PhpStorm EAP 139.425 Release Notes

PhpStorm EAP 139.425 Release Notes

PHP Formatter	
WI-25327 (Bug)	Additional indent is inserted inside switch blocks if "Next line shifted" is enabled
WI-25326 (Bug)	Default block in switch is missing indent
WI-25325 (Bug)	Braces in default block inside switch are indented if "Next line" is chosen for Brace Placement
WI-25385 (Bug)	Try/catch/finally indenting in next line shifted is incorrect
PHP Inspections	
WI-18108 (Feature)	False positive "wrong string concatenation operator" inspection for magic properties
WI-25306 (Cosmetics)	Correct inspection group name grammar
WI-19830 (Bug)	Update PHPDoc and Add @return tag quick fixes places @return in different places
WI-25543 (Bug)	Update PHPDoc: doesn't work for @throws if there is no @param tag
WI-25315 (Bug)	"Traditional syntax array detected" real world usage
PHP Refactoring	
WI-18178 (Bug)	Refactoring properties don't update set function params
PHP lang	
WI-25050 (Cosmetics)	Variable variables are partially left uncoloured
WI-25153 (Bug)	Complete Current statement: insert additional pair of curly braces if there is a finally block in try/catch
WI-25524 (Bug)	Complete current statement: alternative syntax: insert additional end statement is inserted if there is block inside
WI-25526 (Bug)	Complete current statement: alternative syntax: insert additional braces if there is a list keyword
WI-25520 (Bug)	Complete current statement: alternative syntax: additional endif is inserted
WI-24766 (Bug)	IDE FROZEN: PhpStorm does not respond anymore while indexing php project
WI-18201 (Bug)	Complete statement: doesn't work for alternative syntax
PHP lib stubs	
WI-10091 (Feature)	Add support for ZeroMQ class/constant auto competition
WI-25311 (Bug)	missing some methods from MongoId, such as isValid, getHostname etc.
PHP templates	
WI-25403 (Bug)	Emmet is not expanding properly in Smarty file if part of Emmet is similar to Smarty delimeter
WI-13669 (Bug)	Twig indention issue in multiline object
WI-21276 (Bug)	Twig: syntax highlight for if suffix in for tags
WI-25419 (Exception)	Blade: exception is thrown on removing indent

PHP test	
WI-25172 (Bug)	Create Behat Step Definition intention does not escape slashes
WI-24060 (Bug)	Behat: steps defined in traits mixed into the context files are not found
WI-25440 (Bug)	Behat: Create Behat Step Definition from step with $ (dollar sign) generates broken method

Plugin: Phing	
WI-25545 (Bug)	Some properties are not shown in completion on Mac

Documentation	
IDEA-132187 (Task)	Write javadoc for PsiModificationTracker and related classes

No subsystem	
WEB-13951 (Feature)	Allow Emmet TAB completions in JSX
IDEA-131732 (Usability Problem)	Unclear labels in the Settings	Tools	Server Certificates page
IDEA-131549 (Usability Problem)	UML: Cannot find UML actions using 'Find Action' action and 'UML' search key
IDEA-131506 (Performance Problem)	Memory leak in UndoRedoStacksHolder
RUBY-15606 (Performance Problem)	UI hangs for noticeable time if using Vagrant plugin
IDEA-131811 (Cosmetics)	Wrong grammar in a message box text
IDEA-128849 (Bug)	Plugin downloader can't handle HTTP redirect
IDEA-22740 (Bug)	Creating a new livetemplate from selection causes duplicate code
WEB-13466 (Bug)	Binary and Octal Literals
WEB-13295 (Bug)	Incorrect files downloaded for ZURB Foundation projects, on phpStorm 7.1.3
PY-14261 (Bug)	"Surround with custom folding region" breaks indentation in Python
IDEA-127636 (Bug)	Show History command missing in Find Action
IDEA-132478 (Bug)	Check for updates doesn't suggest latest major version
PY-14233 (Bug)	Python's "View Array" action is shown in Java debugger popup menu with empty text
IDEA-131592 (Bug)	Menu disappeared after debugging Node application
WEB-13867 (Bug)	Can't change color of HTML tag names

Code: Parsing	
CPP-975 (Bug)	"syntax error" on function-style cast of an expression to a primitive type

Debugger	
PY-14185 (Usability Problem)	View as array: show menu item only for supported variables types
IDEA-132100 (Usability Problem)	Debugger: Evaluate Code Fragment: restoring from history without semicolon is a problem for class definitions
IDEA-131521 (Cosmetics)	Provide unified capitalization

PY-14189 (Cosmetics)	View as Array: action capitalization in menu is inconsistent
PY-14194 (Cosmetics)	View as Array: dialog title is confusing
IDEA-125322 (Bug)	Debugger: F2 adds new row in Watches
IDEA-131653 (Bug)	The "Value Auto Tooltip" option in the Debugger Settings menu does not work properly
IDEA-132566 (Bug)	"View as" hex for byte array is not working
IDEA-132017 (Bug)	Debugger|Code Fragment evaluation mode: restore text from history provides red highlighting (unexpected token)
IDEA-131712 (Bug)	Debugger is showing current position on evaluate
Eclipse Integration	
IDEA-132645 (Bug)	Eclipse integration problem: all imported modules have been lost after project reloading (100% reproduce)
Editing	
PY-11357 (Bug)	Unable to use "Surround With" on anything if it's the first or the last declaration in a class
Editor. Editing Text	
IDEA-131780 (Performance Problem)	UndoManager stores large char arrays in ImmutableText
File Watchers	
WEB-13886 (Bug)	No scrollbar in Choose template menu in File Watchers preferences
HTML	
WEB-541 (Feature)	(X)HTML and body indentation
WEB-2323 (Bug)	HTML formatter can only format 200 lines.
WEB-392 (Bug)	HTML always auto-indenting if no parent tag
WEB-506 (Bug)	if you define images with relative paths, the size attributes show as errors.
WEB-331 (Bug)	Unresolved Entity Reference for valid HTML entities like € ... etc.
WEB-13982 (Bug)	Incorrect indentation on pressing Enter after XML tag with attributes on multiple lines
IDE	
RUBY-15889 (Bug)	Command Line Launcher opens up in /bin rather than current directory
JavaScript	
WEB-14013 (Feature)	Code Cleanup does nothing
WEB-13944 (Bug)	regular expression literals are no longer syntax highlighted inline, or have the ability to 'check regex'
WEB-13885 (Bug)	Emmet for jsx (React) produces incorrect class syntax
WEB-13780 (Bug)	Coloring for @constructor
WEB-12945 (Bug)	Smartly delete pair brace don't work inside function
WEB-11492 (Exception)	Code analysis failed with exception: java.lang.NullPointerException: null

JavaScript. Formatter	
WEB-12504 (Bug)	ES6 - Indentation after docblock

JavaScript. Inspections	
WEB-13609 (Feature)	JSCS: Navigation into the config from errors shown in the Error panel
WEB-13791 (Cosmetics)	JSCS: Unix: unreadable text hint for Code style preset

JavaScript. Predefs	
WEB-13841 (Bug)	window.requestAnimationFrame() wrong stub
WEB-12720 (Bug)	DataTransfer from MouseEvent missing.

Project Configuration	
IDEA-132024 (Bug)	Mac OS: on importing settings from previous IDEA version plugins are not imported

Rails. Diagrams	
RUBY-10190 (Cosmetics)	Add class to diagram - "Enter class name" dialog box shows in the background

Run	Debug configuration	
IDEA-129421 (Bug)	"Rerun failed tests" ignores pinned status of the tab

SASS	
WEB-13923 (Cosmetics)	Add new Icons for SCSS/SASS
WEB-13938 (Bug)	Mismatched parameters (<expression>)

Task Management	
IDEA-68249 (Feature)	Add Bugzilla as a supported server for Task and Context Management

TypeScript	
WEB-13704 (Cosmetics)	TypeScript: Colors&Fonts: properties from lib.d.ts are not colored
WEB-11508 (Bug)	Class name after 'new' keyword not colorized

Unit Tests	
WEB-13324 (Bug)	Cucumber-js: RC from previous version is broken
WEB-13940 (Bug)	Cucumber-js: 'undefined step reference' reported for all steps

User Interface	
IDEA-128713 (Usability Problem)	Pycharm causing a mount storm in linux using open dialogue due to "look ahead"

IDEA-126386 (Cosmetics)	Update eclipse logo
IDEA-122423 (Bug)	Plugin list is unreadable in GTK+ L&F
IDEA-128476 (Bug)	UI of Customize IDE wizard is broken after theme change
IDEA-126293 (Bug)	White on white menu entry in git branches popup
IDEA-130363 (Bug)	Recently Edited Files list should survive restart
IDEA-127185 (Exception)	Switcher throws exception and stops working
User Interface.Darcula	
IDEA-132363 (Bug)	NPE invoking recent searches with Darcula
Version Control	
IDEA-132507 (Usability Problem)	"Clear Read-Only Status" dialog too wide
IDEA-130848 (Usability Problem)	Push dialog initial selection & enabling policy
IDEA-77576 (Usability Problem)	"Compare with Local" action not available in keymap or action popup, no way to invoke without using the mouse
IDEA-130622 (Usability Problem)	Confusing root selection policy in Git push dialog
IDEA-131301 (Cosmetics)	Push dialog has wrong indents in the commit tree view
IDEA-131859 (Cosmetics)	Grammar error in the Settings	Version Control page
IDEA-119375 (Bug)	Unable to assign keyboard shortcut to "Move to Changelist ..."
IDEA-130660 (Bug)	Push Dialog: "No remotes" caption, if target branch is empty.
IDEA-132090 (Bug)	Using F6 to move changes between change lists does not work anymore
IDEA-132149 (Bug)	Changes -> Log view does not works for projects with many modules
IDEA-115773 (Bug)	File Cache Conflict after updating from SVN with symlinks in the project paths
Version Control. Git	
IDEA-131714 (Usability Problem)	Copy revision number should copy full revision number
IDEA-98693 (Usability Problem)	Git Push dialog does not remember remote branch
IDEA-95947 (Bug)	Git: the same notification for unregistered git roots appear every time on adding new module to the project
Version Control. Perforce	
IDEA-132170 (Bug)	Perforce integration: do not block EDT processing VFS events
Version Control. Subversion	

IDEA-131413 (Bug)	Schedule for Addition deadlock - after importing project from Eclipse
IDEA-130912 (Exception)	CCE at org.jetbrains.idea.svn.auth.AuthenticationService.requestSshCredentials
XML	
IDEA-125016 (Bug)	Commenting out a line in an XML file with commented out comments lower in the file can cause unwanted changes (and invalid xml). REGRESSION
XSLT	
IDEA-132585 (Bug)	NPE when XSLT debug
