

Maia EAP

What is Early Access Program

We at JetBrains believe that making tools for developers should greatly involve listening to developers. Our Early Access Program lets development community closely participate in discussions devoted to IntelliJ IDEA and influence development planning, from early stages onwards. Early Access Program allows you to try pre-release versions of our software to evaluate features that will be added to the next release.

Be Careful

It is important to distinguish EAP from traditional pre-release software. Please note that the quality of EAP versions may at times be way below even usual beta standards.

What is Maia?

"Maia" is the codename for IntelliJ IDEA 9.

Download IntelliJ IDEA

IntelliJ IDEA 9.0.4 has been released. You can download it from <http://www.jetbrains.com/idea/download/>

At the moment we don't plan to continue releasing EAP builds for 9.0.x updates.
