

Maia 94.273 Release Notes

No subsystem	
IDEA-52050 (Bug)	Run/Debug Configurations for applets: Idea doesn't see "Applet class"
Code Analysis. Inspection	
IDEA-49762 (Usability Problem)	Inspections: Hard coded string literal does not suggest to add @Nonnull with dependency to a module with annotations.jar
IDEA-23868 (Usability Problem)	MAIA: Code Inspection "call chain" links do not navigate
IDEA-26944 (Bug)	Refused bequest inspection should be JUnit-4.5 aware
IDEA-51945 (Bug)	dataflow "to here" analysis fails to consistently display "method too complex to analyze" leading user to miss some important dataflow cases
IDEA-51944 (Bug)	IDEA treats 1.0/0.0 value as an error
IDEA-51993 (Bug)	"CastConflictsWithInstanceof" Inspection bug
IDEA-51755 (Bug)	Quickfix for "Instantiating object to get class object" fails with arrays
IDEA-26781 (Bug)	inspection error with Set initialization
Unit Testing. JUnit	
IDEA-24545 (Bug)	IDEA loses test results of tests with multiple failures
IDEA-24815 (Bug)	JUnitRunner fails silently when it cannot find method and runs all methods instead.
Code Navigation	
IDEA-51864 (Feature)	Tooltip for overridden method in enum reports "anonymous", but should report the ENUM value instead
Flex Support	
IDEA-51954 (Feature)	IDEA should download asdoc not javadoc for maven flex artifacts
IDEA-51777 (Cosmetics)	Collection iteration live templates: suggest the same counter name for consecutive loops
IDEA-51739 (Bug)	Code highlight is not updated upon modification
IDEADEV-40795 (Bug)	Ctrl+Q for ResourceManager.getClass() shows nothing
IDEA-51610 (Bug)	Don't suggest to replace with import a package name that looks like fqcn
IDEA-26392 (Bug)	expressions in mxml Binding tag are marked as error
Project Configuration	
IDEA-27190 (Usability Problem)	Artifacts: Add context action to create .jar archive from module output
IDEA-50718 (Usability Problem)	Artifact editor: starting the drag and drop of multiple selection drags the single item
IDEA-25499 (Usability Problem)	artifacts config: UI for easy configuration of exploded wars
IDEA-51901 (Cosmetics)	Typo in Subversion settings dialog

IDEA-27194 (Bug)	Artifacts should delete old-named artifacts file when I press apply button
IDEA-51749 (Bug)	"Could not save project" error message may occur after deleting module imported from Maven
IDEA-51999 (Bug)	Global librares of IDEA 8 are not imported to IDEA 9
Plugin Support. Architecture	
IDEA-52098 (Bug)	Unparseable since-build version causes Plugin Manager failures
Version Control	
IDEA-51543 (Feature)	Add Quick Search to Commit View popup
IDEA-27603 (Feature)	Indicate which branch is being worked on
IDEA-52040 (Task)	Map F1 and help button of the New Changelist dialog
IDEA-47285 (Bug)	Local changes diff with a not recognized file extension
IDEA-51396 (Bug)	Tasks: if conflicted file is opened in 2 editor tabs, tasks toolbar actions (switch changelist/move changes/ignore) don't make toolbar disappear
XML editing	
IDEA-52065 (Bug)	Editing huge XML file blocks IDEA
Version Control. CVS	
IDEA-51844 (Usability Problem)	CVS: provide some message if Import fails since user has no write access to selected repository
IDEA-51710 (Bug)	CVS Compare compares with wrong version
IDEA-51905 (Bug)	CVS: Update Project and Repository/Incoming views don't work if the VCS root is set to <Project Root>, but the project root itself doesn't contain CVS admin files
Code Analysis. Dependencies	
IDEA-24326 (Bug)	Analyze Backward Dependencies: Scope not added to bottom dropdown
Version Control. ClearCase	
IDEA-52025 (Bug)	ClearCase: Update Project action doesn't work
Refactoring	
IDEA-40700 (Feature)	Refactor / Inline parameter: usages with a static non final field and static method are not allowed to inline
IDEA-51545 (Feature)	Delete Method Implementations dialog (e.g. that is shown on safe delete): show method's body
IDEA-13418 (Feature)	When renaming a non static field which is in UPPER_CASE suggest the camelCase equivalent.
IDEA-36989 (Feature)	Introduce Constant loses @nonNIs
IDEA-19440 (Feature)	convert anonymous to inner: suggested naming could be smarter
IDEA-39608 (Feature)	Refactor / Inline class: collisions with getClass()
IDEA-39290 (Usability Problem)	Refactor / Move to inner: respect code style options for imports

IDEA-39083 (Usability Problem)	Refactoring / Inline class: just show a warning if class is not used, and probably do nothing
IDEA-39296 (Cosmetics)	Refactor / Move to inner: do not warn about package local class accessibility if it is moved into public interface
IDEA-52007 (Cosmetics)	Undo move several classes: message speaks about only the first class
IDEA-40651 (Bug)	"Move inner to upper level" does not offer to pass outer class instance if inner class references protected methods of superclass of outer class
IDEA-40703 (Bug)	Refactor / Inline parameter: process the case where local class participates in the argument
IDEA-39729 (Bug)	Refactor / Move class to inner: preview shows only usages of one file in case of multiple move
IDEA-51952 (Bug)	Paste of class to different project is redirected to the same project
IDEA-40666 (Bug)	Refactor / Inline parameter: "this" as the argument is inlined
IDEA-39274 (Bug)	Refactor / Inline class: inlining RValue with "this reference only" option produces incorrect code
IDEA-39285 (Bug)	Refactor / Inline class: non-default constructor processing: only the first assignment of each variable in constructor's body is inlined
IDEA-51941 (Bug)	Error in CMP field rename
IDEA-20816 (Bug)	Push Down Member does not handle super accesses correctly
IDEA-39208 (Bug)	Inline inner class changes code semantics
IDEA-39353 (Bug)	Refactor / Inline class: methods with parameters of inlined class are processed incorrectly
IDEA-40732 (Bug)	Refactor / Inline parameter: handle the case when argument expression throws an exception
IDEA-40733 (Bug)	Refactor / Inline parameter: array argument: actions on array's members are ignored
IDEA-40731 (Bug)	Refactor / Inline parameter: check for visibility issues
IDEA-22871 (Bug)	Rename refactor gets confused when combining rename-getter with rename-from-interface
IDEA-42195 (Bug)	Refactor / Safe delete: method is deleted from implemented class when deleting from only one interface inheritance branch
IDEA-20700 (Bug)	Renaming Local Variable Can Lead to Shadowing By Field
Task Management	
IDEA-51737 (Cosmetics)	Issues completion list: no need to have issue title in braces
IDEA-51839 (Cosmetics)	Tasks: the deleted server entry with empty url appears incorrectly in the previously entered entries list
IDEA-50727 (Bug)	Tasks: MoveChangesToActiveChangelist appears twice
IDEA-51824 (Bug)	Task list menu unavailable with scrollbar
IDEA-51828 (Exception)	Frequent exception from TaskManager plugin
CSS Editing	
IDEA-46110 (Feature)	Support for CCS3 HSL color codes
IDEA-51794 (Usability Problem)	Reformat breaking Firefox specific css
IDEA-33867 (Usability Problem)	"Extract Embedded Csx" should be in Refactor menu, not intention menu
IDEA-49254 (Bug)	RubyMine - CSS parser not parsing line-height properly
IDEA-49253 (Bug)	CSS: unknown -moz-border-radius-bottomleft/right/...
IDEA-50404 (Bug)	Unknown vendor-prefixed CSS properties should be checked as property without vendor-prefix
IDEA-49178 (Bug)	Unable to rename CSS class in class attribute

IDEA-45297 (Bug)	CSS color completion inserts names not hex values
GWT Support	
IDEA-26900 (Feature)	Support UIBinder functionality introduced in GWT 2.0
Groovy/Grails	
IDEA-51893 (Feature)	Quick Fix "Create Field" when using Groovy named parameters
IDEA-51520 (Feature)	Show Grails plugins-specific directories in Grails view
IDEA-24452 (Feature)	Autocomplete doesn't work in with context and GString expression
IDEA-51908 (Feature)	Grails 1.2: 'build', 'test' and 'provided' dependency scopes could be supported
IDEA-51880 (Bug)	Invalid 'constructor result ignored' inside closure
IDEA-51686 (Bug)	Groovy syntax parser does not recognize that indexing using array returns a slice
IDEA-27065 (Bug)	Editor cannot resolve GDK methods invoked on uninitialized untyped variables (fields, parameters, local vars)
IDEA-51820 (Bug)	size() method is not resolved for Groovy arrays
IDEA-51822 (Bug)	GString to String coercion doesn't work for ternary method arguments
IDEA-51932 (Bug)	Relax 'not all execution paths return a value', methods with unspecified return type may return nothing
IDEA-51930 (Bug)	Don't force Groovy closures to return a value via all execution paths
IDEA-51929 (Bug)	Passing empty list to super Groovy constructor gives wrong incompatibility warning
IDEA-51924 (Bug)	Incremental Groovy compilation with untouched transitive dependencies results in NCDFFE
IDEA-52006 (Bug)	Groovy: using '.class' in property name flagged as error (good code is red)
IDEA-51918 (Bug)	Smart enter moves caret to parent code block in Groovy
IDEA-50536 (Exception)	Quick fix "Implement methods" for java classes that implement groovy interface cause NPE at GenerateMembersUtil.substituteGenericMethod()
IDEA-52032 (Exception)	IllegalArgumentException at BaseInspectionVisitor.registerError() on typing 'new' keyword in groovy script
Editor. Intention Actions	
IDEA-51404 (Bug)	Add unambiguous imports and Optimize imports on the fly do not work
J2EE.Web	
IDEA-46516 (Usability Problem)	CSS Styles Preview window has no close button
IDEA-51939 (Bug)	IDEA doesn't recognize web context after creating war archive artifact
J2EE.Deployment and Run.Generic	
IDEA-26140 (Feature)	"Update" dialog for running web app: "Restart server" option
Version Control. Perforce	
IDEA-52026 (Exception)	NPE at org.jetbrains.idea.perforce.application.PerforceManager.getClientRoot

Editor. Code Completion	
IDEA-51798 (Bug)	Create Local Variable from unresolved assignment produces invalid result if type is an inner class.
Find, Replace, Find Usages	
IDEA-25984 (Bug)	Idea 9 Beta ran out of memory (2GB)while doing a "find in files" with 400 results
IDEA-25584 (Bug)	Back reference in regexp replacement doesn't work
Editor. Error Highlighting	
IDEA-22821 (Bug)	Issue with recognizing Java 5 Generic methods
IDE Configuration	
IDEA-51831 (Bug)	Changing custom Colors & Fonts scheme corrupts default one
J2EE.EJB2	
IDEA-52018 (Bug)	PsiTypeElement error when deleting overriding method with bad return type
J2EE.JSP	
IDEA-51643 (Bug)	Correctly mapped Web Resource directory is highlighted in red for tagdir
Version Control. Subversion	
IDEA-51354 (Usability Problem)	Not logged to SVN notification: allow to copy message to clipboard
IDEA-51865 (Usability Problem)	Failed Subversion authentication usability problem
IDEA-26360 (Bug)	Performance and inconsistency issues with svn:externals and "Detect nested working copies"
IDEA-51873 (Bug)	Possible SVN startup Issue
IDEA-47182 (Bug)	No-named action between "Set property..." and "Rollback"
Debugger	
IDEA-34419 (Bug)	Same keyboard shortcut assigned to two actions in one dialog - Debugger options
IDEA-29038 (Bug)	Debugger: "Show maximum xxx array elements": somehow show that specifying max number > endIndex - startIndex + 1 doesn't have much sence
IDEA-22874 (Bug)	Cannot dismiss "Range is Too Big" dialog.
IDEA-31228 (Bug)	Navigation cursor jumps to another group in case of the first breakpoint list deletion
J2EE.Spring	
IDEA-52036 (Bug)	spring: bean name convention: allow dot (.
IDEA-46306 (Bug)	Spring Inspection - Red on right code
IDEA-51685 (Bug)	Good code is red when @Resource uses with @Controller

User Interface	
IDEA-48373 (Task)	"Select JDK" page of the New Project Wizard is not uniform
IDEA-51296 (Bug)	Cursor is lost after rerunning contents of the Run Pane
Maven Integration	
IDEA-51974 (Bug)	Got an exception during maven reimport
IDEA-52110 (Bug)	Maven plugin fails to initialize
IDEA-44793 (Bug)	Maven: the goals unselected in run configurations should not keep 'before run' status in MavenProjects view
IDEA-44796 (Bug)	Maven: on setting 'execute before launch...' for some goal via Maven view the selected RunConfiguration should get corr.option checked
IDEA-27237 (Bug)	Maven re-import removes exclusion of Maven's "target" folder and adds target/generated-sources/groovy-stubs/main as source folder
IDEA-51718 (Bug)	Maven: new gmaven plugin is not supported
IDEA-42264 (Bug)	Maven: the MavenProject view should be properly updated on setting 'execute before Run' for goals
IDEA-51988 (Bug)	IDEA locked up after adding a maven module.
SQL	
IDEA-51874 (Bug)	PostgreSQL : substring argument marked in red
IDEA-45897 (Bug)	SQL: CASE operator (expression) without parenthesis as an operand is red
