

RubyMine 4.0 EAP (build 110.209) Release Notes

 Download the latest available EAP build from [RubyMine EAP](#) page.

IDE

- Code insight performance/memory consumption improvements
- Mac UI improvements
 - UI polishing
 - Full screen mode (Mac OS X Lion)
- IDE menu reorganized
- Github support improvements
- Commit diff quick preview in commit dialog

Ruby

- Native gems code insight support

Debugger

- Set value
- Navigatable backtraces

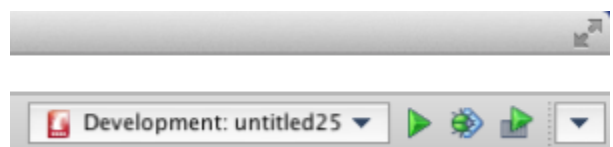

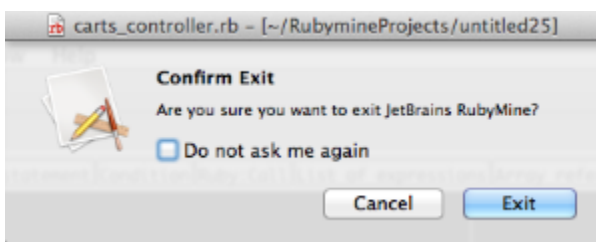

Rails

- CoffeeScript code insight
- SCSS/LSCSS code insight

Bug Fixes

- Use bundler for fetching list of available rake tasks (rake -T)
- Improved "Stop" button behaviour. On Unix it sends SIGINT to processes tree on first push, and SIGKILL on second attempt.
- Other [bug fixes](#)
