

CLion 2017.3 EAP, build 173.3302.18

| | | | |
|----------------------------|-----------|-----------------------------|---|
| Debugger: LLDB | Bug | CPP-10858 | LLDB: Warning: bin/lldb/LLDBFrontend: bin/lldb/lib/liblldb.so: no version information available (required by bin/lldb/LLDBFrontend) |
| | Task | CPP-8497 | Bundle LLDB 5.0 |
| Debugger: GDB | Task | CPP-10941 | Bundle GDB 8.0.1 |
| Editor. Editing Text | Feature | IDEA-178801 | Multi-line pasting in line comments |
| | Bug | IDEA-180497 | Parameter name hints: incorrect behavior in case of varargs |
| | Bug | IDEA-179556 | Find in updating console |
| | Usability | IDEA-172415 | DB output tool window covers active line in editor |
| External Tools | Bug | IDEA-180522 | Generate Javadoc fails with default settings |
| Packaging and Installation | Bug | IDEA-180730 | Patch update requires UAC elevation even if product installed locally |
| User Interface | Feature | IDEA-173043 | Make tooltips background configurable |
| | Bug | IDEA-159531 | Comboboxes hide background picture |
| | Bug | IDEA-180276 | Broken generics parameter type for completion |
| | Bug | IDEA-180576 | copy from structure window doesn't work in fresh idea eap |
| | Bug | IDEA-180520 | AE at com.intellij.openapi.util.text.StringUtil.assertValidSeparators |
| | Cosmetics | IDEA-161840 | Background Image is not set for the Preview of Find results when it displays 'select occurrence to preview' |
| Code Insight | Bug | PY-25606 | StringIndexOutOfBoundsException in PyAnnotateTypesIntention |
| | Bug | PY-26493 | Auto Complete stops working after first use when class object is passed to a function and identified with assert instanceof |
| | Usability | PY-3563 | Put classes from already imported modules on top of auto-import variants list |
| Console | Bug | PY-25742 | Weird syntax error on executing line in console left after executing file |
| | Bug | PY-26413 | Unable to navigate through console history |
| | Cosmetics | PY-26557 | Typo in Console Settings |
| Debugger | Bug | PY-26460 | Image is cropped on retina display |
| | Bug | PY-26270 | Use white background for plots if light color scheme is used |
| | Usability | PY-26289 | Do not evaluate variables during debug session if Variables View is hidden |
| Interpreters Settings | Feature | PY-21571 | It should be possible to specify a default folder for virtualenvs |
| | Bug | PY-26456 | PyCharm doesn't allow to create project right after interpreter is chosen |
| | Bug | PY-26443 | PyCharm doesn't auto rename virtualenv according to project |
| | Bug | PY-26358 | Can't select venv as existed interpreter |
| | Bug | PY-14906 | options/jdk.table.xml does contain absolute path. Should be ~/ |
| | Bug | PY-26372 | False positive: location directory is not empty if existing interpreter is selected |
| | Bug | PY-26373 | PyCharm uses wrong slash for venv path on Windows |
| | Usability | PY-13464 | Truncated virtualenv paths look strange and lead to ambiguity |
| | Usability | PY-13099 | Remember last used virtual environment location |
| | Usability | PY-26360 | Not a clear way to create conda venv |
| | Usability | PY-26357 | Existing interpreter list is not updated until PyCharm is restarted |

| | | | |
|-------------|-----------|--------------------------|--|
| | Usability | PY-20109 | Annoying automatic scrolling to the system interpreter executable in "Select interpreter" dialog |
| | Usability | PY-26359 | Do not start interpreter updating right away when system interpreter is selected on new project window |
| | Usability | PY-26376 | PyCharm won't preselect previously used venv base interpreter if it was a detected interpreter |
| | Usability | PY-15911 | Make managing **many** local interpreters easier |
| | Cosmetics | PY-18439 | Remove minor version from generated interpreter name |
| Test Runner | Bug | PY-26432 | teamcity.diff_tools error shows when doing a self.subTest() instead of usefull fail message |
