if the whole word is initially selected
IDEA-120719 (Usability Problem)	Accessors folding is not always desirable
IDEA-121182 (Bug)	Plain text autodetection isn't rerun on file content change
IDEA-117902 (Bug)	Commit message wrapping behaves strangely
IDEA-116706 (Bug)	Unselect word at caret doesn't work reversing through lambdarized anonymous class
IDEA-121099 (Bug)	Ctrl + Shift + Arrows doesn't work with multiply cursors
IDEA-121283 (Bug)	Multiple Carets: Alt-J keyboard shortcut should be changed for Mac
IDEA-121011 (Exception)	assertion at DataManagerImpl.java:344
File System	
IDEA-121307 (Bug)	Cannot create new file
File Watchers	
WEB-7909 (Feature)	TypeScript: "Mark as compile target"
WEB-10915 (Bug)	Limit on command for File Watchers?
Find, Replace, Find Usages	
IDEA-120726 (Cosmetics)	Double "Press" word in hint when Find Usages

IDEA-119615 (Cosmetics)	Find in path mixes "occurrences" and "usages" terminology
IDEA-119606 (Bug)	Find in Path settings icon has issues
IDEA-120542 (Bug)	"Find Usages" uses scope of last "Find in Path"
IDEA-114244 (Bug)	Find in path tooltip wrongly parses HTML entities
IDEA-120648 (Bug)	'Whole words only' option works incorrectly in 'Find in Path'
IDEA-83657 (Bug)	Can't find text in files under .idea
HTML	
WEB-10916 (Performance Problem)	Heavy memory usage to the point of crashing
IDE Configuration	
IDEA-120625 (Bug)	Save file as template
JavaScript	
WEB-10214 (Feature)	Support referencing a type in JSDoc comments
WEB-8139 (Feature)	Please add JSDoc 3 @callback support
WEB-11050 (Bug)	Project-level javascript libraries in IDEA
WEB-10898 (Bug)	properties merged into object using $.extend() not suggested by completion when object instance is used as second argument
WEB-10585 (Bug)	Move statement up in JSON/JavaScript literal: Bad comma treatment
WEB-10108 (Bug)	WebStorm hangs on Replace All in javascript file
WEB-11073 (Bug)	Resolve window properties from reference with qualifier of unknown type
WEB-10933 (Bug)	jQuery wildcard inside :not() reported as error ("unexpected token")
WEB-10562 (Bug)	Inside of a JSON files can't edit injected lang ex. html.
WEB-10932 (Bug)	Create a predefined library for ES6 types
WEB-10314 (Bug)	JavaScript autocomplete problem: clicking space immediately inserts autocompleted value
WEB-10917 (Bug)	Module property not resolved when using relative path in require()
WEB-11094 (Bug)	Regular hangs in 13.1.01 64bit using Node + SCSS project
WEB-9447 (Bug)	JSDoc: 'Argument type not assignable to param type' when using parameters with properties
WEB-10139 (Bug)	Autoscroll from source not working on JSON structure view
WEB-10035 (Bug)	Module function is not resolved
JavaScript. Formatter	
WEB-884 (Feature)	Javascript Code Style Request: multi-line var declaration alignment
JavaScript. Frameworks	
WEB-10654 (Feature)	AngularJS: Support for angular-ui-router
WEB-11111 (Bug)	AngularJS: some directives are not recognized as allowed
WEB-11152 (Bug)	AngularJS: Parsing failure

WEB-10982 (Bug)	AngularJS: directives with ':' not allowed.
WEB-10986 (Bug)	AngularJS: img tag with ng-src
WEB-10979 (Bug)	AngularJS: data- prefix is not working for directives
WEB-10981 (Bug)	AngularJS: ngro : define an otherwise condition : missing {
WEB-10984 (Bug)	AngularJS: Expressions in inline styles are shown as errors
JavaScript. Inspections	
WEB-11077 (Bug)	Javascript function metrics don't work for function expressions
WEB-10607 (Bug)	Wrong Javascript inspection warning: "Variable might not have been initialized"
Language Injection	
IDEA-114386 (Bug)	Width of Inject Language options
Node.js	
WEB-10955 (Cosmetics)	provide icon for 'Node.js and NPM' action
WEB-11147 (Bug)	NPM: Upgrade is disabled for package that was selected before it's version was fetched
Run | Debug configuration	
IDEA-76185 (Bug)	Macro: $SelectionStartColumn$ and $SelectionEndColumn$ external tools macros count tabs as expanded spaces
SASS	
WEB-11042 (Bug)	Incorrect syntax error in SCSS when using interpolation, dashes, and numbers inside a mixin
Task Management	
IDEA-121192 (Bug)	Task management: JIRA: Search: order by clause causes errors in Open Task
IDEA-121077 (Bug)	Tasks: JIRA: error in query composition on typing search criteria in Open Task
IDEA-121074 (Bug)	Settings / Tasks / Servers: JIRA: search field turns disabled after typing a char
TextMate Bundles	
RUBY-14933 (Task)	IR Black theme for TextMate Theme in WebStorm
TypeScript	
WEB-7445 (Feature)	Leverage TypeScript's 0.9 pull-based type checking
WEB-10599 (Usability Problem)	Typing space after : in TypeScript declaration inserts first (auto) suggested variant
WEB-11028 (Bug)	Typescript: Assigned expression string is not assignable to type string
WEB-11027 (Bug)	hasOwnProperty not resolved on interface instance
WEB-10887 (Bug)	TypeScript: unexpected error occured when Import clause with immediate export
WEB-10594 (Bug)	TypeScript constructor type shows as type error with valid signature
WEB-10792 (Bug)	[Good code bad] arguments.length in function expression unresolved
WEB-11108 (Bug)	Unexpected code completion in doc comments

WEB-10991 (Bug)	Local variable is colored as global
WEB-11003 (Bug)	false positive: Argument type <class> is not assignable to parameter type <interface>
WEB-11005 (Bug)	Interface is not colored if declared in other file
WEB-11038 (Bug)	Error while working with class in same name namespace
Unit Tests	
WEB-11010 (Bug)	Cucumber-js: escape RegExp special characters on creating step definition
WEB-11067 (Bug)	Karma Plugin broken because of missing intellijCli Node module
WEB-10159 (Bug)	Poor Mocha configuration possibilities
WEB-11093 (Bug)	Code Coverage not picked up for karma in WebStorm 8 EAP
WEB-11007 (Bug)	Cucumber-js: correctly create expression for step definition
WEB-11008 (Bug)	Cucumber-js: correctly create And and But step definitions
WEB-11009 (Bug)	Cucumber-js: correctly create star steps definitions
User Interface	
IDEA-98635 (Usability Problem)	Image Viewer: The resource image viewer should not blur image data.
IDEA-96651 (Usability Problem)	"Alphabetical order for tabs is ON" warning
IDEA-120304 (Usability Problem)	Exception reporter has no soft wraps and no horizontal scrollbar
IDEA-96348 (Bug)	Export to HTML suggest weird path
IDEA-121261 (Bug)	Mac message dialog locks ui in case of multiple modal dialogs
IDEA-121220 (Bug)	Focus remains on Document tabs instead of Editor area when tabs switching
IDEA-91530 (Bug)	Tab highlighting error when sorted alphabetically
IDEA-120631 (Exception)	SOE through UsageViewTreeCellRenderer.isRowVisible() on showing Find Usages results
Version Control	
IDEA-119215 (Usability Problem)	Git: Log: Filter by User: me doesn't work in multi-user filter
IDEA-115442 (Cosmetics)	Empty lines appear in the log when filtering by branch
Version Control. Mercurial	
IDEA-120663 (Usability Problem)	Log and History broken for mercurial 2.9
IDEA-100495 (Usability Problem)	Ignoring invalid hg configuration
i18n	
IDEA-2870 (Bug)	Resource Bundle Editor behaves strangely for "_" separator
spy-js	
WEB-11021 (Feature)	Spy-js: provide possibility to Mute file from the Stack panel

WEB-10452 (Feature)	Spy-js: UI: provide Events filter
WEB-10453 (Feature)	Spy-js: UI: provide Mapper filter
WEB-10973 (Feature)	Spy-js: add event tree document node context action to remove all its events
WEB-10975 (Feature)	Spy-js: apply UI configured exclusions in instrumenter/tracer (eg stop instrumenting and tracing configured files)
WEB-10974 (Feature)	Spy-js: add Jump to Caller context action to stack nodes to open the function caller exact location
WEB-11035 (Feature)	Spy-js: provide "Close all trace file(s)" action on toolbar
WEB-11020 (Usability Problem)	Spy-js: Events: move "Remove all" action from context menu on toolbar
WEB-11022 (Usability Problem)	Spy-js: Stack: provide info message when all functions are muted
WEB-10976 (Usability Problem)	Spy-js: display "Loading..." text in the stack panel when loading large events
WEB-10801 (Bug)	Spy-js: color settings should be applied immediately
WEB-11161 (Bug)	SpyJS "Jump to Source" not working
WEB-10971 (Bug)	Spy-js: Exclusions: long Condition should not hide toolbar from the view
WEB-11156 (Bug)	Spy-js: hide exception for the worker error
WEB-11084 (Bug)	Spy-js: "Jump to Caller" should always provide selection
WEB-11136 (Bug)	Spy-js: avoid problems with encoding while tracing
WEB-11034 (Exception)	Spy-js: Exclusions: IAE on creation several empty-named exclusions
