

WebStorm 191.7141.24 Release Notes

No subsystem	Bug	WEB-38466	WSL: prettier only works with javascript files
	Bug	WEB-38315	'Convert to async' should also be proposed on class method names
	Usability	WEB-38309	Update bundled plugins description
CSS	Bug	WEB-38273	Problem with justify-self and justify-items warnings in media queries
CoffeeScript	Bug	WEB-35373	coffeescript JSX props spread
	Bug	WEB-35376	coffeescript JSX React.Fragment shorthand
Debugger	Bug	WEB-38228	Electron App does not start up corretly in DebugMode
	Bug	WEB-38097	%NODE_DEBUG_OPTION% in NPM Script not working anymore
JavaScript	Bug	WEB-38357	No completion for @editorjs/editorjs npm package
	Bug	WEB-38488	NPE when creating a new object property
	Bug	WEB-37583	JS: Completion doesn't show nested indexer in the object key
	Bug	WEB-38414	Auto import in Flow adds path to the IDE bundled definitions for React instead of the project ones
	Bug	WEB-38467	`top level this` false-positive inspection's warning for class with JSX
	Bug	WEB-38514	'Complete current statement' doesn't work for TS enums
	Bug	WEB-38198	.var postfix template doesn't work after ES6 tagged template
	Performance	WEB-38158	High CPU usage, code analysis never completes when resolving references from "reselect" module
JavaScript. Frameworks	Feature	WEB-35582	create-react-app: option to generate project with TypeScript
	Bug	WEB-38180	Angular v7 error type detection in template after pipe.
	Bug	WEB-38234	Inspection: false positive "Unresolved function or method then()" on async functions without explicit Promise<> return type. (Angular) WS 2019.1
	Bug	WEB-38550	"Not an Angular Module" inspection false positive
	Bug	WEB-38554	Angular, Native Script: provide extension to contribute to template context
	Bug	WEB-35634	Angular: directives from node modules not present in package.json are not available
	Bug	WEB-38265	False positive "unresolved variable value"
	Bug	WEB-38448	False 'unresolved' error in angular template
	Bug	WEB-38458	Incorrect "not declared in any Angular module" inspection warning in spec files
	Bug	WEB-38364	Angular: Support metadata references in input/output decorator properties for @syncfusion library
	Bug	WEB-38361	Angular CLI: schematics are broken with 8.0.0-beta.11
	Usability	WEB-38425	UI improvements for inspections and completion presentation for Angular components
JavaScript. Inspections	Bug	WEB-38138	inspection incorrectly reports "variable xyz is declared in clause abc but is being used in clause def"
	Bug	WEB-38383	False 'redundant typeof check' when using destructuring assignment with default values
JavaScript. Refactoring	Bug	WEB-38306	'Convert to async' doesn't properly process chains with calls as then/catch arguments

	Bug	WEB-38329	"Add braces to arrow function" in JSX replaces function body with `{ return null; }`
	Usability	WEB-38304	Extend availability of 'Convert to async' action to the same scope as 'convert to anonymous/named' are available o
Linters	Bug	WEB-38490	Exception attempting to suppress ESLint errors from the Inspection results tool window
Node.js	Bug	WEB-38253	Missed update npm dependencies on not actual node_modules in PyCharm
	Bug	WEB-37960	WSL: Angular Karma: the wrong path is used for old framework versions
	Bug	WEB-38176	NPM package version is mistakenly reported as not matching range from package.json
	Usability	WEB-37992	The tool window clear buffer icon (garbage bin) is gone
TypeScript	Bug	WEB-38464	Typescript: Jest globals are no longer suggested in 2019.1.1
	Bug	WEB-38275	Some pipes not available in auto-completion
	Bug	WEB-38270	TypeScript editor sometimes stop working
	Bug	WEB-38113	typeof inspection bug
	Performance	WEB-38440	Slow augmentation resolution in angular projects
	Usability	WEB-37918	Bad completion suggestion for type alias containing platform primitives
Unit Tests	Feature	WEB-37985	Use arrow function when generating Jasmine suite/spec with ES6 language level
	Feature	WEB-35160	Detect test runner if it's installed but not listed directly in package.json
	Bug	WEB-38326	Jest "update snapshot" link no longer displayed
	Bug	WEB-38478	Protractor is set for Karma tests in fresh @angular/cli project
	Bug	WEB-38178	When rerunning failed tests, first test is escaped (using mocha bdd interface)
No subsystem	Bug	IDEA-210940	Borderless UI: Welcome screen is cut (shorter then should be) and can not be resized
	Bug	IDEA-211042	Borderless UI: Can't move window by clicking near the minimize icon
	Bug	IDEA-131162	Call Hierarchy Tree Creates Infinite Nesting on Recursive Functions
	Task	IDEA-207966	Defaults RL locations number to 25
	Exception	IDEA-210739	UOE at com.intellij.openapi.vcs.impl.projectlevelman.NewMappings.cleanupMappings
Debugger	Usability	IDEA-210164	No visual feedback on toggling a breakpoints in diff-view
Editor. Code Completion	Bug	IDEA-209206	Completion: avoid showing loading... for multiple entries in the fully resized completion list
Editor. Editing Text	Feature	IDEA-211180	Jump outside closing bracket with Tab should jump after the semicolon
	Bug	IDEA-210104	Move Caret to Matching Brace moves to wrong position
	Bug	IDEA-211085	Current line number colour incorrectly calculated
Editor. Error Highlighting	Bug	IDEA-198053	Library source does not match the bytecode for VirtualFilePointerTracker
Find, Replace, Find Usages	Bug	IDEA-208622	Find Usages for a class doesn't report instances created via method references (ClassName::new)
JSON	Bug	IDEA-209825	No effect when use \$ref in propertyNamees in json schema
Plugin Management	Bug	IDEA-210955	Plugin deduplication on load should compare id, not name
Project	Bug	IDEA-210208	Inspection profile file is deleted by IDEA

Configuration	Task	IDEA-209554	Support pom maven artefacts
Quick Documentation	Bug	IDEA-210310	Quick Documentation pop-up closes when moving between items in File View
	Bug	IDEA-211038	Ctrl-Shift-Arrow does not resize quick documentation popup but closes it
	Bug	IDEA-210890	Quick documentation for lookup items doesn't work if the file is empty
RegExp	Bug	IDEA-208559	Invalid 'redundant character escape' in JS regex
Run Debug configuration	Cosmetics	IDEA-200261	[Run anything] Completion popup hides and shows after each key press (i.e. flickers)
Structural Search and Replace	Bug	IDEA-209438	new String[0] pattern incorrectly matches new String[0][] expression
	Exception	IDEA-197743	«Perform code analysis» before Commit fails with NPE
Terminal	Bug	IDEA-202809	Terminal tabs can't be reordered
User Interface	Bug	IDEA-210678	Background image resets after exit when using custom theme plugin
	Usability	IDEA-168223	Open recent menu doesn't display project group if any
	Task	IDEA-210932	Borderless UI: ERROR - Ilij.ide.plugins.PluginManager - null cannot be cast to non-null type java.awt.Color
	Exception	IDEA-211366	NPE when trying to open a project from Welcome Screen
User Interface. Controls	Bug	IDEA-206829	JLabel renders "..." in copyable mode regardless if autowrap is enabled.
	Bug	IDEA-208708	JVM crashes when creating vcs diff window
User Interface. Look and Feel	Bug	IDEA-210915	Scrollbar transparency in color scheme loses after changes
Version Control	Bug	IDEA-209149	File Status colors COPIED and RENAMED always appear in editor color scheme
	Bug	IDEA-209461	191.6183.55 hangs on Synchronizing files due to git integration
Version Control. Mercurial	Bug	IDEA-209262	VCS refresh is taking a very long time with Mercurial
XML	Bug	IDEA-210622	Good code is red: No-namespace element incorrectly reported as "not allowed here" in XML file with XML Schema
	Bug	IDEA-206686	Where is "Collapse empty tag" > "fix all in file" option?
