

Python Unit Test Reporting

General Info

Vendor	JetBrains
License	Apache 2.0
Type	free, open-source
Status	stable

Description

This is not actually a plugin, but a Python Package that automatically reports unit tests to the TeamCity server when run under TeamCity, provided the testing code is adapted to use it.

The reporting is performed via TeamCity [service messages](#).

Supports `nose`, `py.test` and bundled `unittest`.

Versions Compatibility

TeamCity 3.1+
Python 2 (2.6+)
